Lefebvre For Architects Thinkers For Architects By Coleman Nathaniel 2015 Paperback:

Lefebvre for Architects Nathaniel Coleman, 2014-12-05 While the work of Henri Lefebvre has become better known in the English speaking world since the 1991 translation of his 1974 masterpiece *The Production of Space* his influence on the actual production of architecture and the city has been less pronounced Although now widely read in schools of architecture planning and urban design Lefebvre's message for practice remains elusive inevitably so because the entry of his work into the Anglosphere has come with repression of the two most challenging aspects of his thinking romanticism and Utopia which simultaneously confront modernity while being progressive Contemporary discomfort with romanticism and Utopia arguably obstructs the shift of Lefebvre's thinking from being objects of theoretical interest into positions of actually influencing practices Attempting to understand and act upon architecture and the city with Lefebvre but without Utopia and romanticism risks muting the impact of his ideas Although Utopia may seem to have no place in the present Lefebvre reveals this as little more than a self serving affirmation that there is no alternative to social and political detachment Demanding the impossible may end in failure but as Lefebvre shows us doing so is the first step towards other possibilities To think with Lefebvre is to think about Utopia doing so makes contact with what is most enduring about his project for the city and its inhabitants and with what is most radical about it as well Lefebvre for Architects offers a concise account of the relevance of Henri Lefebvre's writing for the theory and practice of architecture planning and urban design This book is accessible for students and practitioners who wish to fully engage with the design possibilities offered by Lefebvre's philosophy

Mediated Space

James Brown, 2019-08-12 As the social media revolution embeds itself in our daily lives and as those who once consumed media become producers established broadcast media producers are witnessing the dissolution of trust in their established authority *Mediated Space* critiques contemporary intersections of Architecture and broadcast media that exploit spaces and places that are real imagined or hybrids of the two in order to re establish and strengthen the power of traditional capitalist mechanisms of production and consumption Examining eight spatial constructions in North America Europe the Middle East and Africa *Mediated Space* embarks on a global exploration of how architecture spatial design and technology conspire in the service of global capitalism In three thematic parts that focus on the automotive space of the city the journalistic space of the news room and the mediated skyline of the city *Mediated Space* makes an architectural critique of spaces that are rarely designed by architects but that are experienced every day by millions of people

Psychoanalysis and the Global Ilan

Kapoor, 2018-09-01 *Psychoanalysis and the Global* is about the hole at the heart of the global meaning the instability and indecipherability that lies at the hub of globalization The contributors use psychoanalysis to expose the unconscious desires excesses and antagonisms that accompany the world of economic flows cultural circulation and sociopolitical change Unlike the mainstream discourse of globalization which most often assumes unencumbered movement across borders these contributors uncover what Lacan calls the Real of the global its rifts gaps exceptions and contradictions *Psychoanalysis and*

the GLObal adopts a psychoanalytic lens to highlight the unconscious circuits of enjoyment racism and anxiety that trouble if not undermine globalization s economic cultural and environmental goals or gains The contributors interrogate how unconscious desires and drives are externalized in our increasingly globalizing world the ways in which traumas and emotional conflicts are integral to the disjunctures homogeneities and contingencies of global interactions how social passions are manifested and materialized in political economy as much as in climate change urban architecture refugee and gender politics or the growth of neo populism and how the unconscious serves as a basis for the rise and breakdown of popular movements against authoritarianism and neoliberal globalization Psychoanalysis and the GLObal represents a major step forward in understanding globalization and also in extending the range and power of psychoanalytic critiques in and of geography

Recoding Architecture Pedagogy Nathaniel Coleman, 2025-03-25 Disabled by chasing curricular criteria required for accreditation and professional registration architecture schools are mostly compliance and reproduction machines serving the building industry As a corrective Recoding Architecture Pedagogy Insurgency and Invention asserts disciplinary knowledge over professional skills as the proper aim and focus of architecture education The insurgent pedagogy introduced subverts architecture and its teaching s capture by capitalism s dominant modes of production and consumption to reveal unexpected tactics for enlarging possibilities Grounded in architecture histories and theories philosophy and anarchism s emphasis on use and dissensus combined with PUNK s DIY ethos design studio emphasis on technicity is upended to reveal the subversive aim of intensifying tensions between doomed desires for artistic autonomy and intrinsic burdens of use constituting architecture as a discipline instead of seeking resolution some neutral middle ground or escape into banal practice or paper palaces By concentrating on what architecture education suppresses tensions disavows its capture within the building industry or affirms commercial practice over disciplinary knowledge Recoding Architecture Pedagogy Insurgency and Invention cracks open horizons of possibility by showing how intensifying agonistic relationships between the myriad binaries that characterize architecture and its teaching is generative in ways conciliatory synthesis cathartic resolution and uncritical affirmation are not
