and literally redrew the map of the world Wheeler puts these past revolutions into the perspective of today when rapid fire changes in networking are upending the nature of work personal privacy education the media and nearly every other aspect of modern life But he doesn't leave it there Outlining What's Next he describes how artificial intelligence virtual reality blockchain and the need for cybersecurity are laying the foundation for a third network revolution Immigration, Migration, and the Industrial Revolution Tracee Sioux, 2003-08-01 Describes how inventions such as the cotton gin transformed America from an agricultural country to an industrial one and led to both problems and opportunities
