Heidegger's Black Notebooks and the Future of Theology Mårten Björk, Jayne Svenungsson, 2017-12-14 This book probes the relationship between Martin Heidegger and theology in light of the discovery of his Black Notebooks which reveal that his privately held Antisemitism and anti Christian sentiments were profoundly intertwined with his philosophical ideas Heidegger himself was deeply influenced by both Catholic and Protestant theology This prompts the question as to what extent Christian anti Jewish motifs shaped Heidegger's own thinking in the first place A second question concerns modern theology's intellectual indebtedness to Heidegger In this volume an array of renowned Heidegger scholars both philosophers and theologians investigate Heidegger's animosity toward the biblical legacy in both its Jewish and Christian interpretations and what it means for the future task and identity of theology Revival: Mind and Body: A Criticism of Psychophysical Parallelism (1927) Hans Driesch, 2018-01-16 This little book is not a text book of psychology It is exclusively concerned with one particular psychological problem a problem however that stands at the very centre of psychology The relations between mind and body are analysed that is to say the following three psychedelic problems are successively raised What is the mind What is the body What are the relations between mind and body But it is only the third problem which is extensively dealt with the first two are only briefly defined **Body and Mind** William McDougall, 1913 **The Encyclopedia of Parapsychology** Courtney M.
