

MAINTENANCE MANUAL

Overview

The Maintenance Manual provides maintenance personnel with the information necessary to maintain the system effectively. The manual provides the definition of the software support environment, the roles and responsibilities of maintenance personnel, and the regular activities essential to the support and maintenance of program modules, job streams, and database structures.

In addition to the items identified for inclusion in the Maintenance Manual, additional information may be provided to facilitate the maintenance and modification of the system. Appendices to document various maintenance procedures standards, or other essential information may be added to this document as needed.

1 INTRODUCTION

This section provides general reference information regarding the Maintenance Manual. Whenever appropriate, additional information may be added to this section.

1.1 Purpose

In this section, describe the purpose of the manual and reference the system name and identifying information about the system and its programs.

1.2 Points of Contact

This section identifies the organization(s) responsible for system development maintenance, and use. This section also identifies points of contact (and alternate if appropriate) for the system within each organization.

1.3 Project Reference

This section provides a bibliography of key project references and deliverables produced during
