Handbook Of Telecommunications Economics Vol 1 Structure Regulation And Competition:

Handbook of Media Management and Economics Alan Albarran, Bozena Mierzejewska, Jaemin Jung, 2006-04-21 This comprehensive Handbook provides a synthesis of current work and research in media management and economics. The volume has been developed around two primary objectives: assessing the state of knowledge for the key topics in the media management and economics fields and establishing the research agenda in these areas, ultimately pushing the field in new directions. The Handbook's chapters are organized into parts addressing the theoretical components, key issues, analytical tools, and future directions for research. Each chapter offers the current state of theory and scholarship of a specific area of study, and the volume contributors, all well established in their areas of specialty, represent domestic and international scholarship. With its unparalleled breadth of content from expert authors, the Handbook provides background knowledge of the various theoretical dimensions and historical paradigms and establishes the direction for the next phases of research in this growing arena of study. The Handbook of Media Management and Economics will serve to stimulate future thought and research in the media management and economics disciplines. As such, this volume will be a required reference for students, professors, and industry practitioners for years to come.

International Handbook on Economic Regulation Michael A. Crew, David Parker, 2006. Michael Crew and David Parker have compiled a comprehensive, up-to-date and detailed analytical work on leading research issues in the economics of regulation. With contributions from international specialists in economic regulation, the Handbook provides a comprehensive discussion of major developments in both the theory and practice of regulatory economics. This book will be an indispensable source for both students and practitioners of regulation. The Handbook begins by looking at the principles, history, and methods of regulation before turning to specialist themes including pricing and social welfare, regulating service quality, consumer representation, performance benchmarking, environmental regulation, calculating the cost of capital, information revelation, and incentives. The economics of access, charging, regulatory governance, regulatory policy in developing countries, particular issues in the regulation of the telecommunications, energy, transport, and water sectors. The International Handbook on Economic Regulation is essential reading for researchers in the economics of regulation and students of regulation on final year undergraduate and postgraduate degree courses. As a major reference work, it is of value and assistance to economists in regulatory offices, regulated companies, and government departments.

Elgar Encyclopedia on the Economics of Competition, Regulation and Antitrust Michael D. Noel, 2024-12-09. Providing an extensive overview of the literature, the Elgar Encyclopedia on the Economics of Competition, Regulation and Antitrust examines perspectives on the many interrelated issues in competition economics.

The Oxford Handbook of Regulation Robert Baldwin, Martin Cave, Martin Lodge, 2012-07-19. Regulation is often thought of as an activity that restricts behaviour and prevents the occurrence of certain undesirable activities, but the influence of regulation can also be enabling or facilitative, as when a market could potentially be chaotic if uncontrolled. This Handbook provides a clear and authoritative

discussion of the major trends and issues in regulation over the last thirty years together with an outline of prospective developments It brings together contributions from leading scholars from a range of disciplines and countries Each chapter offers a broad overview of key current issues and provides an analysis of different perspectives on those issues Experiences in different jurisdictions and insights from various disciplines are drawn upon and particular attention is paid to the challenges that are encountered when specific approaches are applied in practice Contributors develop their own distinctive arguments relating to the central issues in regulation and apply scholarly rigour and clear writing to matters of high policy relevance The essays are original accessible and agenda setting and the Handbook will be essential reading both to students and researchers and to with regulatory and regulated professionals

The Regionalisation of Competition Law and Policy within the ASEAN Economic Community Burton Ong, 2018-03-01 This edited volume of essays examines a wide range of issues related to the regionalisation of competition policy in South East Asia where the ten member states of ASEAN have launched the ASEAN Economic Community AEC Written by a diverse group of academics practitioners and policy makers this book explores issues such as the role of competition policy in facilitating the market integration ambitions of the ASEAN member states the challenges arising from divergences in the national competition law regimes of the ASEAN member states and the absence of a supranational legal framework and the future of competition policy in light of the AEC Blueprint 2025 Given the nexus between regional competition policy and regional market integration this book will be of particular interest to lawyers economists and policymakers working in the fields of competition law and regional trade law

International Handbook of Network Industries Matthias Finger, R. W. Kneke, 2011 To learn about how economic and institutional forces have shaped the network industries and policies towards them read the first part of the book To discover their impacts on particular industries read the second part And to find out what has happened in particular countries read the third part I think anyone interested in network industries should read all of it The book's structure allows for many interesting comparisons across countries and sectors Richard Green University of Birmingham UK This is a very useful and comprehensive guide to reforms in network industries in communications energy transport and water It is organized by generic topic sector and region Its authors are acknowledged experts I am confident that this Handbook will be a widely read and valuable resource for many years Martin Cave London School of Economics UK Quite an accomplishment this Handbook provides by far the most comprehensive overview of the role of the private sector and competition in infrastructure industries with thoughtful surveys of each of the major infrastructure sectors and of the key regions and countries Jos Gemez Ib ez Harvard University US In recent decades all infrastructures have undergone significant restructuring This worldwide phenomenon is often labelled liberalization and although expectations were high with respect to lower prices greater efficiency and innovation the expected gains have not always been fully realized This extensive state of the art Handbook provides a comprehensive overview of the various experiences of liberalization across different sectors regions and disciplines The multidisciplinary approach focuses on the economic political and institutional aspects of liberalization as well

as to a lesser extent on technological issues As such it constitutes a unique contribution as this broad overview is often lost in the sector specific country focused and purely disciplinary approaches prevalent in the current literature Sectors explored include telecoms the Internet energy and transport whilst the truly global perspective incorporates unique case studies from an array of developed and developing countries including the US China India and the EU The International Handbook of Network Industries will become the definitive volume for academics researchers and students of economics political science and law interested in infrastructure regulation It will also prove a valuable guide to practitioners and policy makers involved in liberalization and competition

Telecommunications Development in Asia John URE, 2008-05-01 No industry has expanded faster than telecommunications gained so many new users added so much value spread so rapidly to the underdeveloped areas of developing countries done so much to close the digital divide and provide access to e learning e health and e commerce across the countries of the Asia Pacific Telecommunications Development in Asia provides a completely new and comprehensive analysis of the policies adopted throughout the region that have led to the explosive growth of this sector It is a sequel to the 1995 landmark publication John Ure editor Telecommunications in Asia Policy Planning and Development and like the earlier volume will become a popular and indispensable guide for professionals policy makers and regulators working in telecommunications related sectors Part One of this new book is thematic It reviews global best practices across a range of key issues facing the industry from regulation competition policy and the provision of universal service to interconnection between competing networks the management of radio spectrum for the all important wireless communications sector and an assessment of innovation in the telecommunications equipment market Part Two examines markets across the Asia Pacific region exploring the themes of Part One through in depth country studies Policy and regulations industry trends and markets are uniquely placed in their historical economic and political context No other publication offers such comprehensive insights and understanding of the dynamic of these markets And like the 1995 book this one looks likely to stand the test of time

The Privatisation of European Telecommunications Johan From, Kjell A. Eliassen, 2017-11-28 This international volume presents a comprehensive comparative study of the transformation of the European telecommunications industry from 1990 to the present The book focuses on the old incumbent operators and their dramatic change from state agencies to listed companies It analyzes the liberalization process as well as the corporatization and privatization of these companies The contributors assess the conditions for the transformations taking place the driving forces for change the effects to management the efforts of the EU during these processes and ultimately the role of the private owner Political science publications have all but excluded analysis of the newly privatized companies their contribution to the liberalization process both before and after privatization and the interplay between the national political and company levels The book redresses this shortcoming and also features a double empirical focus in that the main national incumbents in Europe are analyzed and compared to Telenor the Norwegian former incumbent
