Knowledge Goes Pop From Conspiracy Theory To Gossip Culture Machine:

Knowledge Goes Pop Clare Birchall, 2020-05-26 A voice on late night radio tells you that a fast food joint injects its food with drugs that make men impotent A colleague asks if you think the FBI was in on 9 11 An alien abductee on the Internet claims extra terrestrials have planted a microchip in her left buttock Julia Roberts in Porn Scandal shouts the front page of a gossip mag A spiritual healer claims he can cure chronic fatigue syndrome with the energizing power of crystals What do you believe Knowledge Goes Pop examines the popular knowledges that saturate our everyday experience We make this information and then it shapes the way we see the world How valid is it when compared to official knowledge and why does such mis information cause so much institutional anxiety Knowledge Goes Pop examines the range of knowledge from conspiracy theory to plain gossip and its role and impact in our culture

Conspiracy Panics Jack Z. Bratich, 2008-02-07 Examines contemporary anxiety over the phenomenon of conspiracy theories

The Stigmatization of Conspiracy Theory since the 1950s Katharina Thalmann, 2019-03-06 Are conspiracy theories everywhere and is everyone a conspiracy theorist This ground breaking study challenges some of the widely shared assessments in the scholarship about a perceived mainstreaming of conspiracy theory It claims that conspiracy theory underwent a significant shift in status in the mid 20th century and has since then become highly visible as an object of concern in public debates Providing an in depth analysis of academic and media discourses Katharina Thalmann is the first scholar to systematically trace the history and process of the delegitimization of conspiracy theory By reading a wide range of conspiracist accounts about three central events in American history from the 1950s to 1970s the Great Red Scare the Kennedy assassination and the Watergate scandal Thalmann shows that a veritable conspiracist subculture emerged in the 1970s as conspiracy theories were pushed out of the legitimate marketplace of ideas and conspiracy theory became a commodity not unlike pornography alluring in its illegitimacy commonsensical and highly profitable This will be of interest to scholars and researchers interested in American history culture and subcultures as well of course to those fascinated by conspiracies

The Time of the Cannibals Elizabeth Anne Davis, 2024-11-05 In 2009 the body of a former president of the Republic of Cyprus Tassos Papadopoulos was stolen from his grave The Time of the Cannibals reconsiders this history and the public discourse on it to reconsider how we think about conspiracy theory and specifically what it means to understand conspiracy theories in context The months after Papadopoulos s body was stolen saw intense public speculation in Cyprus including widespread expressions of sacrilege along with many false accusations against Cypriots and foreigners positioned as his political antagonists Davis delves into the public discourse on conspiracy theory in Cyprus that flourished in the aftermath tracing theories about the grave robbery to theories about the division of Cyprus some thirty five years earlier and both to longer histories of imperial and colonial violence Along the way Davis explores cross contextual connections among Cyprus and other locales in the form of conspiracy theories as well as political theologies regarding the dead bodies of political leaders Through critical close

readings of academic and journalistic approaches to conspiracy theory Davis shows that conspiracy theory as an analytic object fails to sustain comparative analysis and defies any general theory of conspiracy theory What these approaches accomplish instead she argues is the perpetuation of ethnocentrism in the guise of contextualization The Time of the Cannibals asks what better kind of contextualization this and any case call for and proposes the concept of conspiracy attunement a means of grasping the dialogic contexts in which conspiracy theories work recursively as matters of political and cultural significance in the long dur e *Anticapitalism and Culture* Jeremy Gilbert,2008-10-15 What does anticapitalism really mean for the politics and culture of the twenty first century Anticapitalism is an idea which despite going global remains rooted in the local persisting as a loose collection of grassroots movements and actions Anti capitalism needs to develop a coherent and cohering philosophy something which cultural theory and the intellectual legacy of the New Left can help to provide notably through the work of key radical thinkers such as Ernesto Laclau Stuart Hall Antonio Negri Gilles Deleuze and Judith Butler Anticapitalism and Culture argues that there is a strong relationship between the radical tradition of cultural studies and the new political movements which try to resist corporate globalization Indeed the two need each other whilst theory can shape and direct the huge diversity of anticapitalist activism the energy and sheer political engagement of the anticapitalist movement can breathe new life into cultural studies **Conspiracy theory and American foreign policy** Tim Aistrophe,2016-05-01 Conspiracy theory and American foreign policy examines the relationship between secrecy power and interpretation around international controversy where foreign policy orthodoxy comes up hard against alternative interpretations It does so in the context of US foreign policy during the War on Terror a conflict that was covert and conspiratorial to its core Offering a new dimension to debates on post truth politics this book critically examines the Arab Muslim paranoia narrative the view that Arab Muslim resentment towards America is motivated to some degree by a paranoid perception of American power in the Middle East This narrative is traced from its roots in a post War liberal understanding of populism through to foreign policy debates about the origins of 9 11 to the strategic heart of the Bush Administration s War of Ideas Balancing conceptual innovation with detailed case analysis Aistrophe provides a window into the ideological commitments of the US War on Terror Offering a fascinating insight into conspiracy and paranoia this book is essential reading for those interested in the relationship between secrecy power and contemporary politics

Conspiracy/Theory Joseph Masco,Lisa Wedeen,2023-12-01 In an era of intensified information warfare ranging from global disinformation campaigns to individual attention hacks what are the compelling terms for political judgment How are we to build the knowledge needed to recognize and address important forms of harm when critical information is either not to be trusted or kept hidden Rather than approach conspiratorial narrative as an irrational response to an obviously decipherable reality Conspiracy Theory identifies important affinities between conspiracy theory and critical theory It recognizes the motivation people have in their capacities as experts theorists and ordinary citizens to search for patterns in

events to uncover what is covert and attend to dimensions of life that might be hiding in plain sight If it seems strange that so many find themselves living in incommensurable disorienting realities the multidisciplinary contributors to Conspiracy Theory explore how and why that came to be Across history and geography contributors inquire into the affects and imaginaries of political mobilization tracking counterrevolutionary projects while acknowledging collective futures that demand conspiratorial engagement Contributors Nadia Abu El Haj Hussein Ali Agrama Kathleen Belew Elizabeth Anne Davis Joseph Dumit Faith Hillis Lochlann Jain Demetra Kasimis Susan Lepselter Darryl Li Louisa Lombard Joseph Masco Robert Meister Timothy Melley Rosalind C Morris George Shulman Lisa Wedeen

Architecture, Media, and Memory Joel McKim, 2018-12-13 Architecture Media and Memory examines the wide range of urban sites impacted by September 11 and its aftermath from the spontaneous memorials that emerged in Union Square in the hours after the attacks to the reconstruction at Ground Zero to vast ongoing landscape urbanism projects beyond Yet this is not simply a book about post 9 11 architecture It instead presents 9 11 as a multifaceted case study to explore a discourse on memory and its representation in the built environment It argues that the reconstruction of New York must be considered in relation to larger issues of urban development ongoing global conflicts the rise of digital media and the culture philosophy and aesthetics of memory It shows how understanding architecture in New York post 9 11 requires bringing memory into contact with a complex array of political economic and social forces Demonstrating an ability to explain complex philosophical ideas in language that will be accessible to students and researchers alike in architecture urban studies cultural studies and memory studies this book serves as a thought provoking account of the intertwining of contemporary architecture media and memory

New Cultural Studies Clare Birchall, Gary Hall, 2006-01-01 New Cultural Studies is both an introductory reference work and an original study which explores new directions and territories for cultural studies A new generation has begun to emerge from the shadow of the Birmingham School It is a generation whose whole education has been shaped by theory and who frequently turn to it as a means to think through some of the issues and current problems in contemporary culture and cultural studies In a period when departments which were once hotbeds of high theory are returning to more sociological and social science oriented modes of research and 9 11 and the war in Iraq especially have helped create a sense of post theoretical political urgency which leaves little time for the elitist Eurocentric textual concerns of Theory theoretical approaches to the study of culture have for many of this generation never seemed so important or so vital New Cultural Studies explores theory's past present and most especially future role in cultural studies It does so by providing an authoritative and accessible guide for students and teachers alike to the most innovative members of this new generation the thinkers and theories currently influencing new work in cultural studies Agamben Badiou Deleuze Derrida Hardt and Negri Kittler Laclau Levinas and iek the new territories currently being mapped out across the intersections of cultural studies and cultural theory anti capitalism ethics the posthumanities post Marxism and the transnational
