Knitted Pattern For Elsa From Frozen Hat:

Baroness Elsa Irene Gammel, 2003-08-29 The first biography of the enigmatic dadaist known as the Baroness Elsa von Freytag Loringhoven Elsa von Freytag Loringhoven 1874 1927 is considered by many to be the first American dadaist as well as the mother of dada An innovator in poetic form and an early creator of junk sculpture the Baroness was best known for her sexually charged often controversial performances Some thought her merely crazed others thought her a genius The editor Margaret Anderson called her perhaps the only figure of our generation who deserves the epithet extraordinary Yet despite her great notoriety and influence until recently her story and work have been little known outside the circle of modernist scholars In Baroness Elsa Irene Gammel traces the extraordinary life and work of this daring woman viewing her in the context of female dada and the historical battles fought by women in the early twentieth century Striding through the streets of Berlin Munich New York and Paris wearing such adornments as a tomato soup can bra teaspoon earrings and black lipstick the Baroness erased the boundaries between life and art between the everyday and the outrageous between the creative and the dangerous Her art objects were precursors to dada objects of the teens and twenties her sound and visual poetry were far more daring than those of the male modernists of her time and her performances prefigured feminist body art and performance art by nearly half a century **Harper's Young People** ,1888 **Redbook** ,1963 The magazine for young adults varies Trade Names Dictionary Donna J.
