an oedipal struggle for survival and regeneration and clamoring for the right to take part in selecting those who should reign over them This is a basic fundamental and legitimate quest for self development because no people no matter how lowly can accept to carry the yoke of oppression indefinitely Moreover people want to believe the illusion that elections produce good leaders President Gaulus Machando Mayabi has felt obliged to draw the attention of the world and particularly that of incumbent and aspiring African tribal president monarchs to what they need to do to continue maintaining themselves in power by force so as to keep their people in abject subjugation and their countries on the straight and downward road to political economic and cultural ruin There comes a time in the political life of nations and in the political fortunes of leaders when someone preferably a man of honor and integrity like President Gaulus Machando Mayabi has to take up the gauntlet in the defense of his fellow African tribal president monarchs and himself under the pretext that he is defending the nation and its institutions Guide to Electoral Fraud Loser take all has therefore been written to cater primarily to the interests of reigning tribal African president monarchs But beyond serving the needs of African tribal president monarchs and aspiring candidates for elective office it is also intended to serve a much wider and composite audience made up of international observers donor countries foreign embassy staff international spy networks political scientists African and foreign politicians students of politics human rights organizations etc Although most African tribal president monarchs are already very familiar with the methods described in this book it is hoped that the book will serve as a ready reckoner and as a kind of vade mecum so that each time they want to organize an election all they have to do is pick up the book and refer to the appropriate recipe and then use their imagination to concoct the menu they want to serve their people Their imagination is therefore the limit Guide to Electoral Fraud Loser take all is an elections rulebook and the holy grail of election malpractice It rightly parts the curtains for the world to peep inside the dark kitchen where African elections are cooked The reader will be able to take a glimpse at the soot stained white chefs and advisers of African tribal president monarchs while sniffing the suffocating stench of the elections mishmash Chances are that readers will be knocked out instantly by the black pall of smoke from the kitchen but hopefully the smoke shouldn't take long to clear for them to see through the election smokescreen and behold the stark nudity of the African tin gods sitting round the fireplace and stirring the election cauldron There is no doubt that Guide to Electoral Fraud Loser take all will fill the yawning gap that exists in the world's knowledge about the way undemocratic elections are con
