Handbook of the Psychology of Aging Klaus Warner Schaie, Sherry L. Willis, 2011 The Handbook of the Biology of Aging 7e is 100% revised from the 6th edition Providing a comprehensive synthesis and

review of the latest research findings in the biology of aging it is intended as a summary for researchers and is also suitable as a high level textbook for graduate and upper level undergraduate courses The 7th edition is organized into two main sections first covering the basic aging processes and then the medical physiology of aging This puts less emphasis on research germane only to specific species and more emphasis on the mechanisms that affect aging across species and what this means medically for the aging of humans This volume allows basic researchers to keep abreast of basic research outside their subdiscipline as well as recent clinical findings while allowing medical behavioral and social gerontologists to understand what basic scientists and clinicians are discovering Encyclopedia of Gerontology James E. Birren, 2006-12-14 Since the first edition the research literature on aging continues to expand rapidly reflecting both the rising interest of the scientific community and also the needs of a growing older population In the year 1900 persons over 65 years of age were the smallest portion of developed societies Today they are emerging as the largest Aging is a complex process of change involving influences of a biological behavioral social and environmental nature all of which are explored in the context of this encyclopedia The second edition includes all new articles and wholly new coverage of topics that have seen research advances Also available online via ScienceDirect 2006 featuring extensive browsing searching and internal cross referencing between articles in the work plus dynamic linking to journal articles and abstract databases making navigation flexible and easy For more information pricing options and availability visit www.info.sciencedirect.com Organized alphabetically by article title Consolidates and summarizes pertinent findings while providing additional readings Breadth of coverage spans biology psychology social science health science and humanities Every article contains a definition paragraph and a glossary of unfamiliar terms Fully cross referenced and contains a complete subject index Online availability via ScienceDirect

Anti-ageing Medicine Astrid Stuckelberger, 2008 The 21st century technological development is revolutionizing medicine and health care bringing new hopes to human suffering by offering cures and treatments which were unthinkable a few decades ago This is where anti ageing medicine finds its niche Anti ageing medicine aims at slowing arresting and reversing phenomena associated with ageing by merging biotechnological innovation and engineered solutions Ideally by means of the newest medical technology the body machinery should be kept fit and at peak performance all life long Early detection of age related dysfunction should thus be fixed at any age with interventions such as metabolic fine tuning enhancement regeneration restoration or replacement of body parts i e organs skin bone or muscle It covers a vast array of domains from cell therapy to pharmaceutical interventions from bio surgery to aesthetic surgery from human enhancement to fortified food from smart housing and robots to toxic free environments Anti ageing medicine holds promises but also significant risks and safety issues which are addressed in this book It presents the latest scientific evidence on what works or does not work It also provides public policy recommendations to ensure the protection of consumers and their rights while encouraging research and development This book is intended for academics health professionals business persons consumers and policy

makers interested in the latest evidence and ethical issues about anti ageing medicine *Aging and Human Nature* Mark Schweda, Michael Coors, Claudia Bozzaro, 2020-01-11 This book focuses on ageing as a topic of philosophical theological and historical anthropology It provides a systematic inventory of fundamental theoretical questions and assumptions involved in the discussion of ageing and old age What does it mean for human beings to grow old and become more vulnerable and dependent How can we understand the manifestations of ageing and old age in the human body How should we interpret the processes of change in the temporal course of a human life What impact does old age have on the social dimensions of human existence In order to tackle these questions the volume brings together internationally distinguished scholars from the fields of philosophy theology cultural studies social gerontology and ageing studies The collection of their original articles makes a twofold contribution to contemporary academic discourse On one hand it helps to clarify and deepen our understanding of ageing and old age by examining it from the fundamental point of view of philosophical theological and historical anthropology At the same time it also enhances and expands the discourses of philosophical theological and historical anthropology by systematically taking into account that human beings are essentially ageing creatures *Sociology of Ageing* Gangadhar Karalay, 2024-07-15 This book examines the biological psychological and sociocultural aspects of challenges related to ageing in India It does so by widely referring to research works beyond the disciplinary boundary of sociology to help develop a lucid yet critical understanding of sociological ageing Apart from providing an invaluable introduction to the major issues involved in the study of ageing from a sociological perspective this book discusses demographic perspective social dimensions social support and state policies in detail It aptly describes challenges faced by elderly people and avenues of opportunities available to them to remain actively engaged in life This book would be useful to the students researchers and teachers of Sociology Social Work Public Health and Psychology It would also be an invaluable companion to professionals working in the field of Gerontology Health and Social care and NGOs working with older people

Economic Foundations for Creative Ageing Policy Andrzej Klimczuk, 2015-08-12 Ageing populations are a major consideration for socio economic development in the early twenty first century This demographic change is mainly seen as a threat rather than as an opportunity to improve the quality of human life especially in Europe where ageing has resulted in a reduction in economic competitiveness Economic Foundations for Creative Ageing Policy mixes the silver economy the creative economy and the social economy to construct positive solutions for an ageing population Klimczuk covers theoretical analyses and case study descriptions of good practices to suggest strategies that could be internationally popularized

Spring Chicken Bill Gifford, 2024-09-24 An enlightening book and a terrific read this New York Times bestseller explores the anti aging science revealing the truth behind getting old Wall Street Journal Spring Chicken is a high energy ride through the latest research popular mythology and ancient wisdom on mankind's oldest obsession How can we live longer And better In his funny self deprecating voice veteran reporter Bill Gifford takes readers on a fascinating journey

through the science of aging from the obvious signs like wrinkles and baldness right down into the innermost workings of cells We visit cutting edge labs where scientists are working to hack the aging process Gifford reveals why some people live past one hundred without even trying what has happened with resveratrol the red wine pill that made headlines a few years ago how your fat tissue is trying to kill you and how it s possible to unlock longevity promoting pathways that are programmed into our very genes Gifford separates the wheat from the chaff as he exposes hoaxes and scams foisted upon an aging society and arms readers with the best possible advice on what to do what not to do and what life changing treatments may be right around the corner A riveting account of the most important change of the last century the doubling of our lifespans and an intimate vision of what it will take to not only keep that trend going but keep ourselves healthy and vibrant as we age Steven Johnson New York Times bestseller of *How We Got to Now* An entertaining narrative of the perils of getting old Kirkus Reviews
