other design professionals What others are saying about LEED Green Associate Exam Guide Part I Finally A comprehensive study tool for LEED GA Prep I took the one day Green LEED Green Associate course and walked away with a power point binder printed in very small print which was missing MUCH of the required information although I didn't know it at the time I studied my little heart out and took the test only to fail it by 1 point Turns out I did NOT study all the material I needed to in order to pass the test I found this book read it marked it up retook the test and passed it with a 95% Look we all know the LEED Green Associate Exam is new and the resources for study are VERY limited This one is the VERY best out there right now I highly recommend it Consultant VA Complete overview for the LEED Green Associate exam I studied this book for about three days and passed the exam if you are truly interested in learning about the LEED system and green building design this is a great place to start K A Evans See all our books at GreenExamEducation.com Check out FREE tips on the easiest way to pass the LEED Green Associate Exam and info for all LEED Exams and ARE Exams at GeeForums.com you can post your questions for other users review [LEED Green Associate Study Guide](#) GreenStep,2014-04-21 This study guide was originally developed in conjunction with GreenStep's in person and online LEED Exam Training workshops It has proved to be an effective tool for over 5 000 GreenStep workshop participants serving both as an in class workbook and as a study guide encompassing all of the key information covered on the LEED Green Associate exam GreenStep's study guide and related materials were developed with the mindset that QUALITY is much more important than quantity when preparing for the LEED exam In the development of this study guide our team has scoured every possible resource from which potential exam questions are developed taken passed various versions of the LEED exam multiple times and incorporated valuable feedback from hundreds of past participants from over 300 LEED exam training workshops The result is a comprehensive and concise study guide that covers everything you need to know to pass the LEED Green Associate exam and nothing more The feedback we've received from thousands of participants who have passed the LEED exam on their first try tell us that our approach works **Leed Green Associate V4 Exam Complete Study Guide** A. Togay Koralturk,2015-11-09 PASS THE LEED GREEN ASSOCIATE EXAM WITH FLYING COLORS Having been widely adopted as the primary course material for bachelor's and master's degree classes in architecture and civil engineering in the universities all over the United States the LEED Green Associate V4 Exam Complete Study Guide provides deep insight into the principles of green building and helps the reader to learn rather than to memorize the essential information for the exam Thus this approach equips candidates to successfully pass the LEED Green Associate exam with flying colors in order to actively apply green building and LEED principles in real life This book is the only resource a candidate needs in order to successfully pass the exam As LEED v4 is quite different in comparison to the former versions the book was entirely re-written thus it was not updated from a previous edition All of the chapters contain guidance on the aspects that require extensive attention while the book points out the finer details to focus on for the exam purposes It does not matter how much time passes after taking the exam as learning the

real reasons behind the green building and LEED principles through observation will help to consolidate this information concisely Even though the LEED Green Associate exams are sometimes referred to as conceptual exams in reality the exam goes well beyond that Without diving into the LEED prerequisites and credits a candidate cannot ever guarantee passing the test as a result the book covers the core concepts of each LEED credit category and then evaluates the LEED prerequisites and credits to demonstrate how those green building concepts turn into real projects with LEED requirements Pass the LEED Green Associate exam with flying colors Thoroughly understand and apply the green building principles for life and retain all the information you have learned Apply the green building and LEED principles in real life Know all the important things to consider during the exam beforehand The book is also recommended for students professionals and anyone who has not chosen to take an LEED professional exam but nonetheless retains a strong interest in LEED and green buildings
