The Spectacle 2.0 Marco Briziarelli,Emiliana Armano,2017-12-17 Spectacle 2 0 recasts Debord s theory of spectacle within the frame of 21st century digital capitalism It offers a reassessment of Debord s original notion of Spectacle from the late 1960s of its posterior revisitation in the 1990s and it presents a reinterpretation of the concept within the scenario of contemporary informational capitalism and more specifically of digital and media labour It is argued that the Spectacle 2 0 form operates as the interactive network that links through one singular but contradictory language and various imaginaries uniting diverse productive contexts such as logistics finance new media and urbanism Spectacle 2 0 thus colonizes most spheres of social life by processes of commodification exploitation and reification Diverse contributors consider the topic within the book s two main sections Part I conceptualizes and historicizes the Spectacle in the context of informational capitalism contributions in Part II offer empirical cases that historicise the Spectacle in relation to the present and recent past showing how a Spectacle 2 0 approach can illuminate and deconstruct specific aspects of contemporary social reality All contributions included in this book rework the category of the Spectacle to present a stimulating compendium of theoretical critical literature in the fields of media and labour studies In the era of the gig economy highly mediated content and President Trump Debord s concept is arguably more relevant than ever
