

## **D184: Standards-Based Assessment Study Guide for the Objective Assessment (OA)**

- *The Objective Assessment will assess the first three competencies for this course, covering material within Unit 1 through Unit 3.*
- *Unit 4, which covers the fourth competency, will be assessed through the Performance Assessment.*

### **Unit 1 – Identifying What to Assess Introduction** **Module 1: Standards-Based Grading**

#### **1. How would you describe standards-based grading systems?**

A standard of grading that tracks student progress towards and achievement of learning targets that are derived from educational standards; grades reflect student mastery of the learning targets and are measured on proficiency scales.

#### **2. How do you differentiate between standards-based grading systems and other commonly used grading systems?**

**Standards:** - Scores are reflected on proficiency scales  
- Grades reflect student mastery of a learning target.  
- Teachers tailor instruction based on student achievement

**Traditional is based off of % and nonacademic factors**

#### *Traditional Grading Systems*

vs.

#### *Standards-Based Grading Systems*

- Grades are calculated using percentages of correct answers.
- Scores are partially based on behavior, attitudes, attendance and effort.
- Final grades are calculated using averages across a grading period.
- Overall grades are represented by a single score.

- Numbers, letters, symbols, or narratives are used for grades.
- Student learning captured by a score.
- Multiple student evidence samples are required to calculate grades.

- Grades are calculated using achievement levels on proficiency scales.
- Scores are based solely on student achievement of standards.
- Final grades are calculated using growth and patterns of achievement.
- Overall grades are represented by achievement toward individual learning goals.
