**Forensic Psychological Assessment in Practice** Corine de Ruiter, Nancy Kaser-Boyd, 2015-02-20 Forensic

Psychological Assessment in Practice Case Studies presents a set of forensic criminal cases as examples of a scientist practitioner model for forensic psychological assessment. The cases involve a number of forensic issues such as criminal responsibility, violence risk assessment, treatment planning, and referral to long term forensic care. Likewise, different types of offenses are covered, for example, sexual offending, arson, homicide, robbery, and domestic violence. The authors address a variety of mental disorders, including psychosis, posttraumatic stress disorder, psychopathy, and other personality disorders. The book will be useful for novice and experienced forensic psychologists and psychiatrists who are looking for case studies that integrate the most recent empirical evidence with psychological test findings.

*International Perspectives on Violence Risk Assessment* Jay P. Singh, Stål Bjørkly, Seena Fazel, 2016-07-01. With the world's prison population continuing to grow and the number of secure inpatient beds in psychiatric hospitals on the rise, establishing valid and reliable methods of identifying individuals who will commit violent acts is an important global health and public safety issue. One approach to identifying future offenders is through the use of risk assessment. Unstructured and structured methods of predicting the likelihood of antisocial behavior. Although much has been written on the performance of risk assessment in research settings, little is known about current standards of practice and relevant public policy across the globe. *International Perspectives on Violence Risk Assessment* includes chapters by leading risk assessment scholars in more than 15 countries and explores the topic from a truly international outlook. Using findings from the seminal International Risk Survey (IRiS), the largest qualitative study in the history of the field, current assessment, management, and monitoring practices on six continents are explored. Authors identify and describe the most commonly used risk assessment tools, examine risk communication preferences, and provide recommendations for mental health practitioners, criminal justice professionals, and legal professionals. Finally, authors review the seminal research studies, current practice guidelines, and relevant legal statutes of their jurisdictions. This volume serves as an invaluable resource for researchers, practitioners, and policymakers interested in this rapidly evolving field.

*The SAGE Encyclopedia of Criminal Psychology* Robert D. Morgan, 2019-04-25. The *SAGE Encyclopedia of Criminal Psychology* will be a modern interdisciplinary resource aimed at students and professionals interested in the intersection of psychology, e.g., social, forensic, clinical, criminal justice, sociology, and criminology. The interdisciplinary study of human behavior in legal contexts includes numerous topics on criminal behavior, criminal justice policies, and legal process, crime detection and prevention, eyewitness identification, prison life, offender assessment and rehabilitation, risk assessment and management, offender mental health, community reintegration, and juvenile offending. The study of these topics has been increasing continually since the late 1800s, with people trained in many legal professions such as policing, social work, law, academia, mental health, and corrections. This will be a comprehensive work that will provide the most current empirical information on those topics of greatest concern to students who desire to work in these fields. This encyclopedia is a unique reference work that looks at criminal behavior primarily through a scientific lens. With over 500 entries, the book brings together top

empirically driven researchers and clinicians across multiple fields psychology criminology social work and sociology to explore the field      *Assessing Trauma in Forensic Contexts* Rafael Art. Javier,Elizabeth A. Owen,Jemour A.

Maddux,2020-02-29 This book examines the different ways that trauma is involved in the lives of those who interact with the justice system and how trauma can be exacerbated in legal settings It includes both victims and perpetrators in providing a perspective on trauma in general and a framework that will guide those who evaluate and treat individuals in forensic settings Comprehensive in scope it covers key areas such as developmental issues emotions linguistic and communication difficulties and special populations such as veterans immigrants abused women incarcerated individuals and children The main objective of this book is to bring trauma to the fore in conducting forensic evaluations in order to understand these cases in greater depth and to provide appropriate interventions for a range of problems This masterful book edited by Rafael Art Javier Elizabeth Owen and Jemour A Maddux is a refreshing original and thoughtful response to these needs

demonstrating beyond any doubt why lawyers and forensic mental health professionals must be trauma informed in all of their relevant work Michael L Perlin Esq New York Law School      Handbook of Violence Risk Assessment Kevin S.

Douglas,Randy K. Otto,2020-12-29 The Handbook of Violence Risk Assessment Second Edition builds on the first edition s comprehensive discussion of violence risk assessment instruments with an update of research on established tools and the addition of new chapters devoted to recently developed risk assessment tools Featuring chapters written by the instrument developers themselves this handbook reviews the most frequently used violence risk assessment instruments both actuarial and structured professional judgment that professionals use to inform and structure their judgments about violence risk Also included are broader chapters that address matters such as the consideration of psychopathy and how the law shapes violence risk assessment Already the primary reference for practitioners researchers and legal professionals in this area this second edition s easy to access comprehensive and current information will make it an indispensable reference for those in the field

**Managing Fear** Bernadette McSherry,2013-10-23 Managing Fear examines the growing use of risk assessment as it relates to preventive detention and supervision schemes for offenders perceived to be at a high risk of re offending individuals with severe mental illness and suspected terrorists It outlines a number of legislative regimes in common law countries that have broadened civil as opposed to criminal powers of detention and supervision Drawing on the disciplines of criminology and social psychology it explores how and why such schemes reflect a move towards curtailing liberty before harm results rather than after a crime has occurred Human rights and ethical issues concerning the role of mental health practitioners in assessing risk for the purposes of preventive detention and supervision are explored and regimes that require evidence from mental health practitioners are compared with those that rely on decision makers notions of reasonable belief concerning the risk of harm Case studies are used to exemplify some of the issues relating to how governments have attempted to manage the fear of future harm This book aims to educate mental health practitioners in the law relating to

preventive detention and supervision schemes and how the legal requirements differ from clinical assessment practices examine the reasons why there has been a recent renewal of preventive detention and supervision schemes in common law countries provide a comparative overview of existing preventive detention and supervision schemes and analyse the human rights implications and the ethics of using forensic risk assessment techniques for preventive detention and supervision schemes
