Learning Contracts Series English Edition:

Learning Contracts Jack M. Graves, 2014 *Learning Contracts* relies on more than appellate opinions to teach students the law. Structured presentations, detailed explanations, illustrative examples, and helpful summaries provide for more efficient learning and understanding of basic doctrine in advance of class, thus facilitating a flipped classroom approach. With this approach, much more of your valuable class time can be spent on problems, both those included at the end of each lesson for preparation by students before class and others provided in teaching materials for real-time problem solving during class. This new book provides substantial coverage of common law UCC Article 2 and the CISG using a comparative approach and can reasonably be completed in a 4 credit hour course or liberally supplemented with skills building exercises for a 5 or 6 credit hour course.

Express Series English for the Fashion Industry Mary E. Ward, 2015-10-08 Please note that the Print Replica PDF digital version does not contain the audio. *English for the Fashion Industry* gives students the communication skills they need for a career in fashion. The syllabus introduces each element of the industry from garment design and construction through to the production and promotion of collections. Students learn how to describe looks and trends, talk about processes, and make plans and predictions for brand development.

Learning Contracts Geoff Anderson, David Boud, Jane Sampson, 2014-05-12 *Learning contracts* have been a successful feature of many university continuing education programmes over the last 20 years, but many staff are still unfamiliar with them or have difficulty using them. This guide introduces the learning contract to those considering using them on their courses.

A Complete Guide to Learning Contracts George Boak, 1998 George Boak's book reviews the different kinds of contract and looks at their advantages and disadvantages. He explains what is involved in preparing, negotiating, supporting, and evaluating a contract and discusses related issues such as accreditation and the links between learning contracts and the competency-based approach.
