To The People - Educate Yourself Knowledge Is Power Angela Walker,2022-06-30 This is a Black lives matter inspired book that touches on matters of a number of situations that black people have endured in this country and continue to experience today we as black people have been through enough in this country I hope this book will teach our youth something about what s really going on and inspire them to question who they are and where they are headed for the future *The Police and the Public* Stephen M. Ziman,2022-06-01 Exploring the basic meaning of police power and how it must be redefined My ultimate objective is uncovering the dynamics of the police citizen contact including the emotional nature of not only the police officer but also the private citizen and probing those wounds of discontent frustration and anger We have to do it now

This is the year 2021 and we have to realize that nothing has changed We see the failings of the police citizen contact with no relief in sight I hope to have an impact on all who read these practical insights that I have gained over forty five years I will help you recognize that it is necessary for the private citizens in the community to accept the fact that the police have a very difficult job The police have to intercede in the citizens personal issues of domestic violence the acts of gangs and drugs that create victims and other criminal acts in general that make the community feel unsafe However the demeanor in which an officer responds to these issues must be taught and controlled We have seen that there is a cost to neglecting to teach the police self reliance Police officers sense of self reliance must become a foundation of police training Just as we teach our children how to get dressed use a fork properly and drive a car the police must be taught to be prepared beyond reading a book self defense and shooting a pistol There is a necessity for the police to not only prepare for resistance defiance and physical attacks but also to teach guide reinforce and provide constant remedial training on the recognition and control of their reactions to their emotions This cannot be a basic training subject it must be an occupational necessity with daily reminders of advice guidance and support It must also be recognized that it is not just an individual responsibility to work at such a complex nature of human reaction to emotions but a team effort It begins at the top with recognition education and guidance It must filter down with complete support for the man and woman wearing the badge and facing the onslaught of verbal attacks of overzealousness callousness and even racism at a time that emotions are strained and unpredictable Self reliance is only up to you It creates your future and will reflect your success My motivation has been to make clear that the small components in law enforcement are actually important Failure to acknowledge their importance creates a sequence of events that perpetuate a lack of emotional control at a time that control is most important Hopefully this information will help in understanding the root of our failure to deal with our reactions to our emotions This book is a must have practical reference for both the police and the public alike

book is to try to rectify this situation Knowledge and Power in Public Bureaucracies David Carnevale, Camilla Stivers, 2019-07-08 Ever since Max Weber and Frederick Taylor public organizations have been told that effective practice lies in maximizing rationality through science Yet science based management reforms have had only marginal impact on performance People in entry level positions possess knowledge from direct experience of the work management knowledge is often science based and distanced from the work and appointed top executives struggle to join bureaucratic rationality with political exigencies Knowledge and Power in Public Bureaucracies From Pyramid to Circle offers fresh thinking about public organizations arguing that conflicting forms of knowledge may be found within the bureaucratic pyramid Answering the question of why management reforms over the past century have failed on their own terms this book examines the existence of conflicting forms of knowledge within public bureaucracies how these contradictory perspectives interact or fail to interact and the ways in which these systems preserve managerial efforts to control workers Authors Carnevale and Stivers argue that bureaucratic rationality is not the one best way as Taylor promised and indeed there is no one best way or model that can be deployed in all situations The bureaucratic pyramid can however be made more effective by paying attention to circular processes that are widespread within the hierarchy the authors argue describing such circular processes as facework This book will serve as an ideal supplement to introductory public administration and organizational theory courses as well as courses for mid career professionals helping to frame their work experiences *50 Facts Everyone Should Know About Crime and Punishment in Britain* Adam Lynes, James Treadwell, 2019-03-27 Are you the kind of person who watches crime drama and real life crime documentaries on television Are you fascinated by the twists and turns of justice and the law But how much do you really know about key issues in crime crime control policing and punishment in the UK This exciting dynamic and accessible book written by leading experts presents 50 key facts related to crime and criminal justice policy in Britain Did you know that contrary to public belief in the UK a life sentence does actually last for life And that capital punishment in the UK was abolished for murder in 1965 but the Death Penalty was a legally defined punishment as late as 1998 Offering thought provoking insights into the study of crime this fascinating go to book is packed with facts and figures revealing the myths and realities of crime in contemporary Britain FBI Law Enforcement Bulletin, 2012 *My Thoughts* Ferrari King, 2024-05-03 This is some random stuff I wrote a long time ago I may not support everything I wrote back then
