Reflections on the World of Human Inspirations Gabriel Bekö, 2024-01-11 Inspiration is the initial spark that puts us on track towards our beliefs attitudes and actions It partly defines who we are and whom we will become But what are the sources of our inspirations what governs them how do they take shape in our lives and how are our lives shaped by them Can they be right and wrong and do we have the power to control them This book provides an analysis of the historical geographical and cultural aspects of those countless moments that ignite our passions guide our efforts or cause the lack of both Through the study of human inspirations the author elaborates a variety of issues including current societal political and global challenges spirituality human character individualism education as well as the contrast between what used to be the political East and West communism and capitalism The book offers an intriguing look at the inflation of inspirations in our rapidly changing societies and its global implications It fuses numerous fields to offer a refined view of the world and ourselves in it Do advanced societies consist of advanced individuals or is it time to reassess our values redefine our principles and seek inspirations that dare to question the status quo and introduce us to a category of dignity that moves us closer to a truly advanced world
