with non state courts in rural Bangladesh and shows how in these projects global norms change local courts but only if they are translated often in unexpected ways from the perspective of international actors Based on extensive fieldwork this book reveals how grassroots level employees of local NGOs significantly alter the meaning of global norms for example when they translate secular notions of the rule of law into the language of Islam and Islamic Law and only thereby also enhance participatory spaces for marginalized people

Collective Biologies Emily A. Wentzell, 2021-10-11 In *Collective Biologies* Emily A Wentzell uses sexual health research participation as a case study for investigating the use of individual health behaviors to aid groups facing crisis and change Wentzell analyzes couples experiences of a longitudinal study of HPV occurrence in men in Cuernavaca Mexico She observes how their experiences reflected Mexican cultural understandings of group belonging through categories like family and race For instance partners drew on collective rather than individualistic understandings of biology to hope that men s performance of modern masculinities marriage and healthcare via HPV research would aid groups ranging from church congregations to the Mexican populace Thus Wentzell challenges the common regulatory view of medical research participation as an individual pursuit Instead she demonstrates that medical research is a daily life arena that people might use for fixing embodied societal problems By identifying forms of group interconnectedness as collective biologies Wentzell investigates how people can use their own actions to enhance collective health and well being in ways that neoliberal emphasis on individuality obscures

The Souls of Womenfolk Alexis Wells-Oghoghomeh, 2021-09-13 Beginning on the shores of West Africa in the sixteenth century and ending in the U S Lower South on the eve of the Civil War Alexis Wells Oghoghomeh traces a bold history of the interior lives of bondwomen as they carved out an existence for themselves and their families amid the horrors of American slavery With particular attention to maternity sex and other gendered aspects of women s lives she documents how bondwomen crafted female centered cultures that shaped the religious consciousness and practices of entire enslaved communities Indeed gender as well as race co constituted the Black religious subject she argues requiring a shift away from understandings of slave religion as a gender amorphous category Women responded on many levels ethically ritually and communally to southern slavery Drawing on a wide range of sources Wells Oghoghomeh shows how they remembered reconfigured and innovated beliefs and practices circulating between Africa and the Americas In this

way she redresses the exclusion of enslaved women from the American religious narrative Challenging conventional institutional histories this book opens a rare window onto the spiritual strivings of one of the most remarkable and elusive groups in the American experience **Sisters in the Life** Yvonne Welbon,Alexandra Juhasz,2018-03-15 From experimental shorts and web series to Hollywood blockbusters and feminist porn the work of African American lesbian filmmakers has made a powerful contribution to film history But despite its importance this work has gone largely unacknowledged by cinema historians and cultural critics Assembling a range of interviews essays and conversations *Sisters in the Life* tells a full story of African American lesbian media making spanning three decades In essays on filmmakers including Angela Robinson Tina Mabry and Dee Rees on the making of Cheryl Dunye's *The Watermelon Woman* 1996 and in interviews with Coquie Hughes Pamela Jennings and others the contributors center the voices of black lesbian media makers while underscoring their artistic influence and reach as well as the communities that support them *Sisters in the Life* marks a crucial first step in narrating the history and importance of these compelling yet unsung artists Contributors Jennifer Devere Brody Jennifer DeClue Raul Ferrera Balanquet Alexis Pauline Gumbs Thomas Allen Harris Devorah Heitner Pamela L Jennings Alexandra Juhasz Kara Keeling Candace Moore Marlon Moore Michelle Parkerson Roya Rastegar L H Stallings Yvonne Welbon Patricia White Karin D Wimbley Follow the New Way Melissa May Borja,2023-02-21 When the US government resettled thousands of Hmong in 1975 the work was done by Christian organizations deputized by the state Exploring the resiliency of tradition amid shaky US commitments to pluralism and secularism Melissa May Borja shows how Hmong Americans developed a new way that blended Christianity with their longstanding practices **Front Lines** ,1991-11 **Siskiyou National Forest (N.F.), Silver Fire Recovery Project** ,1988 *Front Lines* United States. Agency for International Development,1991 To Know the Soul of a People Jamil W. Drake,2022 *To Know the Soul of a People* is a history of religion and race in the agricultural South before the Civil Rights era Jamil W Drake chronicles a cadre of social scientists who studied the living conditions of black rural communities revealing the abject poverty of the Jim Crow south These university affiliated social scientists documented shotgun houses unsanitary privies and contaminated water scaly hands enlarged stomachs and malnourished bodies However they also turned their attention to the spiritual possessions chanted sermons ecstatic singing conjuration dreams and visions fortune telling taboos and other religious cultures of these communities These scholars aimed to illuminate the impoverished conditions of their subjects for philanthropic and governmental organizations as well as the broader American public in the first half of the 20th century especially during the Great Depression Religion was integral to their efforts to chart the long economic depression across the South From 1924 to 1941 Charles Johnson Guy Johnson Allison Davis Lewis Jones and other social scientists framed the religious and cultural practices of the black communities as folk practices aiming to reform them and the broader South Drawing on their correspondence fieldnotes and monographs Drake shows that social scientists use of folk reveals the religion was an

important site for highlighting the supposed mental moral and cultural deficits of America's so called folk population. Moreover these social scientists did not just pioneer rural social science and reform but used their study of religion to plant the seeds of the concept that would become known as the culture of poverty in the latter half of the twentieth century. To Know the Soul of a People is an exciting intellectual history that invites us to explore the knowledge that animated the earnest yet shortsighted liberal efforts to reform black and impoverished communities.

Mets by the Numbers Matthew Silverman, Jon Springer, 2008-03-17 This is the first team history of the New York Mets or any other team to be told through a lighthearted analysis of uniform numbers. Ordinary club histories proceed year by year to give the big picture. Mets by the Numbers uses jersey numbers to tell the little stories the ones the fans love of the team and its players. This is a catalog of the more than 700 Mets who have played since 1962 but it is far from just a list of No. 18s and 41s. Mets by the Numbers celebrates the team's greatest players, critiques numbers that have failed to attract talent and singles out particularly productive numbers and numbers that had really big nights. With coverage of superstitions, prolific jersey wearers, the ever changing Mets uniform and significant Mets numbers not associated with uniforms, this book is a fascinating alternative history of the Mets. 75 b/w photographs. Uncovering Identity in Mortuary Analysis Michael P. Heilen, 2016-06-16 This volume presents a sophisticated set of archival, forensic and excavation methods to identify both individuals and group affiliations, cultural, religious and organizational, in a multiethnic historical cemetery. Based on an extensive excavation project of more than 1,000 nineteenth century burials in downtown Tucson, Arizona, the team of historians, archaeologists, biological anthropologists and community researchers created an effective methodology for use at other historical period sites. Comparisons made with other excavated cemeteries strengthen the power of this toolkit for historical archaeologists and others. The volume also sensitizes archaeologists to the concerns of community and cultural groups to mortuary excavation and outlines procedures for proper consultation with the descendants of the cemetery's inhabitants.
