Juchniewicz, EdD,2011-02-07 Who are the invisible homeless They are individuals and families who have been forced into temporary living situations or shelter systems as a result of such conditions as changes in income domestic violence health care needs and shifting housing costs Unlike the chronically homeless who are often stereotyped or the situationally homeless who may receive emergency assistance regaining their previous lives the marginally homeless often called the invisible homeless get caught in institutional spirals that seem to discourage change

This book however provides evidence that an individual's literacy identity can promote positive transitions out of homelessness. Although the stigma surrounding homelessness provokes silence, the five individuals who took part in this project speak eloquently about their circumstances, their accomplishments, and their intentions. In addition, the book can serve as a how-to for completing a qualitative research project as the reader is walked through the steps of the research process.

Queer Necropolitics Jin Haritaworn, Adi Kuntsman, Silvia Posocco, 2014-02-03 This book comes at a time when the intrinsic and self-evident value of queer rights and protections from gay marriage to hate crimes is increasingly put in question. It assembles writings that explore the new queer vitalities within their wider context of structural violence and neglect. Moving between diverse geopolitical contexts: the US and the UK, Guatemala and Palestine, the Philippines, Iran, and Israel, the chapters in this volume interrogate claims to queerness in the face of death, both spectacular and everyday. *Queer Necropolitics* mobilises the concept of necropolitics in order to illuminate everyday death worlds from more expected sites such as war, torture, or imperial invasion to the mundane and normalised violence of racism and gender normativity, the market, and the prison industrial complex. Contributors here interrogate the distinction between valuable and pathological lives by attending to the symbiotic co-constitution of queer subjects folded into life and queerly abjected racialised populations marked for death. Drawing on diverse yet complementary methodologies including textual and visual analysis, ethnography, and historiography, the authors argue that the distinction between war and peace dissolves in the face of the banality of death in the zones of abandonment that regularly accompany contemporary democratic regimes. The book will appeal to activist scholars and students from various social sciences and humanities, particularly those across the fields of law, cultural and media studies, gender, sexuality, and intersectionality studies, race and conflict studies, as well as those studying nationalism, colonialism, prisons, and war. It should be read by all those trying to make sense of the contradictions inherent in regimes of rights, citizenship, and diversity.
