Informal Learning in the Workplace Jessica P. Medina, 2023 Employees engage in informal learning to solve a workplace problem and to gain knowledge at the time the need arises without waiting to attend a scheduled training session Jacobs and Park 2009 Livingstone 1999 Schugurensky 2000 Sch rmann and Beusaert 2016 The definition employed in this study is the self guided pursuit of knowledge as an intentional explicit behavior when the employee is cognizant of the learning while it is taking place The organization of study was a municipal government utility organization in the southeast United States with combination of onsite and remote office staff and skilled field plant workers The purpose of the study was to examine employees informal learning behaviors ILBs and tools that support their job performance and to explain why they used those informal learning strategies and tools for their job performance 172 employees completed a questionnaire reporting on their frequency of use of the following ILBs talking with others observing others searching the internet using job aids using social media reviewing policies and procedures manuals or standards participating in coaching mentoring using shared materials resources and knowledge using resources from professional organizations and engaging in trial and error Interviews with 10 employees representing both office and field employees explained why employees engaged in ILBs and tools at work Employees responded to the survey and the findings revealed that nine out of the ten strategies were currently being used by 70% or more of the respondents Results also show that five out of the eight informal learning tools listed on the questionnaire were being used by 70% or more of the respondents While office and field workers ILBs and tools usage results were similar their explanations of their specific work context revealed some important points for the organization to consider Workers in the field could benefit from access to organizational information and applications on their mobile device because the nature of field work required them to learn on the go Other unique work environments such as remote office workers depended on reliable access to collaboration tools and videoconferencing The findings can help this organization and others provide a work environment that encourages ILBs and supports their employees job performance by providing necessary resources and tools for informal learning

Informal Learning Stephen Rutherford, 2017 Human beings are learning all the time Regardless of whether or not they are enrolled in formal education people are constantly learning from everyday experiences through problems they have solved and interactions they have encountered Humans learn from family friends peers and colleagues as well as through their own natural curiosity This informal learning is a powerful part of the learning experience and is important to lifelong learners of all ages Informal learning is important to education in the workplace during leisure activities and in social situations The impact of informal learning is therefore quite considerable Formal learning in the classroom is well documented and exhaustively researched but is limited by the need for an expert to design and scaffold that learning space Even non formal self regulated or self directed learning involves a goal or a specific aim and is usually guided by a curriculum In contrast informal learning is generally lacking in a clearly defined aim is rarely if ever assessed and can occur in any environment at any time and by anyone This book aims to highlight examples of the many different forms that informal learning can take and to assess its impact on educational situations and on learning in the workplace Drawn from educational and workplace settings from expert contributors across the globe the studies in this volume cover a broad range of environments and disciplines Presented is a collection of case studies expert reviews and original research which illustrate different forms of informal learning and provide examples of how the potential for informal learning can be harnessed in practice From the experiences of workplace learners adult learners virtual learning communities older learners clinicians and volunteers this volume addresses the role of informal learning in a variety of working and learning environments By addressing the development of skills identities learning approaches and professional relationships an impression of the role of informal learning in educational development is also highlighted Finally via examples of ubiquitous learning using mobile technologies revisions to curricula the use of games in learning and the use of

pop up schools this volume highlights how informal learning can be embedded in learning activities that lead to profound changes in how people see the world This book would be of interest to educators and managers alike and aims to highlight that informal learning occurs all around us and if we recognise it and its impact then we can enhance our potential as lifelong learners and make work and educational environments richer and more effective **Informal Learning in the Workplace**
