Les Staves

Mathematics For Children With Severe And Profound Learning Difficulties:

Mathematics for Children with Severe and Profound Learning Difficulties Les Staves, 2013-12-19 The book will covers a wide range of approaches to teaching and learning and demonstrates how mathematics can be related to personal and social development communication and thinking skills Written with the non specialist in mind and including plenty of practical examples it will make useful reading for teachers in mainstream and special schools and learning support assistants Early years practitioners and teachers in training may find the book useful for its descriptions of how children acquire their foundation of early mathematics and numeracy skills

Very Special Maths Les Staves, 2018-07-24 Written for those who work with pupils with severe and profound learning difficulties this practical book uniquely describes content for a special curriculum in maths and looks at how early ideas develop and become real knowledge essential to daily function Les Staves explains recent theories about the early development of understanding numbers including a breakdown of the processes of learning to count which are largely neglected in the National Curriculum He also outlines the big ideas that are fundamental to the beginnings of mathematical thinking for children with severe and profound learning difficulties which are vital to carrying out practical mathematical processes

Inclusive Mathematics 5-11 Brian Robbins, 2000-05-01 Robbins shows how all students including those with special needs can learn mathematics effectively within the mainstream curriculum By drawing on case studies from several countries he illustrates the implications of inclusive education for classroom teaching whole school approaches and teacher development

Teaching Primary Mathematics Sylvia Turner, 2012-11-13 Teaching Primary Mathematics covers what student teachers really need to know and why including approaches to teaching and learning planning and assessment and using resources in maths teaching It also provides a brief historical overview of the teaching of mathematics and examines strategies to enhance learning and development as a confident mathematician in the primary classroom Informed by seminal and current research and recent developments in education policy the book also explores the role of mathematics within the primary curriculum the development of mathematics as a subject of study the knowledge that can be gained from considering international approaches to mathematics This is essential reading for all students on primary initial teacher education courses including undergraduate BEd BA with QTS postgraduate PGCE SCITT and School Direct and employment based routes into teaching Sylvia Turner is Senior Lecturer in the Faculty of Education at the University of Winchester

Curricula for Teaching Children and Young People with Severe or Profound and Multiple Learning Difficulties Peter Imray, Viv Hinchcliffe, 2013-10-30 Curricula for Teaching Children and Young People with Severe or Profound and Multiple Learning Difficulties offers a range of compelling arguments for a distinct and separate pedagogical approach to the learning needs of the most educationally challenging pupils This book written in accessible common sense and non academic language provides an easy to follow alternative curriculum specifically designed to enhance and enrich the learning of children with profound and multiple learning difficulties Chapter by chapter guidelines and

support are offered in key curriculum areas some of which include Cognition Language Literacy and Communication Mathematical Physical Sensory Creative Care Play Problem solving This highly practical resource is essential reading for any educational professional parents school governors teachers teaching assistants therapists and indeed anyone involved with maximising the educational opportunities of those with profound learning difficulties

Teaching the Daily Mathematics Lesson to Children with Severe Or Profound and Multiple Learning Difficulties Great Britain. Department for Education and Skills, 2003 Video V9 available with this training file The video is located with the Audio Visual Resources Ref DfES 0032 2003

Inclusion is Dead Peter Imray, Andrew Colley, 2017-05-18 Cover Title Copyright Contents 1 Setting the scene 2 What is educational inclusion 3 Current perspectives and practice 4 The defining learning characteristics of PMLD and SLD 5 The pedagogical imperative 6 The curriculum imperative 7 The capabilities imperative 8 The social imperative 9 Conclusion and a way forward References Author index Subject index

Strategies to Promote Inclusive Practice Richard Rose, Christina Tilstone, 2003-08-29 This book considers current issues in the development of policies to promote inclusive education for pupils with special educational needs By examining issues from the perspective of individual pupils schools and local education authorities it raises critical commentary on the ways forward for a co ordinated approach to inclusion Strategies to Promote Inclusive Practice draws upon the experience and expertise of teachers policy makers and researchers who explore the many factors which need to be addressed in the development of a more inclusive education system The authors explore the link between theoretical perspectives and the production of policy as well as the potential for translating this into good classroom practice They provide examples of approaches which have proved successful in enabling pupils to become better equipped to address the needs of a wide range of pupils In considering the impact of recent policy legislation and research the authors suggest that several models of inclusion may be necessary in order to become an inclusive education system This book will be of interest to students teachers policy makers and researchers who are concerned to advance the debate on inclusion towards a more pragmatic approach to providing for all pupils with special needs It is a companion text to Promoting Inclusive Practice edited by Christine Tilstone Lani Florian and Richard Rose RoutledgeFalmer 1998 which was the joint winner of the 1999 TES NASEN Academic Book Award

The Effective Teacher's Guide to Dyslexia and other Specific Learning Difficulties Michael Farrell, 2006-03-29 With around one in ten children affected by specific learning difficulties such as dyslexia or dyspraxia this practical guide examines the central issues facing teachers today

Engaging Learners with Complex Learning Difficulties and Disabilities Barry Carpenter, Jo Egerton, Beverley Cockbill, Tamara Bloom, Jodie Fotheringham, Hollie Rawson, Jane Thistlethwaite, 2015-02-11 Children and young people with Complex Learning Difficulties and Disabilities CLDD have co existing and overlapping conditions which can manifest in complex learning patterns extreme behaviours and a range of socio medical needs which are new and unfamiliar to many educators Their combination of issues and layered needs mental health relationship behavioural physical

medical sensory communication and cognitive mean they often disengage from learning and challenge even our most experienced teachers This book provides school practitioners and leaders with an approach and resources to engage this often disenfranchised group of children in learning The Engagement for Learning Framework has been developed and trialled by over 100 educational settings both special and mainstream with learners from early years to post 16 It gives practitioners from a range of disciplines a shared means of assessing recording and developing personalized learning pathways and demonstrating progression for these children The focus on inquiry means that however complex a young person's needs educators will be able to apply the approach This practical and engaging book provides literature tools and case study examples outlining why children and young people with CLDD are why their engagement for learning is important and how the Engagement for Learning Framework can be used effectively by teachers and other professionals to ensure the best possible outcomes for these children

Dyslexia, Dyspraxia and Mathematics Dorian Yeo, 2008-04-30 Written by a teacher with many years experience of teaching mathematics to primary school dyslexic and dyspraxic children with a wide range of abilities this book is designed to be a practical teaching guide It offers detailed guidance and specific teaching suggestions to all specialist teachers support teachers classroom teachers and parents who either directly teach mathematics to dyslexic and dyspraxic children or who support the mathematics teaching programmes of dyslexic or dyspraxic children Although the book has grown out of teaching experience it is also informed by widely acknowledged contemporary and international research which explores the cognitive aspects of learning mathematics and tries to understand why it is that some children fail to learn mathematics Many of the teaching principles described in the text have specific and quite far reaching implications The theoretical arguments should therefore also be of interest to special needs coordinators heads of maths departments head teachers or other professionals who are responsible for designing or modifying the maths learning programmes of children with special learning and maths difficulties In more general terms the book hopes to contribute to the broad discussion of the cognitive features and educational needs of dyslexic and dyspraxic children
