

Reading is Thinking (Mini-Lessons)

Note: Each mini-lesson should be followed by at least 10 to 15 minutes of Self-Selected Reading (SSR) time.

Day 1 - Introducing SSR & Establishing Guidelines

- Introduce classroom library and checkout procedures.
- Work together to develop guidelines for participation during SSR time.

Day 2 - How to Choose a Book

- Ask students to share ways that readers choose books (favorite author, read the back cover, look at the pictures, etc.)
- Discourage methods that are focused on specific reading levels or AR points.

Day 3 - Refining Book Choices

- Ask students if they have ever chosen a book that was too easy or too hard for them. Have them share how they felt while reading the book.
- Introduce the terms "easy," "just right," and "challenging" as ways to identify book levels; have students help create a class chart of characteristics of each type; discuss when you might choose each type.

Day 4 - Introduce "Reading is Thinking"

- Explain that when good readers read, they are thinking as they read. Give some examples of how you might think about a book (making predictions, asking questions, visualizing, etc.)
- Write "Reading is Thinking" on the top of a sheet of chart paper and have your students help you list the ways that readers think while reading.
- Ask students to think about these ideas while reading silently; after SSR time, invite students to share how they were thinking about their books. Add any new ideas to the "Reading is Thinking" chart.

Day 5 - How to Chat with a Book Buddy

- Tell students that when you are excited about what you are reading, you often want to talk about the book with someone. Discuss and chart appropriate ways to chat with a Book Buddy (taking turns, making eye contact, listening to each other, discussing your thinking, etc.)
- At the end of SSR time, pair students with a partner and review the chart.

Growing Readers Mini Lessons:

Growing Readers Kathy Collins, 2023-10-10 Primary grade teachers face an important challenge teaching children how to read while enabling them to build good habits so they fall in love with reading. Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence, intention, and joy as readers. In *Growing Readers*, Kathy Collins helps teachers plan for independent reading workshops in their own classrooms. She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong, well-rounded readers. Kathy outlines a sequence of possible units of study for a yearlong curriculum. Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini lessons and reading conferences. There are also four Getting Ready sections that suggest some behind-the-scenes work teachers can do to prepare for the units. Topics explored in these units include print and comprehension strategies, reading in genres such as poetry and nonfiction, connecting in school reading and out of school reading, developing the strategies and habits of lifelong readers. A series of planning sheets and management tips are presented throughout to help ensure smooth implementation. We want our students to learn to read and we want them to love to read. To do this, we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day. The ideas found in *Growing Readers* create the kind of primary classrooms where that happens. *Makeover in Christ* Sherry Roe, 2021-09-21 Is it possible that we truly can have a makeover in Christ? Can we actually become more like Him just by paying attention to everyday challenges in our ordinary life? Through the Bible, there were wild and crazy happenings such as the parting of the Red Sea or Jonah resting in the belly of a whale, so how can our everyday life teach and stretch us to become more like Jesus? You will be surprised how much you can learn by opening your spiritual heart and listening to the Father, Son, and Holy Spirit as they challenge you in your ordinary or not-so-ordinary life. Strategies for Implementing Guided Math Laney Sammons, 2012-07-15 In this resource, Laney Sammons, author of *Guided Math*, delves into the strategies necessary to effectively implement the Guided Math Framework. It provides specific strategies for implementing the seven elements of the Guided Math Framework. In addition, this professional resource includes digital resources, sample lessons, activities, and classroom snapshots of strategy implementation at three grade levels: spans K-2, 3-5, and 6-8. *Strategies for Implementing Guided Math* is correlated to College and Career Readiness and other state standards. *Motivating Teen and Preteen Readers* Jeffrey Pflaum, 2011-08-16 Computer games, video games, Internet, iPods, DVDs, CDs, texting, social media, and surfing. No wonder reading has a hard time competing for adolescents' attention. Research studies find that interest in reading diminishes after the fourth grade and continues through high school.
