Constructing and Reconstructing Childhood Allison James, Alan Prout, 2003-09-02 First published in 1997 Routledge is an imprint of Taylor Francis an informa company

*The Children's Bill of Emotional Rights* Eileen Johnson, 2011-11-26 There are approximately 7 billion people in the world and 2 billion of them are children Children are the last unheard minority a group whose voice is seldom listened to and whose rights are seldom acknowledged Children are dependent on adults for their survival and wellbeing and as such are subservient beings Though the UN recently issued a Charter of the Rights of the Child an important aspect was neglected the emotional rights of the child Children all over the world are routinely bullied dismissed and treated as inferior beings Though a child can survive hunger cold and physical trauma emotional damage in childhood can cause problems that last a lifetime These problems can have huge repercussions for society when children become teenagers and young adults from bullying to suicide to mass murder In every society individuals are entitled to their human rights This book outlines the child's emotional rights The book explains why it is important to respect a child's rights and how it is possible for parents and teachers to make positive changes in the ways they respond to children Many adults struggle with preconceived notions on how to discipline and control children Other adults lack the necessary information on how a child thinks or why a child cannot respond in ways expected of him And all adults struggle with anger and frustration when dealing with emotional expressions they do not understand This book helps adults to understand why controlling and manipulating children is not the way to create a healthy community The book provides insights into a child's mind gives examples of compassionate and patient responses and guides parents and teachers towards a greater respect for the rights of the child

The Developing World of the Child Wendy Rose, David P.H. Jones, Jane Aldgate, 2005-12-20 Written as part of a training pack for practitioners working in children's services and child protection and bringing together leading figures from a range of disciplines this important text shows how the latest child development theories can be applied to professional practice This resource is essential reading for social workers

Child Psychology in Twelve Questions Paul L. Harris, 2022-08-11 Child psychology as a scientific enterprise is about 100 years old but while numerous textbooks and practical guides are available the more meditative questions about the nature of a child's mind are rarely asked This book explores some of the enduring questions in developmental psychology How do children form

an attachment to their caregivers How do they learn words In their imagination are they confused or clear sighted about the difference between fantasy and reality How do they decide who to trust In each case Paul Harris shows why these questions are important proposes likely answers and explains the uncertainties that persist He outlines important landmarks both well known and neglected and explores broader questions about theories of mind morality and cross cultural differences

**Children, Family and the State** Thomas, Nigel,2002-10-11 Children family and the state examines different theories of childhood children s rights and the relationship between children parents and the state Growing up in a Digital World - Social and Cognitive Implications Mikael Heimann,Adriana Bus,Rachel Barr,2021-11-30 Research With Children Pia

Christensen,Allison James,2012-10-02 Research with Children is a unique resource book on the methodology of childhood research Leading and new researchers within the social studies of childhood discuss central questions of epistemology and methodology demonstrating the links between theory and practice The theoretical and practical questions are set out in a clear and well argued fashion and will therefore appeal both to the newcomer to childhood studies and to experienced researchers in the field Handbook of Research in Pediatric and Clinical Child Psychology Dennis Drotar,2013-11-11 The professional development of researchers is critical for the future development of the fields of pediatric and clinical child psychology In order to conduct research in pediatric and clinical child psychology researchers need to work with a wide range of populations and master an increasingly wide range of skills many of which are either not formally taught or considered in sufficient depth in clinical training Such skills include the development of resources for research by writing grants to government agencies and foundations skills in preparing research for publications concerning original research review articles or case reports scientific presentation skills the ability to review and edit scientific manuscripts and to implement and manage research in applied settings Moreover the increasing complexity of research in pediatric and clinical child psychology requires successful researchers in these fields to develop their expertise with a wide range of new specialized methodologies data analytic methods models of data analysis and methods of assessment Finally to enhance the relevance of their research to practice researchers in pediatric and clinical child psychology need to integrate their work with clinical service delivery programs that are based on empirical research The necessity to train researchers in pediatric and clinical child psychology in such multifaceted knowledge and skills places extraordinary burdens on professional training programs Professional researchers in pediatric and clinical child psychology also are challenged to develop new knowledge and skills through continuing education and faculty development programs **The Developing World of the**

**Child** Jane Aldgate,2006 Written as part of a training pack for practitioners working in children s services and child protection and bringing together leading figures from a range of disciplines this important text shows how the latest child development theories can be applied to professional practice Considering theories of development throughout the lifespan from the early years through to adolescence and transitions to adulthood this resource is essential reading for a

range of professionals including social workers teachers and health and mental health professionals The authors build up an integrated picture of the developing world of the child looking at genetic and biological influences alongside individual psychological interpersonal familial educational and wider community domains The final part of the book looks specifically at issues for practice including chapters on communicating with children exercising professional judgement and planning interventions and outcomes in children s services
