Left Illusions An Intellectual Odyssey:

Left Illusions David Horowitz, 2003 I make no apologies for my present position My values have not changed but my sense of what supports them and makes them possible has It was what I thought was the humanity of the Marxist idea that made me what I was it is the inhumanity of what I have seen to be the Marxist reality that has made me what I am David Horowitz

The New Leviathan David Horowitz, Jacob Laksin, 2012-06-12 At a time when the national political debate is about inequality and fairness bestselling author David Horowitz and coauthor Jacob Laksin have written an unsettling book about the distribution of power in America Thoroughly researched and amply documented *The New Leviathan* overturns the conventional wisdom about which end of the political spectrum represents the rich and powerful and which represents the people The Democratic Party presents itself to the electorate as the party of working families and the poor In the 2000 election campaign Democrat Al Gore ran on the slogan The People vs the Powerful while President Obama describes himself as a grassroots organizer and a spokesman for fairness and progressive change Such is the world of political myth In reality the Democrats and the Obama progressives represent the richest and most powerful political machine in American history Backed by a near trillion dollar treasury in America's oldest and largest tax exempt foundations progressives outspend conservatives by a factor of seven to one In *The New Leviathan* David Horowitz and Jacob Laksin examine this growing financial power of left wing organizations and politicians They show how left wing foundations underwrote the political career of Barack Obama and how massive funding advantages for progressive proposals have disenfranchised American voters and shifted the national policy debate dramatically to the left *The New Leviathan* draws connections between the Obama administration and progressive organizations from labor unions to media outlets to nonprofits to political groups and shows how on key policy fronts national security immigration citizenship environment and health care the sheer force of left wing financial resources has reconfigured the nation's political agenda

Jihadist Psychopath Jamie Glazov, 2018-12-18 Every element of the formula by which the psychopath subjugates his victim the Islamic Supremacist likewise uses to ensnare and subjugate non Muslims And in the same way that the victim of the psychopath is complicit in his own destruction Western civilization is now embracing and enabling its own conquest and consumption

United in Hate Jamie Glazov, 2009 *United in Hate* analyzes the Left's contemporary romance with militant Islam as a continuation of the Left's love affair with communist totalitarianism in the twentieth century Just as the Left was drawn to the communist killing machines of Lenin Stalin Mao Pol Pot and Castro so too it is now attracted to radical Islam Both the radical Left and radical Islam possess a profound hatred for Western culture for a capitalist economic structure that recognizes individual achievement and for the Judeo Christian heritage of the United States Both seek to establish a new world order leftists in the form of a classless communist society and Islamists in the form of a caliphate ruled by Sharia law To achieve these goals both are willing to wipe the slate clean by means of limitless carnage with the ultimate goal of erecting their utopia upon the ruins of

the system they have destroyed Leo Strauss, Education, and Political Thought J. G. York, Michael A. Peters, 2011-04-22
This collection by some of the leading scholars of Strauss work is the first devoted to Strauss thought regarding education It seeks to address his conception of education as it applies to a range of his most important concepts such as his views on the importance of revelation his critique of modern democracy and the importance of modern classical education This book attempts to maintain traditional scholarly standards in the hope of approaching both Strauss and his work in a dispassionate and objective manner It contains both biographical as well as scholarly chapters aimed first and foremost at understanding the corpus of Strauss work and also his significance as an educational thinker **The Politics of Intelligence and American Wars with Iraq** O. Seliktar, 2008-02-18 Coming at the heels of September 11 Operation Iraqi Freedom has focused the limelight on the way in which the United States predicts and manages political change The failure to find WMD and more important the continued violence in Iraq instead of the hoped for democracy has engendered an acrimonious debate on the motives of the Bush administration and its uses or misuses of intelligence The question of who got what right or wrong has been fought out along ideological and partisan lines with supporters claiming that given what was known about Saddam Hussein the decision to change his regime was justified and detractors arguing that a group of largely Jewish neoconservatives acting on behalf of Israel manipulated intelligence in order to trick the United States into an unnecessary and costly war The book provides a systematic and objective analysis of the problems that faced American intelligence in deciphering the behavior of the highly secretive and confusing Iraq regime and its enigmatic leader **Culture Wars** Roger Chapman, 2015-03-17 The term culture wars refers to the political and sociological polarisation that has characterised American society the past several decades This new edition provides an enlightening and comprehensive A to Z ready reference now with supporting primary documents on major topics of contemporary importance for students teachers and the general reader It aims to promote understanding and clarification on pertinent topics that too often are not adequately explained or discussed in a balanced context With approximately 640 entries plus more than 120 primary documents supporting both sides of key issues this is a unique and defining work indispensable to informed discussions of the most timely and critical issues facing America today America-A Purpose-Driven Nation Philip Michael Pantana, 2007-11
AMERICA A PURPOSE DRIVEN NATION ONE NATION UNITED ONE GOD JEHOVAH ONE LAW BIBLICAL Freedom of Religion The founding of America was Providential not accidental America was founded on purpose for a purpose freedom to worship as people please Christianity is the faith that gave birth to freedom of religion Because of this spiritual heritage America is known around the world for freedom the Bill of Rights ensures for all citizens beginning with religious tolerance Reversing Current Secular Trends What secularists are doing today is repressive to the First Amendment and offensive to Christians The secularist agenda to enact Hate Crimes laws designed contrary to biblical principles is a destructive form of government opposing the consent of the governed Ronald Reagan hero of conservatives said The frustrating thing is that

those who are attacking religion claim they are doing it in the name of tolerance Question Isn't the real truth that they are intolerant of religion Reversing the current trend of secularization in American society involves making two essential changes 1 quashing the unfriendly secularist war on faith and 2 overturning activist Courts which limit Judeo Christian expression in the public arena Real Problems Real Solutions This book features a Contract with Conservatives that offers real solutions to the vital issues we the people must come to grips with Like German reformer Martin Luther in October of 1517 Pantana nails 95 theses of conservatism on the false walls erected by secularists which separate church from state History is too filled with examples of this pattern for it to be ignored The silent majority must let its voice be heard loud and clear at the ballot box in the 2008 election For more information on the 95 proposals in the Contract with Conservatives visit www.purposedrivennation.com

Grand Theft History Ilario Pantano, 2015-10-06 The explosive truth about America's Revolution a bloody civil war that was won largely in the South that modern liberals have kept buried until now At the darkest hour of the American Revolution in 1780 when there was little reason to hope the British went down South and overplayed their hand By burning the bibles of backwoodsmen and threatening their honor the British ignited a firestorm in the most spectacular unusual and decisive battle of the war Ordinary folk from throughout the Southern colonies spontaneously banded together and rode for hundreds of miles to attack and destroy British forces at King's Mountain The killing didn't stop at King's Mountain but the war did Never heard of the massacre that saved the American Revolution No idea that liberty was actually won in the South Red state values of God guns and guts are being dismantled by leftists airbrushing our past in order to transform our future Grand Theft History features shocking new evidence that exposes the latest battlefield in the culture wars American history

Shadow World Robert Chandler, 2008-08-05 THE SECRET WAR AGAINST AMERICA America is at war and the stakes are huge The fight is not just in Iraq and Afghanistan it is a global contest between the United States radical Islam a resurgent Russia and a virulent New Left that is coming to power in Latin America and stalking the corridors of power around the world including the United States These three enemies of America are separate but they cooperate and in his stunning new book Shadow World Robert Chandler shows how In Shadow World you'll learn Why post Communist Russia is not really post Communist at all but represents an insidious new strategic threat to the United States How cultural communism has rejuvenated the radical Left's prospects around the world Why American style democracy is losing out to Castro and Hugo Chavez style communism in Latin America How radical Islam has allied itself to the New Left and why this makes radical Islam even more dangerous than before Shadow World reveals in a way no other book has done the new strategic realities of the post Cold War post 9/11 world Provocative insightful thorough it is essential reading for those who want to see the 21st century as America's century and not the century of her enemies

Political Conversion Don Waisanen, 2018-04-20 Stories of religious conversion have been told for millennia Yet many prominent figures such as Ronald Reagan Hillary Clinton and Rick Perry have also used stories of their change from one political worldview to another as a

communication strategy aimed at winning the hearts and minds of the public This book is about political conversion stories in public discourse in their evolution from and interactions with religion From a historical perspective it charts the development of conversion narratives from religious contexts to their contemporary applications as specifically political messages Since these narratives continue to be used in the culture wars this book examines several related autobiographies that contributed to the use of this strategy in contemporary U S politics Each case shows how shifts during the postwar period called for conversion texts under varying guises and illustrates how and why the majority of these stories have been of conversions from the ideological left to the right Examining political conversion as a form of public persuasion Political Conversion ultimately provides insight into what these types of civic religious stories mean for democratic communication and communities

Unholy Alliance David Horowitz,2006-02-02 The bestselling Unholy Alliance now in paperback Former Leftist radical David Horowitz blows the lid off the dangerous liaison between U S liberals and Islamic radicals With America's battle against the disastrous force of terrorism at hand Horowitz takes us behind the curtain of the unholy alliance between liberals and the enemy a force with malevolent intentions and one that Americans can no longer ignore

The Trojan War Carol G. Thomas,Craig Conant,2007 Surveys the historical underpinnings of the Heroic Age in ancient Greek tradition

Evolution Versus Revolution Melvyn L. Fein,2017-07-05 Revolutionary and evolutionary theorists have very different views about change Fein writes in favour of evolution He proposes an integrated model of social evolution one that accounts for the complexity inconclusiveness and impediments that characterize social transformations This multi dimensional approach recognizes that change is always saturated in conflict Major changes are rarely initiated by conscious decisions that are automatically implemented power and morality generally control the direction that significant alterations take Fein explains how the social generalist dilemma places our need for both flexibility and stability in opposition to each other such that non rational mechanisms are needed to produce a solution He also describes how an inverse force rule dictates that small societies are bound together by strong social forces whereas large ones are secured by weak forces This suggests that social roles are likely to become professionalized over time If social change is in fact analogous to natural rather than artificial selection we may be in the midst of an only partially predictable middle class revolution Indeed the current impasse between liberals and conservatives may be evidence that we are in the consolidation phase of this process Should this be the case a paradigm shift not a classical revolution is in our future

Women Bernard Chapin,2007-09 In Women Theory and Practice Bernard Chapin challenges the accepted theories of feminism and sexual equality in this thought provoking revolutionary look at the battle of the sexes in the twenty first century This book captures the true essence of today's apocryphal gap between men and women and how it affects not only the workplace but also romantic relationships and the interactions of men and women everywhere Chapin introduces a truly contrarian argument against society's current atmosphere of political correctness He also makes a convincing case for the hidden damage caused by the women's

movement and the popular mindset that women are no longer just the fairer sex they are the better sex Chapin questions the rationale behind policies and laws created to protect women's rights and to construct equality in the workplace Chapin describes society's current backlash against men and how it has created a culture that has wrongly declared women to be intellectually morally and emotionally superior Women Theory and Practice provides a clear rational argument against a popular socio political atmosphere that has turned women into demi gods and men into second class citizens

Marx, Lenin, and the Revolutionary Experience Paul LeBlanc, 2014-06-03 Marx Lenin and the Revolutionary Experience offers a fresh look at Communism both the bad and good and also touches on anarchism Christianity conservatism liberalism Marxism and more to argue for the enduring relevance of Karl Marx and V I Lenin as democratic revolutionaries It examines the Red Decade of the 1930s and the civil rights movement and the New Left of the 1960s in the United States as well Studying the past to grapple with issues of war and terrorism exploitation hunger ecological crisis and trends toward deadening de spiritualization the book shows how the revolutionaries of the past are still relevant to today's struggles It offers a clearly written and carefully reasoned thematic discussion of globalization Marxism Christianity and religion in general Communism the history of the USSR and US radical and social movements

Post-Liberalism Melvyn L. Fein, 2017-09-08 Liberalism is dying despite its superficial appearance of vigor Most of its adherents still believe it is the wave of the future but they are clinging to a sinking dream So says Melvyn L Fein who argues that liberalism has made countless promises almost none of which have come true Under its auspices poverty was not eliminated crime did not diminish the family was not strengthened education was not improved nor was universal peace established These failures were not accidental they flow directly from liberal contradictions In Post Liberalism Fein demonstrates why this is the case Fein contends that an inverse force rule dictates that small communities are united by strong forces such as personal relationships and face to face hierarchies while large scale societies are integrated by weak forces such as technology and social roles As we become a more complex techno commercial society the weak forces become more dominant This necessitates greater decentralization in direct opposition to the centralization that liberals celebrate Paradoxically this suggests that liberalism as an ideology is regressive rather than progressive If so it must fail Liberals assume that some day under their tutelage these trends will be reversed but this contradicts human nature and history's lessons According to Fein we as a species are incapable of eliminating hierarchy or of loving all other humans with equal intensity Neither as per Emile Durkheim are we able to live in harmony without appropriate forms of social cohesion

Human Hierarchies Melvyn L. Fein, 2012-08-14 Human beings are hierarchical animals Always and everywhere people have developed social ranking systems These differ dramatically in how they are organized but the underlying causal mechanisms that create and sustain them are the same Whether they are on the top or bottom of the heap people attempt to be superior to some other persons or group This is the root of Melvyn L Fein's thesis presented in *Human Hierarchies A General Theory* Fein traces the

development of changes from hunter gatherer times to our own techno commercial society In moving from small to large communities humans went from face to face contests for superiority to more anonymous and symbolic ones Societies evolved from hunting bands where the parties knew each other through big men societies chieftainships agrarian empires patronage chains caste societies estate systems and market oriented democracies Where once small groupings were organized primarily by strong forces such as personal relationships the now standard large groupings are more dependent on weaker forces such as those provided by social roles Bureaucracies and professional roles have become prominent Bureaucracies allow large scale organizations to maintain control of people by limiting the potential destructiveness of unregulated tests of strength and by clarifying chains of command Their rigidity and unresponsiveness requires that they be supplemented by professional roles At the same time a proliferation of self motivated experts delegate authority downward thereby introducing a more flexible decentralization This analysis is a unique and significant advance in both the sociology and anthropology of stratification among humans

Why Higher Education Should Have a Leftist Bias D.

Lazere,2013-12-11 Presenting a thoughtful justification for the left in American education Donald Lazere argues that to teach students rhetoric and critical thinking key components of a humanist education educators must discuss and teach students to grapple with the conservative bias in academia the media and politics that is considered to be the status quo Reforming Our Universities David Horowitz,2010-08-31 For far too long our colleges and universities have been allowed to ignore their chartered responsibilities to educate rather than indoctrinate Instead of providing a forum for the free exchange of ideas they intimidate students into ideological submission to leftist professors rather than pursuing meaningful research they proselytize for radical causes Here author David Horowitz tells the story of his ongoing campaign for an Academic Bill of Rights to protect students who refuse to conform to radical orthodoxies Horowitz means to recall higher education to its better self to become as it once was a place where students and teachers were not afraid to question opinions create their own and engage in Socratic dialogue From publisher description
