Love Is All: Creative Altruism In Global Management Gebhard Deissler, 2010-12-27 Research Paper undergraduate from the year 2010 in the subject Business economics Business Management Corporate Governance course Interkulturelles Management language English abstract Mankind needs this agent today more than ever to do the integrative work which is its nature The moment it emerges the integration is completed All diversity questions are resolved As long as it does not emerge none are solved nor can they ever be solved sustainably without it We need it today more than ever because of unprecedented diversity challenges during the course of globalization and the unprecedented challenges and antagonisms that come with it It is the only solution to intercultural hate And it is because of this hate that we need it and first and foremost because it is the only power in the world that can heal it Neither science nor technology nor psychology nor philosophy nor in particular intercultural research can provide sustainable solutions beyond the analysis of the situation from a far too relative and limited vantage point of the mental psychological approaches alone *The Five Literacies of Global Leadership* Richard David Hames, 2015-06-10 New research has exposed our leadership paradigm as a outdated mess of flawed models and practices By working with great leaders and observing their common attitudes and behaviours Richard Hames has cracked a universal code based on intelligence appreciation and collaboration This code unlocks Five Literacies of Global Leadership These behaviours are the trade secrets of the artists and alchemists among us Often instinctively these leaders charge others with energy search for new perspectives and embrace diversity And they are driven by dialogue This book reveals approaches and attitudes that they all share and that can make anyone an exceptional leader *Trojanische Pferde und ihre Zähmung. Kultur und das trojanische Pferd-Motiv. Eine Herausforderung für das Management.* Gebhard Deissler, 2011-12-13 Fachbuch aus dem Jahr 2011 im Fachbereich Kulturwissenschaften Sonstiges Sprache Deutsch Abstract Kultursysteme und Bewusstseinsräume werden dergestalt korreliert dass das Kulturelle in jedem Kontext beherrschbar wird

Translations on International Communist Developments ,1961 Renewal Colbert Rhodes, 2017-07-11 Offering a deep look into the moral uncertainty in the contemporary social sciences and American society this book explores an in depth solution This solution as articulated by Pitirim A Sorokin in the 20th century is the theory of Integralism a perspective dating back to Plato Aristotle and Aquinas Sorokin initially applied Integralism by locating and analyzing three dominant super socio cultural systems over 2500 years of Graeco Roman and Western history Each super system was unified by a central philosophical principle based either on materialism the senses or the rational or the supersensory super rational A super system declines when it reaches the limits of its potential to achieve its true reality and value to be replaced by another super system Sorokin described a trendless rotation of the three super socio cultural systems The current dominant super socio cultural system in the West is a materialist version emphasizing science and technology with little thought given to supersensory super rational reality Sorokin asserted contemporary materialist culture was in a state of collapse due to the

breakup of its moral values As a consequence he saw a struggle for power occurring between egoistic individuals and groups often resulting in revolutions wars and inter human strife In response to the one sided materialist view of reality the goal of Integralism is to unify all three forms of reality into an integral culture that harmoniously balances materialist and supersensory super rational orientations A solution to the contemporary moral confusion Sorokin argued can be found in the application of supra conscious intuition that would enable a human to know what is eternal in the ordinary and reach the transcendent an experience not accessible to the senses or the rational intellect alone The supra conscious is the source for reaching the supreme moral value creative unselfish altruism which can be shared by all cultures to produce peace and harmony in the world *Seminar* ,1981 *The Secret Sauce of Servant Leadership* Dr. Peter K. Scheuermann,2023-02-10

The Secret Sauce of Servant Leadership was borne out of the desire to help others quickly ignite and launch servant leadership characteristics and attributes into a leader s style and approach to influencing and leading people not employees This book applies to all industries and cultures across the globe The book is structured by first defining a leadership concept then learning about examples of modern day leaders and organizations who display and live out servant leadership characteristics in their approach and then how this can be applied in other organizations The author takes time in covering such topics as what is servant leadership defining one s purpose living out one s values building a high performance culture creating trust and sustaining long lasting relationships developing and sustaining a servant leader s character and finally the most important of all love the love of people The last two chapters provide a 360 servant leadership assessment example and how servant leadership can be integrated and applied in workplace leadership programs The hope of the author is that the reader will quickly gain an understanding of servant leadership characteristics achieve insights into the examples of both individual and organizations provided and then immediately start incorporating these principles within their leadership approach in turn helping others to become servant leaders **Meditations on Gandhi** Mundackal Paulose Mathai,M. S. John,Siby K. Joseph,2002 Insight into the Gandhian social views and impressions and personal recollections on Gandhian and politician Ravindra Varma b 1925 contributed articles *The Role of Creative Altruism in Global Management* Gebhard Deissler,2011-02 Essay from the year 2011 in the subject Cultural Studies Miscellaneous course Interkulturelles Management language English abstract If there is no love do what you will it only creates more misery Those are roughly the words which have been spoken by a wise man The preaching of churches mosques temples and synagogues the philosophies culture gurus everything that is taught in schools academies and universities therefore seems utterly meaningless if it lacks that fundamental value of values and is bound to become counterproductive individually and socially over time No value can have any worth unless it is based on love Without it no solution in any area of life can be truly and lastingly satisfactory
