

Disclaimer: This review sheet is an attempt to help you to realize what topics are most important and thus most likely to appear on the exam. This review sheet is not meant to be a direct listing of the questions that I will ask anyone answers. This review sheet is much longer than what your actual exam will be. The purpose of this course not to memorize a list of terms, and then take an exam on that list. The purpose of this course is to learn about geological concepts, and then to use your knowledge to critically think about the implications for the earth and the world around you. Incorporate thoughts to make it your property for the exam.
