Left Out Martin B. Duberman, 2002 For four decades historian Martin Duberman has fought for a more equitable society In the process he has become one of the country s most prominent public intellectuals Presenting a summation of Duberman s views on such matters as race foreign policy gender and sexuality *Left Out* offers one of the best analyses of the Left s split between class based and identity based politics Book jacket *Left Out* Martin B. Revolution Tom Goyens, 2023-12-11 Understanding an infamous political movement s grounding in festivity and defiance *Beer and Revolution* examines the rollicking life and times of German immigrant anarchists in New York City from 1880 to 1914 Offering a new approach to an often misunderstood political movement Tom Goyens puts a human face on anarchism and reveals a dedication less to bombs than to beer halls and saloons where political meetings public lectures discussion circles fundraising events and theater groups were held Goyens brings to life the fascinating relationship between social space and politics by examining how the intersection of political ideals entertainment and social activism embodied anarchism not as an abstract idea but as a chosen lifestyle for thousands of women and men He shows how anarchist social gatherings were themselves events of defiance and resistance that aimed at establishing anarchism as an alternative lifestyle through the combination of German working class conviviality and a dedication to the principle that coercive authority was not only unnecessary but actually damaging to full and free human development as well Goyens also explores the broader circumstances in both the United States and Germany that served as catalysts for the emergence of anarchism in urban America and how anarchist activism was hampered by police surveillance ethnic insularity and a widening gulf between the anarchists message and the majority of American workers **Understanding Disability Discrimination Law through**

Geography Fayyaz Vellani, 2016-02-24 Examining the UK Disability Discrimination Act DDA in comparison to its counterparts in the USA and Australia this book focuses on how it is being interpreted and acted upon in the context of higher education a key area of national attention in the UK It also evaluates this law in the context of the larger project of civil rights legislation and demonstrates that geography can be used to explain law and legal arguments by highlighting their subjectivity and by emphasizing the importance of place specificity and context While providing in depth analysis of the effectiveness and scope of this significant legislation this book demonstrates the importance of geography in the application of law It provides insights into the broader workings of UK anti discrimination law which are particularly relevant given the scrutiny of the Equality and Human Rights Commission and the concerns about the effectiveness of legal tools in fighting discrimination Finally this book critiques liberal notions of legal subjectivity and medical definitions of disability which is topical given the current attention given to debates about identity politics *Cures* Martin Duberman, 2009-07-21 This is the tenth anniversary edition of *Cures A Gay Man s Odyssey* Martin Duberman s classic memoir of growing up gay in pre Stonewall America The tale of his desperate struggle to cure himself of his homosexuality through psychotherapy is utterly

frank and deeply moving But Cures is more than one man's story it's the vivid witty account of a generation of changing times shifting social attitudes and the rising tide of protest against received wisdom For this tenth anniversary edition Duberman has written a substantial new afterword that updates both his personal history and the ongoing struggle for a more just society

Paul Robeson Lindsey R. Swindall, 2013 This book locates Robeson's extraordinary accomplishments in the tumultuous events of twentieth century history Paul Robeson was at points in his life an actor singer football player political activist and writer one of the most diversely talented members of the Harlem Renaissance Swindall centers Robeson's story around the argument that while Robeson leaned toward Socialism a Pan African perspective is fundamental to understanding his life as an artist and political advocate Many previous works on Robeson have focused primarily on his involvement with the US Communist Party paying little attention to the broader African influences on his politics and art With each chapter focused on a decade of his life this book affords us a fresh look at his story and the ways in which the struggles successes and studies of his formative years came to shape him as an artist activist and man later on Cover *The Mourning After* John Ibson, 2018-11-01 On the battlefields of World War II with their fellow soldiers as the only shield between life and death a generation of American men found themselves connecting with each other in new and profound ways Back home after the war however these intimacies faced both scorn and vicious homophobia *The Mourning After* makes sense of this cruel irony telling the story of the unmeasured toll exacted upon generations of male friendships John Ibson draws evidence from the contrasting views of male closeness depicted in WWII era fiction by Gore Vidal and John Horne Burns as well as from such wide ranging sources as psychiatry texts child development books the memoirs of veterans children and a slew of vernacular snapshots of happy male couples In this sweeping reinterpretation of the postwar years Ibson argues that a prolonged mourning for tenderness lost lay at the core of midcentury American masculinity leaving far too many men with an unspoken ache that continued long after the fighting stopped forever damaging their relationships with their wives their children and each other

Southern Masculinity Craig Thompson Friend, 2009 The follow up to the critically acclaimed collection *Southern Manhood Perspectives on Masculinity in the Old South* Georgia 2004 *Southern Masculinity* explores the contours of southern male identity from Reconstruction to the present Twelve case studies document the changing definitions of southern masculine identity as understood in conjunction with identities based on race gender age sexuality and geography After the Civil War southern men crafted notions of manhood in opposition to northern ideals of masculinity and as counterpoint to southern womanhood At the same time manliness in the South as understood by individuals and within communities retained and transformed antebellum conceptions of honor and mastery This collection examines masculinity with respect to Reconstruction the New South racism southern womanhood the Sunbelt gay rights and the rise of the Christian Right Familiar figures such as Arthur Ashe are investigated from fresh angles while other essays plumb new areas such as the womanless wedding and Cherokee masculinity

history of gay life in the 1970s arguing that the decade was about much more than sex and marching in the streets Drawing on a vast trove of untapped records at LGBT community centers in Los Angeles New York and Philadelphia Downs tells moving revelatory stories of gay people who stood together as friends fellow believers and colleagues to create a sense of community among people who felt alienated from mainstream American life As Downs shows gay people found one another in the Metropolitan Community Church a nationwide gay religious group in the pages of the *Body Politic* a newspaper that encouraged its readers to think of their sexuality as a political identity at the Oscar Wilde Memorial Bookstore the hub of gay literary life in New York City and at theaters putting on *Gay American History* a play that brought to the surface the enduring problem of gay oppression These and many other achievements would be largely forgotten after the arrival in the early 1980s of HIV AIDS which allowed critics to claim that sex was the defining feature of gay liberation This reductive narrative set back the cause of gay rights and has shaped the identities of gay people for decades An essential act of historical recovery *Stand by Me* shines a bright light on a triumphant moment and will transform how we think about gay life in America from the 1970s into the present day

the various aspects of their activist agendas This study maps the routes taken by postwar popular front women activists into peace and freedom movements of the 1960s and 1970s Historian Jacqueline Castledine tells the story of their decades long effort to keep their intertwined social and political causes from unraveling and to maintain the connections among peace feminism and racial equality Postwar progressive women and their allies often saw themselves as members of a popular front promoting the rights of workers women and African Americans under the banner of peace However the Cold War indelibly shaped the contours of their activism Following the Progressive Party s demise in the 1950s these activists reentered social and political movements in the early 1960s and met the inescapable reality that their agenda was a casualty of the left liberal political division of the early Cold War era Many Americans now viewed peace as a leftist concern associated with Soviet sympathizers and civil rights as the favored cause of liberals Faced with the dilemma of working to reunite these movements or choosing between them some progressive women chose to lead such New Left organizations as the Jeannette Rankin Brigade while others became leaders of liberal second wave feminist movements Whether they committed to affiliating with groups that emphasized one issue over others or attempted to found groups with broad popular front type agendas Progressive women brought to their later work an understanding of how race class and gender intersect in women s organizing These women s stories demonstrate that the ultimate result of Cold War era McCarthyism was not the defeat of women s activism but rather its reconfiguration
