

# LOW VISION REHABILITATION

## MAXIMISING VISUAL POTENTIAL

Organization accredited by  
Joint Commission International

**Shroff eye**

Cataract • Retina • LASIK

*Open your eyes...  
...to a whole new world™*

According to the National Association of the Blind, an approximate number of 45 million children and adults with low vision are neglected in India.

### Q. Low vision – what is it?

A. People are considered to have “low vision” when their eyesight cannot be corrected by ordinary glasses, contact lenses, medication, laser treatment or surgery. However, they can enhance their ability to accomplish tasks with the use of compensatory visual strategies, low vision and other devices, and environmental modifications.

### Causes of low vision

- |  |             |
|--|-------------|
| 1. Juvenile / Age-related Macular Degeneration | 3. Diabetes |
| 2. Cataract                                    | 5. Glaucoma |
| 4. Trauma                                      | 7. Albinism |
| 6. Retinitis Pigmentosa                        |             |

### Need for early examination

Conducted by specially trained ophthalmologists and optometrists, the low vision examination is designed to accurately evaluate how one's vision functions in day-to-day living.

As a result of this examination, you may be prescribed specific devices to make best use of your existing vision. In many cases, more than one visual device may be required, such as magnifying lenses for close-up viewing and telescopic lenses for seeing in the distance.

We can equip you with techniques to maintain an independent lifestyle by offering guidance for making changes in your home as well as group support from others with low vision.

### Low vision devices

Low vision devices or aids are optical and non-optical in nature. **Optical devices** use lenses or combinations of lenses to provide magnification. They should not be confused with standard eyeglasses. There are five main kinds of optical devices: magnifying spectacles, hand

magnifiers, stand magnifiers, telescopes and closed-circuit television. Different devices may be needed for different purposes. Training in how to use these devices is provided at our low vision rehabilitation centre.

The simplest **non-optical technique** is to bring the object of interest closer. Non-optical low vision devices include large print books, check writing guides, enlarged phone dials, talking appliances (timers, clocks, computers), and machines that scan print and read out loud.

### Low vision Aids

## Low Vision Manual:

*Low Vision Manual* A. Jonathan Jackson, James S. Wolffsohn, 2007-01-01 this book represents a real milestone for low vision care because it is one of the first low vision books in the world and the first from the UK that doesn't just give lip service to multi disciplinary collaboration it has a multi disciplinary authorship Barbara Ryan Research Associate School of Optometry and Vision Sciences Cardiff University Cardiff UK *Low Vision Manual* is a comprehensive guide and up to date reference source written by clinical and research experts in the fields of disease detection and management primary and secondary optometric care low vision optics and prescribing counselling and rehabilitation All these areas are explored in this book in four key sections Section One Definition of low vision and its epidemiology Section Two The measurement of visual function of the visually impaired Section Three The optics and practical tips on prescribing low vision aids Section Four Rehabilitation strategies and techniques This is an important reference tool for all professionals involved with the visually impaired The book covers everything a practitioner will need on a day to day basis Clear layout with practical tips worked examples and practical pearls will enable the front line eye care professional to provide patients with sound research based clinical care and rehabilitation An essential reference for Ophthalmology Optometry Orthoptics Ophthalmic nursing Visual rehabilitation Occupational therapy Social work Peer work Psychology Dispensing opticians **Low Vision Manual** □ □·□□, 2002 *Low vision manual* Kenji Yanashima, Kokuritsu-Shōgaisha-Rihabiritēshon-Sentā, 2002 **Low Vision Rehabilitation Manual** Derrald George Taylor, 1990 **Low Vision Rehabilitation** Mitchell Scheiman, Maxine Scheiman, Steven Whittaker, 2007 Presents an emerging model in which occupational therapists practice as part of a team of vision rehabilitation professionals serving adults with low vision Occupational therapists offer a unique contribution to the vision rehabilitation team with a focus on meaningful occupational goals the incorporation of occupation into therapy and the orchestration of environmental social and non visual personal factors into a treatment plan The authors have developed a practical and straightforward text outlining an evaluation approach to interventions that focus on recovering occupational performance in adults **Low Vision of Aids** Monica Chaudhry, 2006 This book has been designed to offer expert information to the eye care practitioners so that they can guide and provide basic low vision care to each patient in their small step up A user friendly book helps to encourage the optometrists and ophthalmologists to recognize the importance of low vision devices enabling the partially seeing patient to utilize their remaining vision to its full potential Contains information to understand the meaning of visual acuity in relation to normal vision low vision and blindness to identify people with low vision as distinct from those who have normal v Foundations of Low Vision Anne Lesley Corn, Jane N. Erin, 2010 *Foundations of Low Vision Clinical and Functional Perspectives* the ground breaking text that highlighted the importance of focusing on the functional as well as the clinical implications of low vision has been completely updated and expanded in this second edition The revised edition goes even further in its presentation of how best to assess and support both children and

adults with low vision and plan programs and services that optimize their functional vision and ability to lead productive and satisfying lives based on individuals actual abilities Part 1 Personal and Professional Perspectives provides the foundations of this approach with chapters focused on the anatomy of the eye medical causes of visual impairment optics and low vision devices and clinical low vision services as well as psychological and social implications of low vision and the history of the field Part 2 focuses on children and youths providing detailed treatment of functional vision assessment instruction use of low vision devices orientation and mobility and assistive technology Part 3 presents rehabilitation and employment issues for working age adults and special considerations for older adults     Low Vision Rehabilitation Laboratory Manual Derrald George Taylor,William Leroy Brown,1991     *Low Vision Rehabilitation Manual* ,2025-01-23     **Understanding Low Vision** Randall T. Jose,1983 A thorough review that covers fundamentals assessment clinical services training and instructional services and future directions The author establishes a framework for understanding the impact of low vision on functioning learning and psychosocial status Special sections contain chapters reports technical materials curriculum guides resources and questionnaires by experts from 21 areas     Low Vision Rehabilitation and Occupational Therapy Kathleen Harris,Manor Care Health Services of Tacoma,2008 Includes Low vision manual 33 leaves ill created for use at Manor Care Health Services     The Lighthouse Handbook on Vision Impairment and Vision Rehabilitation Barbara Silverstone,Mary Ann Lang,Bruce Rosenthal,Eleanor E. Faye,2000-04-13 This comprehensive reference source is a state of the art guide to the scientific clinical rehabilitative and policy aspects of vision impairment and blindness More than 100 original contributions from physicians therapists rehabilitation specialists and policy makers cover everything from the basic science of vision and its diseases to assistive technologies treatment and care     **Driving with Confidence** Eli Peli,Doron Peli,2002 Presents a clear no nonsense discussion on the realities of low vision conditions together with a practical program designed to help low vision individuals maximize their chances for retaining and or extending their driving privileges Also provides a detailed description of driving vision regulations in every state in the US     Manual for Child and Vision Development Milestone Lucien G. Prince,2020-01-28 Manual for Child and Vision Development Milestones is a precious guide that discusses the physical social motor cognitive and emotional development that occurs from birth through early adulthood for children with and without vision It also discusses the possible effects of maltreatment on child and vision development This book contains the most recent researched theories and findings of child and vision development investigated by psychologists and eye care professionals The content is designed to educate and guide a broad range of readers students parents child specialists etc on developmental norms at different stages of a child s life     **Low Vision: Assessment and Educational Needs** Dr. G. Victoria Naomi,2017-04-24 The population of people with low vision is increasing Services are needed to meet their needs for education and rehabilitation Clinical measurements of vision do not correlate with how a person uses vision Low vision service in many developing countries is of recent origin Many primary eye care providers in developing countries may not

understand the importance of low vision rehabilitation service and do not carry out the functional vision assessment Hence the functional vision assessment and developing visual efficiency depend on the educators and rehabilitation professionals This book describes the vision assessment using simple techniques and functional vision assessment procedure Visual efficiency the ability to use vision effectively can be developed by instructional strategies and environmental adaptations This book describes the techniques with illustrations The use of optical devices may require a structured practice The readers will understand that efficiency in the use of optical devices may help the low vision child's academic success This guide addresses that decision about reading medium of low vision students is based on the structure of impairment and the sensory capabilities The book also includes the educational needs of low vision students This book can be taken as a well organized guide and textbook for teachers researchers parents and low vision persons themselves
