## **Inherent Human Rights Inherent Human Rights:**

**Inherent Human Rights** Johannes Morsink, 2012-02-28 Confronting the evils of World War II and building on the legacy of the 1776 Declaration of Independence and the 1789 French Declaration of the Rights of Man and of the Citizen a group of world citizens including Eleanor Roosevelt drafted the Universal Declaration of Human Rights Adopted by the United Nations in 1948 the Universal Declaration has been translated into 300 languages and has become the basis for most other international human rights texts and norms In spite of the global success of this document however a philosophical disconnect exists between what major theorists have said a human right is and the foundational text of the very movement they advocate In *Inherent Human Rights Philosophical Roots of the Universal Declaration* philosopher and political theorist Johannes Morsink offers an alternative to contemporary assumptions A major historian of the Universal Declaration Morsink traces the philosophical roots of the Declaration back to the Enlightenment and to a shared revulsion at the horrors of the Holocaust He defends the Declaration's perspective that all people have human rights simply by virtue of being born into the human family and that human beings have these rights regardless of any government or court action or inaction Like mathematical principles human rights are truly universal not the products of a particular culture economic scheme or political system Our understanding of their existence can be blocked only by madness and false ideologies Morsink argues that the drafters of the Declaration shared this metaphysical view of human rights By denying the inherence of human rights and their metaphysical nature and removing the concepts of the Declaration from their historical and philosophical context contemporary constructivist scholars and pragmatic activists create an unnecessary and potentially dangerous political fog The book carefully dissects various human rights models and ends with a defense of the Declaration's cosmopolitan vision against charges of unrealistic utopianism and Western ethnocentrism *Inherent Human Rights* takes exception to the reigning view that the Golden Rule is the best defense of human rights Instead it calls for us to follow the lead of the Declaration's drafters and liberate the idea of human rights from the realm of the political and the juridical which is where contemporary theorists have imprisoned it

**Myth of Universal Human Rights** David N. Stamos, 2015-11-17 In this groundbreaking and provocative new book philosopher of science David N. Stamos challenges the current conceptions of human rights and argues that the existence of universal human rights is a modern myth Using an evolutionary analysis to support his claims Stamos traces the origin of the myth from the English Levellers of 1640s London to our modern day Theoretical defenses of the belief in human rights are critically examined including defenses of nonconsensus concepts In the final chapter Stamos develops a method of naturalized normative ethics which he then applies to topics routinely dealt with in terms of human rights In all of this Stamos hopes to show that there is a better way of dealing with matters of ethics and justice a way that involves applying the whole of our evolved moral being rather than only parts of it and that is fiction free

**Inherent Human Dignity** Glenn Hughes, 2025-08-15 *Inherent Human Dignity* explores the philosophical and existential foundations of what it means to be

human Inherent Human Dignity is a philosophical meditation and defense of the value of being human Glenn Hughes explores the existential foundations of these concepts in this structured and accessible study about the experience of being human Hughes locates human dignity within the philosophical political and historical horizons of human culture Guided by Eric Voegelin and Bernard Lonergan literary and artistic examples key moments of our modern era and his own scholarship on the religions of the world Hughes unfolds and accounts for human dignity s place in our world He additionally utilizes key moments of our modern era to frame our understanding of human dignity paying close attention to the Universal Declaration of Human Rights that was created by the United Nations following World War II Ultimately Hughes s meditation is concerned both with exploring the maximally differentiated set of insights into the meaning of being human and with articulating why the discovery of the inherent equal dignity of every person without exception is a profound and unique achievement

**Towards the Realization of World Peace** Emmanuel M. P. Edeh,2015-06-19 The history of mankind has been dominated by wars violence restiveness hunger political and economic revolution which are seemingly engineered by gross quest for political power economic gain territorial boundary negative national pride selfishness greed unwarranted man inhumanity to and cultural dominance It is obvious from all indications that the driving force behind these wars are either quest for peace social

justice political emancipation etc Regrettably instead of peace these wars have rather brought about hatred fear mutual suspicion and perpetual agitation of the unknown Consequently even those who claim to be pursuing the courses of peace through war have found themselves in a more confused state because they live in fear of the vanquished that could turn against them any day Those who have been conquered also live in fear as the victor becomes arrogant and inconsiderate Realizing that the world is in dire need of peace the general assembly of the United Nation Organisation UNO resolved on September 7 2001 to observe September 21 as the International Peace Day The assembly deemed it necessary for the sake of peace to observe that day as a day of ceasefire and non violence This was a way of bringing to public awareness the necessity of peace The desire for peace was evident in that a number of agencies were founded by UNO to promote and foster peaceful coexistence among nations But the question that still remains unanswered is what are the achievements of these agencies over the years It is obvious that warring nations even keep killing themselves on the eve of the International Peace Day What a tragedy Fr Edeh observes that peace can be enthroned if and only if the dignity and essence of man is cared for loved and respected For him the dignity and essence of man stem from the fact that man is created by God who is good in se Hence man is good that is Mmadi To fully realize the ontological goodness of man Edeh insists that African philosophy should not be thought of in terms of theoretical and rational speculation but a lived philosophy of African culture language and religious background which must be expressed in practical terms Thus the primary aim of this mission of practical and effective charity is to bring peace to the world by bringing peace to the heart of individuals who are abjectly poor sick marginalized unemployed and uneducated irrespective of race colour creed social status religion or physical condition This book therefore contains Fr Edehs understanding of man as a dignified being because of his participation in the being of his creator God This concept of man stems from the African philosophy which is as practical as it is theoretical Consequently pursuing peace according to Edeh has to go beyond just holding of conferences and presenting long speeches He maintains that stakeholders in this all important venture must put down certain concrete realities that will better the fate of man His role model here is worth imitating if only world peace is to be truly realized

**Christ and Human Rights** G. M. Newlands, 2006 Human rights is one of the most important geopolitical issues in the modern world Jesus Christ is the centre of Christianity Yet there exists almost no analysis of the significance of Christology for human rights This book focuses on the connections Examination of rights reveals tensions ambiguities and conflicts This book constructs a Christology which centres on a Christ of the vulnerable and the margins It explores the interface between religion law politics and violence East and West North and South The history of the use of sacred texts as texts of terror is examined and theological links to legal and political dimensions explored Criteria are developed for action to make an effective difference to human rights enforcement and resolution between cultures and religions on rights

**Socio-Legal Impacts Of COVID-19: Comparative Critique of Laws in India and Nepal** Alok Kumar Yadav , Jivesh Jha, 2020-07-06 The post Corona period will be critical for the socio

political governance which calls for careful and serious use of nation's resources After all old and tried approaches have failed to deliver much in welfare states While the state should come forward with more funds for fighting against pandemic situations it is the duty of the lawyers and academicians to make their respective contributions in the study of law Julius Stone has rightly observed jurisprudence as the lawyer's extraversion meaning thereby jurisprudence involves examination of precepts ideals and techniques of the law by lawyers in the light of disciplines other than the law It is for this reason this branch of philosophy aims to investigate the nature of law and its relation with human values attitudes practices and political dimensions At this backdrop authors endeavour to examine the precepts of the state enactments as well as the welfare functions of the state during the deadly Coronavirus lockdown The objective of the book is not only to explain the socio legal impacts and responses to COVID 19 but also the epidemic situations humans have faced earlier A comparative study of epidemic laws of India and Nepal in the light of various global precedents has been attempted in this book We have drawn largely the legal provisions relating to epidemic diseases in India and Nepal We have suggested that welfare states like India and Nepal could adopt and enact a comprehensive law to battle the pandemic like situations It is also advisable that India and Nepal could take a leaf from England's Coronavirus Act 2020 which has been promulgated to address the challenges of COVID 19 in the country <https://www.rajmangalpublishers.com>
