www.eknittingstitches.com

1. Take the working yarn in your left hand and grasp it between your fingers and your palm by making a loose fist. Pull the yarn so it's lightly taught and place your thumb over the top of the yarn.

2. Push down and rotate your thumb around the back of the yarn and then towards you so that the yarn is now looped once around your thumb.

3. Bring your thumb into a upright position, like you are trying to catch a ride hitchhiking. Take the right-hand needle and slip it between the yarn and the base of your thumb, so the needle moves upwards, relative to your left hand.

4. Pull your thumb down, out of the loop thereby transferring it entirely to the knitting needle. Pull the yarn to tighten the loop on the needle (but not too tight).

5. You should have your slip knot plus a new loop on your right-hand needle. Continue the process until you have the desired number of stitches that your knitting project requires. You are now ready to begin knitting your first row!
