**Managemen Text and Cases (Second Edition) ,** *Postcritical Management Studies* Ghislain Deslandes,2023-05-26 This book is the first of its kind to offer a new definition of contemporary management It uses Michel Henry s philosophy and takes the real sensitive and pathetic subjectivity of individuals as the starting point of the analysis as opposed to the usual large categories of representations resources images and discourses This book thus proposes to rethink management by insisting on the dialectic of strength and vulnerability its power of constraint imitation and imagination and finally its framework of action situated in a fourfold concern for the self for people for institutions and for the environment These different notions are useful in order to experience a deeper understanding of management that is free from the obsolescence of the distant recommendations of ancient protomanagement and the outdated and dubious prescriptions of the so called scientific management

**Human Resource Management: Text & Cases, 2nd Edition** Pande Sharon & Basak Swapnalekha,2015

In a constantly evolving service led Indian economy human resources have become the cornerstone of an organization's success. The management of human capability has become an art that has to be understood and mastered to run a successful enterprise. Human Resource Management Text and Cases 2e explains the basic concepts of this discipline and presents cases that provide an insight into the challenges faced by HR professionals on a day today basis. Going beyond the coverage of a traditional textbook, this book focuses on applied aspects of HRM which capture the evolving challenges in the field. The authors have used their extensive real world work experience in talent acquisition and human resource development and retention to provide lucid explanation of all major concepts of human resource management. Replete with examples and cases, this title is a complete guide for all MBA students and HR practitioners.

**From Buddy to Boss, 2nd Ed** Chase Sargent, 2018-04-13 Professional development and leadership with you in mind. A good friend once said about Chase Sargent that he is a very intelligent man but he sure does tick people off sometimes. Sargent doesn't disagree. He may have made some people mad but he wishes he had done it more often to get this point across. Leadership in all aspects of life is sorely lacking. The second edition of *From Buddy to Boss: Effective Fire Service Leadership* reinforces the fact that the fire service is screaming for leaders as men and women discover that leadership is important to their existence and success. Being a firefighter can be tiring and frustrating but it can be rewarding. It's not only about the job but also about raising kids, managing your life and trying to be a good person attached to God, country, family and friends, says the author. Many leaders today are surrounded by external politics, hidden agendas, fiscal constraints and manipulative people. Consider these factors when navigating your career. Sargent knows from decades of experience that simply reaching the top of the organizational ladder does not make you a good leader. Before he went into teaching this subject, it became apparent very quickly that the leadership and human resources training being provided was as scarce as water in a desert and that the fire service was thirsty. This new second edition includes must read topics on leadership lessons from the War in Iraq, knowing death in the fire service and providing leadership in large scale disasters. This book will change your life.
