Koslowski,2012-12-06 All religions make statements about God or the Absolute and about the beginning about the beginning of the world and the beginning and nature of the human person Propositions about God the human person and the world statements about God s eternity or process of becoming about the status and nature of the human person as the image of God and about the beginning of the world are woven into religious speculations about the beginning The theology anthropology and cosmology of the world religions determine the image of the human person and the image of the world in the world cultures shaped by the different religions They stand in a tense relationship with the anthropologies and cosmologies of modern science which in turn challenge the religions to deepen their image of the human person With this volume leading thinkers of Hinduism Buddhism Judaism Christianity and Islam provide the reader with a first hand source for understanding the five world religions and their teaching about God the human person and the origin of the world

the Quran meets the same criteria for divine inspiration Throughout the emphasis remains on speaking the truth with respect and patience toward Muslims This volume concludes by showing how believers can witness effectively to Muslims always upholding the Bible as God's complete inerrant revelation Here is both a thoughtful critique of Islam's foundational text and a testimony to the abiding power of biblical faith *Islam: Islam as religion and law* Bryan S.
