TEACHING ENGLISH IN GLOBAL CONTEXTS: Language, Learners and Learning Valentina Canese, Susan
Spezzini, 2023-11-07 **The Modern World Dictionary of the English Language ...** ,1896 **New Linguistic
Impulses in Foreign Language Teaching** Allan R. James, Paul Westney, 1981 The Cumulative Book Index ,1928 A world
list of books in the English language **A Language for the World** Morgan J. Robinson, 2022-11-08 This intellectual history
of Standard Swahili explores the long term intertwined processes of standard making and community creation in the
historical political and cultural contexts of East Africa and beyond Morgan J Robinson argues that the portability of Standard
Swahili has contributed to its wide use not only across the African continent but also around the globe The book pivots on the
question of whether standardized versions of African languages have empowered or oppressed It is inevitable that the
selection and promotion of one version of a language as standard a move typically associated with missionaries and colonial
regimes negatively affected those whose language was suddenly deemed nonstandard Before reconciling the consequences
of codification however Robinson argues that one must seek to understand the process itself The history of Standard Swahili
demonstrates how events people and ideas move rapidly and sometimes surprisingly between linguistic political social or
temporal categories Robinson conducted her research in Zanzibar mainland Tanzania and the United Kingdom Organized
around periods of conversation translation and codification from 1864 to 1964 the book focuses on the intellectual history of
Swahili s standardization The story begins in mid nineteenth century Zanzibar home of missionaries formerly enslaved
students and a printing press and concludes on the mainland in the mid twentieth century as nationalist movements added
Standard Swahili to their anticolonial and nation building toolkits This outcome was not predetermined however and
Robinson offers a new context for the strong emotions that the language continues to evoke in East Africa The history of
Standard Swahili is not one story but rather the connected stories of multiple communities contributing to the production of
knowledge The book reflects this multiplicity by including the narratives of colonial officials and anticolonial nationalists East
African clerks students newspaper editors editorialists and their readers and library patrons academic linguists formerly
enslaved children and missionary preachers The book reconstructs these stories on their own terms and reintegrates them
into a new composite that demonstrates the central place of language in the history of East Africa and beyond **Policies,
