Grenzland Europa Karl Schlögel, 2015-05-21 **The Literary Politics of Mitteleuropa** Yvonne Zivkovic, 2021 Shows how postwar writers in Austria and Yugoslavia re imagined the concept of Mitteleuropa Central Europe as a cultural space between nostalgia and totalitarianism The German term Mitteleuropa or Central Europe was never just a geographical concept it connoted extending German influence to the east In the 1980s the eastern European dissident writers Gyrgy Konrád Czesław Miłosz and Milan Kundera revived the concept to counter a perceived Cold War memory vacuum aligning themselves with the multiethnic and multilingual legacy of the Habsburg Empire Their observations gave rise to a protracted public debate that posited literature against politics This debate was both anticipated and expanded upon in postwar literary works by Ingeborg Bachmann Peter Handke and Christoph Ransmayr in Austria and Danilo Kis Aleksandar Tisma and Dubravka Ugresić in the former Yugoslavia all of whom questioned notions of geographic identity and national allegiance by imagining Mitteleuropa as a cultural space between nostalgia and totalitarianism Yvonne Zivkovic draws on space and memory studies to show how Mitteleuropa emerged as an alternate memory discourse that reveals deep ties between the Second Austrian Republic and the Socialist Federal Republic of Yugoslavia The writers discussed address the major themes of the 1980s debate traumatic memory geographic displacement and transnationalism but also share a literary aesthetics that privileges the intersections of prose fiction and the essay the literary fragment and intertextuality Zivkovic's book shows the persistence of Mitteleuropa as a literary network and as a cultural collective that examines civic values against public tendencies of memory manipulation Europa as a cultural space between nostalgia and totalitarianism Yvonne Zivkovic draws on space and memory studies to show how Mitteleuropa emerged as an alternate memory discourse that reveals deep ties between the Second Austrian Republic and the Socialist Federal Republic of Yugoslavia The writers discussed address the major themes of the 1980s debate traumatic memory geographic displacement and transnationalism but also share a literary aesthetics that privileges the intersections of prose fiction and the essay the literary fragment and intertextuality Zivkovic's book shows the persistence of Mitteleuropa as a literary network and as a cultural collective that examines civic values against public tendencies of memory manipulation Europa as a cultural space between nostalgia and totalitarianism Yvonne Zivkovic draws on space and memory studies to show how Mitteleuropa emerged as an alternate memory discourse that reveals deep ties between the Second Austrian Republic and the Socialist Federal Republic of Yugoslavia The writers discussed address the major themes of the 1980s debate traumatic memory geographic displacement and transnationalism but also share a literary aesthetics that privileges the intersections of prose fiction and the essay the literary fragment and intertextuality Zivkovic's book shows the persistence of Mitteleuropa as a literary network and as a cultural collective that examines civic values against public tendencies of memory manipulation Europa as a cultural space between nostalgia and totalitarianism Yvonne Zivkovic draws on space and memory studies to show how Mitteleuropa emerged as an alternate

European Regions and Boundaries

Diana Mishkova,Balázs Trencsényi,2017-07-01 It is difficult to speak about Europe today without reference to its constitutive regions supra national geographical designations such as Scandinavia Eastern Europe and the Balkans Such formulations are so ubiquitous that they are frequently treated as empirical realities rather than a series of shifting overlapping and historically constructed concepts This volume is the first to provide a synthetic account of these concepts and the historical and intellectual contexts in which they emerged Bringing together prominent international scholars from across multiple disciplines it systematically and comprehensively explores how such meso regions have been conceptualized throughout modern European history

Transculturalism and Business in the BRIC States

Yvette Sánchez,Claudia Franziska Brühwiler,2016-03-03 Transculturalism and Business in the BRIC States edited by Yvette Sánchez and Claudia Franziska Brühwiler is the first handbook on the BRIC States that offers a transcultural perspective which goes beyond the typical how to manuals or economic projections and provides an understanding of transculturalism as it is studied and practiced in the respective countries themselves This unique reference book also offers insights into the relations between the corresponding states and the challenges facing those trying to foster more intense business exchanges The reader learns to interpret cross cultural issues from the perspectives of the BRIC states themselves and gains insight into the way scholars in the BRIC area reflect on transculturalism Moreover it introduces the reader to fresh visualizations that help consider transculturalism beyond the known categories The book will appeal on the one hand to practitioners who are active in the BRIC states and wish to better grasp the challenges to business relations as well as the intra area dynamics and on the other hand to scholars in transcultural studies and international management due to its insider approach Since the book combines theoretical concepts with a clear geographic focus and a critical approach to traditional models it is suitable for both academic audiences as well as for practitioners who appreciate a sound theoretical base and a fresh take on a subject

Woher kommt und wohin geht Europa

Joachim Rossbroich,2021-03-22 In seinem tiefgreifenden Essay zur Vergangenheit Gegenwart und Zukunft westlicher Kultur beschreibt Joachim Rossbroich überzeugend Entwicklungs und Gefährdungspotentiale und

verdichtet diese zu einem best case und worst case Szenario der Zukunft Wer das systemisch Gute und die werdende Vernunft der westlichen Kultur in Europa und darüber hinaus an erkennen und erhalten will darf nicht die Augen vor der geistigen strukturellen und organisierten Gewalt auch im westlichen Pfad verschließen Abschließend werden Perspektiven und Wege der Gestaltung Europas vorgestellt europäische Zivilgesellschaft und öffentlichkeit demokratische lernende Organisation politischer Steuerung wirtschaftlicher Leistung von Wissen und Bildung sowie eine Innen- und Außenpolitik der weichen Grenzziehungen **[Borderland Societies in East-Central Europe](#)** Kristina Wittkamp, 2024-11-10 The recent events of the Russo-Ukrainian warfare confirm violently that borderlands and borderland societies constitute vital parts of topographically as well as simultaneously culturally determined and discursively shaped East Central European spatial spheres This volume approaches this topic in a variety of case studies spanning from Western border regions like Silesia and the former inner German border between Thuringia and Northern Bavaria to the Eastern outposts of the Habsburg Empire in Galicia and Bukovina These borderlands depict collectively experienced spaces of representation allowing certain insights into the histories of society and transfer By analyzing transdisciplinary concepts of identity construction transcultural and urban spheres the gathered articles contribute to milieu remembrance and identity studies The presented case studies enrich the established methodological approaches by transcending the geographically connotated term space and by highlighting the artificial communicative and cultural character of various borderland regions Thus borderland societies in East Central Europe exceed existing notions of concepts like Heterotopias or lieux de mémoire by contributing as entangled constructs of nation, empire and society to postcolonial area studies **[The Global Age](#)** Ian Kershaw, 2019-04-30 The final chapter in the Penguin History of Europe series from the acclaimed scholar and author of *To Hell and Back* After the overwhelming horrors of the first half of the twentieth century described by Ian Kershaw in his previous book as being to Hell and back the years from 1950 to 2017 brought peace and relative prosperity to most of Europe Enormous economic improvements transformed the continent The catastrophic era of the world wars receded into an ever more distant past though its long shadow continued to shape mentalities Yet Europe was now a divided continent living under the nuclear threat in a period intermittently fraught with anxiety There were by most definitions striking successes the Soviet bloc melted away dictatorships vanished and Germany was successfully reunited But accelerating globalization brought new fragilities The interlocking crises after 2008 were the clearest warnings to Europeans that there was no guarantee of peace and stability and even today the continent threatens further fracturing In this remarkable book Ian Kershaw has created a grand panorama of the world we live in and where it came from Drawing on examples from all across Europe The Global Age is an endlessly fascinating portrait of the recent past and present and a cautious look into our future **[Europe Thirty Years After 1989](#)** Tomas Kavaliauskas, 2020-12-07 For the last thirty years the year 1989 has symbolized a European annus mirabilis standing for such events as the fall of the Berlin Wall and the impending collapse of the Soviet Union Cultural and

political transformations in Western Europe due to the rise of the migrant crisis are now echoed in East Central Europe In Europe Thirty Years After 1989 the authors jointly explore the recent history of former socialist countries such as Bulgaria Croatia Poland Hungary the Czech republic the Baltic States and Russia Thirty years ago some of these countries stood as a paradigmatic example of peaceful and liberal patriotism but during the past thirty years some countries have experienced transformations in their values memory and identity A shift towards illiberal democracy has occurred although not without the overlapping trends in Western and Southern Europe This book is for those who wish to join and learn from the search for an interpretation and answer s to the question what happened to the legacy of 1989 over the past thirty years and why did these changes and transformations occur

Postsocialist Landscapes

Thomas Lahusen,Schamma Schahadat,2020-04-02 Since the fall of the Iron Curtain formerly socialist countries have gone through manifold transformations whilst remnants of socialism remain ubiquitous The volume explores various spaces of the postsocialist landscape presenting a mixture of real and imaginary spaces of memory and nostalgia of aesthetic and political symbolism of the global East and the global South of academic and essayistic writing It casts a glance at the heterogeneous relics of socialism and their transformation in very different parts of the world From the description of post socialist interiors fa ades neighborhoods parks monuments and objects towards the imaginary spaces of literature the contributors describe the concreteness and intimacy of some of the places that span across and even beyond of what is left of the second world today
