another animal species followed by urgent but largely unheeded calls for action An eloquent denunciation of the failures of  
Canada s government and society to protect wildlife from human exploitation Max Foran s *The Subjugation of Canadian*  
*Wildlife* argues that a root cause of wildlife depletions and habitat loss is the culturally ingrained beliefs that underpin  
management practices and policies Tracing the evolution of the highly contestable assumptions that define the human  
wildlife relationship Foran stresses the price wild animals pay for human self interest Using several examples of government  
oversight at the federal provincial and territorial levels from the Species at Risk Act to the Biodiversity Strategy Protected  
Areas Network and provincial management plans this volume shows that wildlife policies are as much or more about human  
needs priorities and profit as they are about preservation Challenging established concepts including ecological integrity  
adaptive management sport hunting as conservation and the flawed belief that wildlife is a renewable resource the author  
compels us to recognize animals as sentient individuals and as integral components of complex ecological systems A  
passionate critique of contemporary wildlife policy *The Subjugation of Canadian Wildlife* calls for belief change as the best  
hope for an ecologically healthy wildlife rich Canada
