it involves a long process that grows from all of life's experience if you have the courage to learn the lessons given to you by your own unique life journey. It shows how difficult it is to age positively in a culture that denies and denigrates aging. Thus older people become elders growing in their own wisdom and contributing with that wisdom to their families and communities.

While many sail training captains and crew tend to be transient, I stayed with Tabor and Tabor Boy for thirty-five years. The reason

for that decision came from the opportunity to work with high schoolers to get students out of the classroom and to expose them to real world challenges and experiences Quarterly Report and Semiannual Report to the United States Congress United States. *Public Policy Editorials* Allen Ripley Foote, 1901 **Primary Education**, 1918 *Counterinsurgency Lessons from Malaya and Vietnam* John Nagl, 2002-10-30 Armies are invariably accused of preparing to fight the last war Nagl examines how armies learn during the course of conflicts for which they are initially unprepared in organization training and mindset He compares the development of counterinsurgency doctrine and practice in the Malayan Emergency from 1948 1960 with that developed in the Vietnam Conflict from 1950 1975 through use of archival sources and interviews with participants in both conflicts In examining these two events he argues that organizational culture is the key variable in determining the success or failure of attempts to adapt to changing circumstances Differences in organizational culture is the primary reason why the British Army learned to conduct counterinsurgency in Malaya while the American Army failed to learn in Vietnam The American Army resisted any true attempt to learn how to fight an insurgency during the course of the Vietnam Conflict preferring to treat the war as a conventional conflict in the tradition of the Korean War or World War II The British Army because of its traditional role as a colonial police force and the organizational characteristics that its history and the national culture created was better able to quickly learn and apply the lessons of counterinsurgency during the course of the Malayan Emergency This is the first study to apply organizational learning theory to cases in which armies were engaged in actual combat **Public Policy**, 1900
