Camarinha-Matos, 2006-01-04 Industries and particularly the manufacturing sector have been facing difficult challenges in a context of socio economic turbulence characterized by complexity as well as the speed of change in causal interconnections in the socio economic environment In order to respond

to these challenges companies are forced to seek new technological and organizational solutions In this context two main characteristics emerge as key properties of a modern automation system agility and distribution Agility because systems need not only to be flexible in order to adjust to a number of a priori defined scenarios but rather must cope with unpredictability Distribution in the sense that automation and business processes are becoming distributed and supported by collaborative networks Emerging Solutions for Future Manufacturing Systems includes the papers selected for the BASYS 04 conference which was held in Vienna Austria in September 2004 and sponsored by the International Federation for Information Processing IFIP

Knowledge Management Within The Context Of Business Organizations The Case Of Factiva B. Ahu Alpaslan,2018-09-17 In the recent years organization have faced with new challenges throughout the world Together with globalization new markets have been opened and the existing markets have grown rapidly Hence the need for knowledge has arisen very much Organizations began to need more information about the markets about their competitor and also about other effective factors which would influence their functioning throughout the world market The need for knowledge is not solely tied to this change but organizations in order to become more competitive need to make developments and learn the needs and expectations of their customers So this need became the second motive in the organizational search of knowledge From this need of the organizations for more knowledge and information the Knowledge Management has emerged Nowadays many organizations regard knowledge and information as valuable assets of their organizations and apply programs within their organizations to organize the flow of knowledge But organizations do not possess all the necessary tools to continue such programs and they get help from outer sources These sources are mainly the firms that deal with developing the tools and technology necessary to search identify gather categories and deliver knowledge
