Lectures On The Philosophy Of Religion Vol Iii The Consummate Religion:

Hegel: Lectures on the Philosophy of Religion Hegel, 2008-01-24 The Hegel Lectures Series Series Editor Peter C Hodgson Hegel's lectures have had as great a historical impact as the works he himself published Important elements of his system are elaborated only in the lectures especially those given in Berlin during the last decade of his life The original editors conflated materials from different sources and dates obscuring the development and logic of Hegel's thought The Hegel Lectures series is based on a selection of extant and recently discovered transcripts and manuscripts Lectures from specific years are reconstructed so that the structure of Hegel's argument can be followed Each volume presents an accurate new translation accompanied by an editorial introduction and annotations on the text which make possible the identification of Hegel's many allusions and sources Hegel's Lectures on the Philosophy of Religion represent the final and in some ways the decisive element of his entire philosophical system His conception and execution of the lectures differed significantly on each of the occasions he delivered them in 1821 1824 1827 and 1831 The older editions introduced insoluble problems by conflating these materials into an editorially constructed text The present volumes establish a critical edition by separating the series of lectures and presenting them as independent units on the basis of a complete re editing of the sources by Walter Jaeschke The English translation has been prepared by a team consisting of Robert F Brown Peter C Hodgson and J Michael Stewart with the assistance of H S Harris Now widely recognized as the definitive English edition it is being reissued by Oxford in the Hegel Lectures Series The three volumes include editorial introductions critical annotations on the text textual variants and tables bibliography and glossary The Consummate Religion is Hegel's name for Christianity which he also designates the Revelatory Religion Here he offers a speculative interpretation of major Christian doctrines the Trinity creation humanity estrangement and evil Christ the Spirit the spiritual community church and world These interpretations have had a powerful and controversial impact on modern theology

Hegel: Lectures on the Philosophy of Religion Georg Wilhelm Friedrich Hegel, 2007 This is the first critical edition of Hegel's Lectures on the Philosophy of Religion 1821-31 which represent the final and in some ways the decisive element of his entire philosophical system Volume III contains Hegel's philosophical interpretation of Christianity

Hegel's Century Jon Stewart, 2021-10-28 The remarkable lectures that Hegel gave in Berlin in the 1820s generated an exciting intellectual atmosphere which lasted for decades From the 1830s many students flocked to Berlin to study with people who had studied with Hegel and both his original students such as Feuerbach and Bauer and later arrivals including Kierkegaard Engels Bakunin and Marx evolved into leading nineteenth century thinkers Jon Stewart's panoramic study of Hegel's deep influence upon the nineteenth century in turn reveals what that century contributed to the wider history of philosophy It shows how Hegel's notions of alienation and recognition became the central motifs for the era's thinking how these concepts spilled over into other fields like religion politics literature and drama and how they created a cultural phenomenon so rich and pervasive that it can truly be called Hegel's

century This book is required reading for historians of ideas as well as of philosophy **Jung and his Mystics** John P. Dourley, 2014-04-03 Jung's psychology describes the origin of the Gods and their religions in terms of the impact of archetypal powers on consciousness For Jung this impact is the basis of the numinous the experience of the divine in nature and in human nature His psychology while possessed of a certain claim to science is based on depths of subjective experience which transcends psychology and science as ordinarily understood Jung and his Mystics In the end it all comes to nothing examines the mythic nature of Jung's psychology and thought and demonstrates the influence of mysticism and certain religious thinkers in formulating his own work John P Dourley explores the influence of Mechthild of Magdeburg and fellow mystics Beguines and traces the mystic impulse and its expression through Meister Eckhart and Jacob Boehme to Hegel in the nineteenth century All of these mystics were of the apophatic school and understood the culmination of their experience to lie in an identity with divinity in a nothingness beyond all form formal expression or immediate activity Dourley shows how this is still of relevance in our lives today The book concludes that Jung's understanding of mysticism could greatly alleviate the conflict between faiths religious or political by drawing attention to their common origin in the depths of the human Jung and his Mystics In the end it all comes to nothing is aimed at scholars and senior research students in Jungian Studies including religionists theologians and philosophers of religion especially those with an interest in mysticism It will also be essential reading for those interested in the connection between religious and psychological experience Reformed Dogmatics : Volume 3 Herman Bavinck, 2006-04-01 In partnership with the Dutch Reformed Translation Society Baker Academic is proud to offer in English for the very first time the third volume of Herman Bavinck's complete Reformed Dogmatics This masterwork will appeal not only to scholars students pastors and laity interested in Reformed theology but also to research and theological libraries Bavinck was a man of giant mind vast learning ageless wisdom and great expository skill Solid but lucid demanding but satisfying broad and deep and sharp and stabilizing Bavinck's magisterial Reformed Dogmatics remains after a century the supreme achievement of its kind J I Packer Regent College This magisterial work exhibits Bavinck's vast knowledge and appreciation of the Christian tradition Written from a Reformed perspective it offers a perceptive critique of modern theology Recommended Library Journal **Interpreting Abraham** Bradley Beach, Matthew T. Powell, 2014 Interpreting the Akedah across tradition and across time The story of Abraham and Isaac is a story of near universal importance Sitting near the core of three of the world's great religious traditions this nineteen verse story opens a world of interpretive possibilities raising questions of family loyalty faith and choices that are common to us all This collection of essays takes up the question of how our interpretation of this pivotal text has changed over time and how even in unlikely places the story influences our thought It begins by exploring various readings of Abraham and the Akedah story throughout the traditional lenses of Judaism Christianity and Islam From there it moves into modern and postmodern readings including how such varied thinkers as Kant and Kierkegaard Kafka and Derrida have engaged the text Interpreting Abraham

demonstrates the diversity of interpretations and the dramatic impact of the story on the Western intellectual tradition Back cover

The Christian Faith Michael Horton,2011-01-04

Theology the study of God is a concern for every believer not just theologians or those in ministry It s the goal of good theology to humble us before the triune God of majesty as we come to understand him better This is a book of and about good theology Award winning author theologian and professor Michael Horton wrote *The Christian Faith* as a book of systematic theology and doctrine that can be preached experienced and lived as well as understood clarified and articulated It s written for a growing cast of pilgrims in ministry and laity who are interested in learning about Christ as a way of living as a Christian Who understand that knowing doctrine and walking in practical Christianity are not competing interests *The Christian Faith* is divided into six parts five of which each focus on an aspect of God while the first part sets up an understanding and appreciation for the task of theology itself addressing topics like The source of theology where the idea of theology comes from and what its limits are The origin of the canon how the modern Bible came about and why we can trust it The character of theology is the nature of theology practical theoretical or can it be both In a manner equally as welcoming to professors pastors students and armchair theologians Horton has organized this volume in a readable fashion that includes a variety of learning features A brief synopsis of biblical passages that inform certain doctrines Surveys of past and current theologies with contemporary emphasis on exegetical philosophical practical and theological questions Substantial interaction with various Christian movements within the Protestant Catholic and Orthodoxy traditions as well as the hermeneutical issues raised by postmodernity Charts sidebars questions for discussion and an extensive bibliography divided into different entry levels and topics At the heart of this book is a deep love for and curiosity about God Its basic argument is that a personal relationship with God goes hand in hand with the pursuit of theology It isn t possible to know God without studying him

Understanding Moral Obligation Robert Stern,2011-12-15 In many histories of modern ethics Kant is supposed to have ushered in an anti realist or constructivist turn by holding that unless we ourselves author or lay down moral norms and values for ourselves our autonomy as agents will be threatened In this book Robert Stern challenges the cogency of this argument from autonomy and claims that Kant never subscribed to it Rather it is not value realism but the apparent obligatoriness of morality that really poses a challenge to our autonomy how can this be accounted for without taking away our freedom The debate the book focuses on therefore concerns whether this obligatoriness should be located in ourselves Kant in others Hegel or in God Kierkegaard Stern traces the historical dialectic that drove the development of these respective theories and clearly and sympathetically considers their merits and disadvantages he concludes by arguing that the choice between them remains open

Trinity and Election Shao Kai Tseng,2023-01-26 Challenging Bruce McCormack s paradigm of post Kantian Barth scholarship this book builds on the interpretative model that Sigurd Baark

developed in 2018 This model interprets Barth's innovative adoption of an Anselmian mode of theological speculation against the intellectual historical background of the idealist tradition of speculative metaphysics that culminated in Hegel This book argues that Barth adopted the Anselmian mode of speculation in which immediate self identity between subject object and act is found in the triune God alone while the speculative identity that enables human knowledge of God is none other than the identity between God in and for Godself and God for us Exploring the nationalistic dimension of speculative metaphysics in 19th century Germany Tseng identifies this as an important aspect of the context of Barth's development of a Christocentric form of speculative theology Jewish Cryptotheologies of Late Modernity Agata Bielik-Robson, 2014-08-13 This book aims to interpret Jewish Philosophy in terms of the Marrano phenomenon as a conscious clinamen of philosophical forms used in order to convey a secret message which cannot find an open articulation The Marrano phenomenon is employed here in the domain of modern philosophical thought where an analogous tendency can be seen the clash of an open idiom and a secret meaning which transforms both the medium and the message Focussing on key figures of late modern twentieth century Jewish thought Hermann Cohen Gershom Scholem Walter Benjamin Franz Rosenzweig Theodor Adorno Ernst Bloch Jacob Taubes Emmanuel Levinas and Jacques Derrida this book demonstrates how their respective manners of conceptualization swerve from the philosophical mainstream along the Marrano secret curve Analysing their unique contribution to the unfinished project of modernity including issues of the future of the Enlightenment modern nihilism and post secular negotiation with religious heritage this book will be essential reading for students and researchers with an interest in Jewish Studies and Philosophy *Perjury and Pardon, Volume I* Jacques Derrida, 2022-09-27 An inquiry into the problematic of perjury or lying and forgiveness from one of the most influential philosophers of the twentieth century One only ever asks forgiveness for what is unforgivable From this contradiction begins *Perjury and Pardon* a two year series of seminars given by Jacques Derrida at the cole des hautes tudes en sciences sociales in Paris in the late 1990s In these sessions Derrida focuses on the philosophical ethical juridical and political stakes of the concept of responsibility His primary goal is to develop what he calls a problematic of lying by studying diverse forms of betrayal infidelity denial false testimony perjury unkept promises desecration sacrilege and blasphemy Although forgiveness is a notion inherited from multiple traditions the process of forgiveness eludes those traditions disturbing the categories of knowledge sense history and law that attempt to circumscribe it Derrida insists on the unconditionality of forgiveness and shows how its complex temporality destabilizes all ideas of presence and even of subjecthood For Derrida forgiveness cannot be reduced to repentance punishment retribution or salvation and it is inseparable from and haunted by the notion of perjury Through close readings of Kant Kierkegaard Shakespeare Plato Jankl vitch Baudelaire and Kafka as well as biblical texts Derrida explores diverse notions of the evil or malignancy of lying while developing a complex account of forgiveness across different traditions *God Is Not a Story* Francesca Aran Murphy, 2007-07-19 This is a challenging critique of narrative theologies Murphy

argues that the widespread notion that the role of the theologian is to tell God's story has not helped theology to advance the reality of its doctrines. She offers her own alternative approach making use of cinema and film theory. **Reformed Dogmatics** Herman Bavinck, 2003. In partnership with the Dutch Reformed Translation Society, Baker Academic is proud to offer in English for the very first time all four volumes of Herman Bavinck's complete Reformed Dogmatics. This masterwork will appeal not only to scholars, students, pastors, and laity interested in Reformed theology but also to research and theological libraries.

Eberhard Jüngel and Existence Deborah Casewell, 2021-05-30. This book interrogates the contemporary Lutheran theologian Eberhard Jüngel's theological anthropology, arguing that Jüngel's thought can provide a model for theological engagement with philosophical accounts of existence. Focusing on Jüngel's theology of existence, the author explores the thought of philosophers including Heidegger and Hegel, their influence on and application to his theology, and argues that Jüngel's account of humanity should be seen as a response to atheistic existentialist accounts of existence. In showing how Jüngel's theology is informed by and dependent on philosophical thought, this book provides a new lens on the interplay between philosophy, theology, and religion in twentieth-century German thought. It will be of particular interest to researchers in philosophy, theology, and philosophy of religion.

Ontological Arguments Graham Oppy, 2018-10-31. Ontological arguments are one of the main classes of arguments for the existence of God and have been influential from the Middle Ages right up until the present time. This accessible volume offers a comprehensive survey and assessment of them, starting with a sequence of chapters charting their history from Anselm and Aquinas via Descartes, Leibniz, Kant, and Hegel to Godel, Plantinga, Lewis, and Tich. This is followed by chapters on the most important topics to have emerged in the discussion of ontological arguments: the relationship between conceivability and possibility; the charge that ontological arguments beg the question; and the nature of existence. The volume as a whole shows clearly how these arguments emerged and developed, how we should think about them, and why they remain important today.

Hegelian-Lacanian Variations on Late Modernity Alireza Taheri, 2020-12-29. The current rise in new religions and the growing popularity of New Ageism is concomitant with an increasingly anti-philosophical sentiment marking our contemporary situation. More specifically, it is philosophical and psychoanalytic reason that has lost standing, faced with the triumph of post-secular spirituality. Combatting this trend, this treatise develops a theoretical apparatus based on Hegelian speculative reason and Lacanian psychoanalysis. With the aid of this theoretical apparatus, the book argues how certain conceptual pairs appear opposed through an operation of misrecognition, christened following Hegel as *diremption*. The failure to reckon with identities in difference relegates the subject to more vicious contradictions that define central aspects of our contemporary predicament. The repeated thesis of the treatise is that the deadlocks marking our contemporary situation require renewed engagement with dialectical thinking beyond the impasses of common understanding. Only by embarking on this philosophical-psychoanalytic path of despair, Hegel will we stand a chance of achieving joyful wisdom. Nietzsche: Developing a unique dialectical theory based on readings of

Hegel Lacan and i ek in order to address various philosophical and psychoanalytic questions this book will be of great interest to anyone interested in German idealism and or psychoanalytic theory *Recovering Hegel from the Critique of Leo Strauss* Sara MacDonald, Barry Craig, 2013-11-26 Recovering Hegel from the Critique of Leo Strauss offers a defense of modernity against the critique of the influential mid twentieth century political philosopher Leo Strauss Strauss whose influence on contemporary conservative political theory is well documented discovered the ground of much of what he found wanting in contemporary political and social life to lie in the philosophy of the 19th century German philosopher G W F Hegel Specifically Strauss accused Hegel of being the greatest exponent of historicism and thus the relativism that afflicts modern thought Ultimately according to Strauss this has led to the nihilism and general mediocrity that characterizes modern western culture In this book Sara MacDonald and Barry Craig examine Strauss s reading of Hegel and argue that in fact it is a mis reading Contrary to Strauss s interpretation this book holds that Hegel was no relativist and in fact sought to show the compatibility of objective eternal truth with modern human subjectivity At the same time it illustrates the way in which Hegel s thought prepared the ground for enlightened modern liberal democracies and also remains relevant to current social and political conversations **Ruminations, Volume 5: Fugitive Leaves** Eric v.d.
