How Congress Evolves Nelson W. Polsby, 2004

How Congress Evolves : Social Bases of Institutional Change

Berkeley Nelson W. Polsby Heller Professor of Political Science University of California, 2003-11-14 From the end of the New Deal until quite recently the U S House of Representatives was dominated by a conservative coalition that thwarted the Democratic majority and prevented the enactment of measures proposed by a succession of liberal Presidents Today Presidents aren't necessarily liberal and the House of Representatives is not necessarily the graveyard of presidential proposals What happened Congress evolved It all began with airconditioning In this entertaining tale of one of our most august institutions Nelson Polsby describes how the Democratic majority finally succeeded in overcoming the conservative coalition changing the House The evolution required among other things the disappearance of Dixiecrats from the House Democratic caucus Dixiecrats were replaced by the rise of the Republican party in the south The Republican party in southern states was strengthened by an influx of migrants from the north who came south to settle after the introduction of residential air conditioning which made the climate more tolerable to Northerners This evolutionary process led to the House's liberalization and concluded with the House's later transformation into an arena of sharp partisanship visible among both Democrats and Republicans A fascinating read by one of our most influential political scientists How Congress Evolves breathes new life into the dusty corners of institutional history and offers a unique explanation for important transformations in the congressional environment

How Congress Evolves Nelson W. Polsby, 2004 In this tale of one of America's most august institutions Nelson Polsby argues that among other things from the 1950s to the 1990s Congress evolved He breathes new life into institutional history and offers an explanation for important transformations in the congressional environment

The Evolution of American Legislatures Peverill Squire, 2012-06-25 Squire offers a comprehensive history of

legislatures core institutions in American political development

Congressional Procedures and the Policy Process

Walter J. Oleszek, 2014 As a governing body Congress continually adapts to changes in process and practice This procedural context governs every aspect of the House and Senate and affects lawmakers as they make voting decisions expedite or delay legislation or defeat a bill Walter Oleszek's definitive work Congressional Procedures and the Policy Process examines how the majority and minority parties use procedural devices to achieve their political goals and offers an assessment of the role of conference committees in reconciling bicameral differences Not shying away from the complexity of the topic Oleszek ensures that the machinations of Congress are understandable through an array of interesting examples cases and anecdotes that he is particularly well positioned to witness and experience first hand Updates include an analysis of budget brinksmanship the increased use of filling the tree in the senate and a look at how the oversight approach of Congress triggers legislative executive clashes

The Legislative Branch Paul J. Quirk, Sarah A. Binder, 2005-10-27 Edited by Paul J Quirk and Sarah A Binder this collection of essays examines the role of the Legislature in American democracy and the

dynamic between the other branches of government and discusses possible measures for reform The volume addresses questions such as How does Congress serve the values of democracy and American constitutional principles Which conceptions of those values does it implement and which does it overlook or fail to realize What are Congress's strengths and weaknesses in performing the tasks of democratic governance What reforms if any are necessary to ensure the health and success of Congress as an institution of democracy in the future America's Three Regimes : A New Political History

Morton Keller Professor of History Brandeis University, 2007-09-26 When historians take the long view they look at ages or eras the Age of Jackson the Progressive Era But these time spans last no longer than a decade or so In this groundbreaking new book Morton Keller divides our nation's history into three regimes each of which lasts many many decades allowing us to appreciate as never before the slow steady evolution of American public life Americans like to think of our society as eternally young and effervescent But the reality is very different A proper history of America must be as much about continuity persistence and evolution as about transformation and revolution To provide this proper history Keller groups America's past into three long regimes Deferential and Republican from the colonial period to the 1820s Party and Democratic from the 1830s to the 1930s and Populist and Bureaucratic from the 1930s to the present This approach yields many new insights We discover for instance that the history of colonial America the Revolution and the Early Republic is a more unified story than usually assumed The Civil War industrialization and the Progressive era did relatively little to alter the character of the democratic party regime that lasted from the 1830s to the 1930s And the populist bureaucratic regime in which we live today has seen changes in politics government and law as profound as those that occurred in the late 18th and early 19th centuries As Keller underscores the sheer staying power of America's public institutions he sheds light on current concerns as well in particular will the current political polarization continue or will more moderate forces prevail Here then is a major contribution to United States history an entirely new way to look at our past our present and our future packed with provocative and original observations about American public life **Split** Mark D. Brewer, Jeffrey M. Stonecash, 2007

Talk of politics in the United States today is abuzz with warring red and blue factions The message is that Americans are split due to deeply held beliefs over abortion gay marriage stem cell research prayer in public schools Is this cultural divide a myth the product of elite partisans Or is the split real Yes argue authors Mark Brewer and Jeffrey Stonecash the cultural divisions are real Yet they tell only half the story Differences in income and economic opportunity also fuel division a split along class lines Cultural issues have not displaced class issues as many believe Split shows that both divisions coexist meaning that levels of taxation and the quality of healthcare matter just as much as the debate over the right to life versus the right to choose The authors offer balanced objective analysis complete with a wealth of data rich figures and tables to explain the social trends underlying these class and cultural divides and then explore the response of the parties and voters Offering solid empirical evidence the authors show that how politicians the media and interest groups perceive citizen

preferences be they cultural or class based determines whether or not the public gets what it wants Simply put each set of issues creates political conflict and debate that produce very different policies and laws With a lively and highly readable narrative students at every level will appreciate the brevity and punch of Split and come away with a more nuanced understanding of the divisions that drive the current American polity Newt Gingrich Matthew N. Green,Jeffrey Crouch,2022-07-15 Newt Gingrich is one of the most polarizing and consequential figures in US politics First elected to the House of Representatives in 1978 he rose from a minority party backbencher to become the first Republican Speaker of the House in forty years Though much has been written about Gingrich accounts of his time in Congress are incomplete and often skewed In their book Newt Gingrich The Rise and Fall of a Party Entrepreneur political scientists Matthew N Green and Jeffrey Crouch draw from newly uncovered archival material original interviews and other data to provide a fresh and insightful look at Gingrich s entire congressional career Green and Crouch argue that Gingrich is best understood as a party entrepreneur someone who works primarily to achieve their congressional party s collective goals From the moment he entered Congress Gingrich was laser focused on achieving two party related objectives a Republican majority in the House and a more conservative society as well as greater influence for himself Using a conceptual framework taken from theories of military strategy the authors explain how Gingrich initially struggled because of a mismatch between his lofty goals and the resources available to him After years of patiently cultivating allies tempering his immediate objectives and waiting for favorable circumstances to emerge Gingrich finally claimed victory in 1994 with Republicans winning control of the House and electing Gingrich as Speaker Yet while Gingrich had been creative patient and ultimately successful at gaining power for himself and his party he proved ineffective at balancing his goals with the demands of the Speakership and he resigned from Congress just four years later Newt Gingrich The Rise and Fall of a Party Entrepreneur the latest contribution to the Congressional Leaders series sheds new light on a historically important congressional leader whose complicated legacy is still debated today by scholars journalists and politicians Institutions of American Democracy Paul J. Quirk,2005-10-27 The Legislative Branch examines Congress s performance as a democratic institution identifies the forces that have shaped its development and considers the prospects for effective reforms The Legislative Branch is a collection of essays by some of the nation s leading political scientists and scholars of public policy It examines Congress s historical development the effects of its electoral campaigns and outcomes its internal structures including party leadership and the committee system its strengths and shortcomings in policymaking including budgeting and foreign policy its relations with the executive branch and the courts its public support and the dynamics of reform Each essay analyzes long term institutional developments defines their implications for democratic governance and spells out implications for reformers BOOK JACKET **Guide to U.S. Political Parties** Marjorie R. Hershey,2014-04-01 This one volume reference presents the major conceptual approaches to the study of U S political parties and the national party system describing the organization and behavior of U S political

parties in thematic narrative chapters that help undergraduate students better understand party origins historical development and current operations Further it provides researchers with in depth analysis of important subtopics and connections to other aspects of politics Key Features Thematic narrative chapters organized into six major parts provide the context as well as in depth analysis of the unique system of party politics in the United States Top analysts of party politics provide insightful chapters that explore how and why the U S parties have changed over time including major organizational transformations by the parties behavioral changes among candidates and party activists and attitudinal changes among their partisans in the electorate The authors discuss the way the traditional concept of formal party organizations gave way over time to a candidate centered model fueled in part by changes in campaign finance the rise of new communication technologies and fragmentation of the electorate This book is an ideal reference for students and researchers who want to develop a deeper understanding of the current challenges faced by citizens of republican government in the United States

Party and Procedure in the United States Congress Jacob R. Straus,2012-03-15 Party and Procedure in the United States Congress offers students and researchers an in depth understanding of the procedural tools available to congressional leaders and committee chairs and how those tools are implemented in the House of Representatives the Senate and during negotiations between the chambers

Electoral College Reform Gary Bugh,2016-04-29 The United States has not updated the Electoral College system since the Twelfth Amendment was ratified in 1804 despite public opinion polls showing a majority of Americans are in favor of changing or outright abolishing it So why hasn t the United States reformed this system Electoral College Reform brings together new essays examining all aspects of this crucial debate including the reasons for reform the issues surrounding a constitutional amendment the effect of the Electoral College on political campaigns and the possibilities for extra constitutional avenues to change The authors consider both the Federalists vision of balanced representation and a more democratic and equality based ideal These competing frameworks perhaps more than any other factor account for centuries of American indecision on this key issue By offering an unprecedented and carefully researched analysis of an always controversial subject this volume explores the potential for changing a system that many contend is long overdue

The Oxford Handbook of the American Congress Eric Schickler,Frances E. Lee,2013-03-14 No legislature in the world has a greater influence over its nation s public affairs than the US Congress The Congress s centrality in the US system of government has placed research on Congress at the heart of scholarship on American politics Generations of American government scholars working in a wide range of methodological traditions have focused their analysis on understanding Congress both as a lawmaking and a representative institution The purpose of this volume is to take stock of this impressive and diverse literature identifying areas of accomplishment and promising directions for future work The editors have commissioned 37 chapters by leading scholars in the field each chapter critically engages the scholarship focusing on a particular aspect of congressional politics including the institution s responsiveness to the

American public its procedures and capacities for policymaking its internal procedures and development relationships between the branches of government and the scholarly methodologies for approaching these topics The Handbook also includes chapters addressing timely questions including partisan polarization congressional war powers and the supermajoritarian procedures of the contemporary Senate Beyond simply bringing readers up to speed on the current state of research the volume offers critical assessments of how each literature has progressed or failed to progress in recent decades The chapters identify the major questions posed by each line of research and assess the degree to which the answers developed in the literature are persuasive The goal is not simply to tell us where we have been as a field but to set an agenda for research on Congress for the next decade The Oxford Handbooks of American Politics are a set of reference books offering authoritative and engaging critical overviews of the state of scholarship on American politics Each volume focuses on a particular aspect of the field The project is under the General Editorship of George C Edwards III and distinguished specialists in their respective fields edit each volume The Handbooks aim not just to report on the discipline but also to shape it as scholars critically assess the scholarship on a topic and propose directions in which it needs to move The series is an indispensable reference for anyone working in American politics General Editor for The Oxford Handbooks of American Politics George C Edwards III

Politics of Empowerment David Pettinicchio, 2023-05-25 A really really good book both a specific history of U S disability policy as well as a broad story of the politics of social change Jeremy R Levine American Journal of Sociology Despite the progress of decades old disability rights policy including the landmark Americans with Disabilities Act threats continue to undermine the wellbeing of this population The United States is thus a policy innovator and laggard in this regard In Politics of Empowerment David Pettinicchio offers a historically grounded analysis of the singular case of U S disability policy countering long held views of progress that privilege public demand as its primary driver By the 1970s a group of legislators and bureaucrats came to act as political entrepreneurs Motivated by personal and professional commitments they were seen as experts leading a movement within the government But as they faced obstacles to their legislative intentions nascent disability advocacy and protest groups took the cause to the American people forming the basis of the contemporary disability rights movement Drawing on extensive archival material Pettinicchio redefines the relationship between grassroots advocacy and institutional politics revealing a cycle of progress and backlash embedded in the American political system A broad and ambitious study of the evolution of American disability policy and disability rights incorporating changing policy approaches governmental institutions and social movement activities Richard K Scotch Professor of Sociology Public Policy and Political Economy University of Texas at Dallas Excellent A must read for those interested in social movements and citizen participation Andrea Louise Campbell Arthur and Ruth Sloan Professor of Political Science MIT Compelling David S Meyer University of California Irvine

Congress and Its Members Roger H. Davidson, Walter J. Oleszek, Frances E. Lee, Eric Schickler, 2017-06-10 The gold standard for Congress courses for over 30

years Congress and Its Members Sixteenth Edition by Roger H Davidson Walter J Oleszek Frances E Lee and Eric Schickler offers readers current comprehensive coverage of Congress and the legislative process by examining the tension between Congress as a lawmaking institution and as a collection of politicians constantly seeking re election The Sixteenth Edition of this best selling text considers the 2016 elections and discusses the agenda of the new Congress White House Capitol Hill relations party and committee leadership changes judicial appointments and partisan polarization as well as covering changes to budgeting campaign finance lobbying public attitudes about Congress reapportionment rules and procedures Always balancing great scholarship with currency the best seller features lively case material along with relevant data charts exhibits maps and photos

The Congress Gary Lee Malecha, Daniel J. Reagan, 2021-06-24 This work will provide an authoritative and illuminating overview of the U S Congress from the history of the Senate and the House of Representatives to the rules procedures and traditions that govern its operations and lawmaking This volume provides a comprehensive survey of the history and inner workings of the United States Congress the legislative branch of the federal government It will explain its relationship to the other two branches of government executive and judicial detail the unique structures responsibilities and procedures of both houses of Congress discuss major historical events and controversies highlight particularly influential leaders in Congress from the earliest days of the Republic to the present and show readers how the priorities of the U S Congress shift depending on whether it is held by the Democratic or Republican party This book is part of ABC CLIO s Student Guides to American Government and Politics series Each volume in the series provides a student friendly introduction to a distinct component of American governmental institutions and processes and shows how it pertains to American politics and the rights and responsibilities of citizenship

Legislating International Organization Kathryn C. Lavelle, 2011-11-11 In *Legislating International Organization* Kathryn Lavelle argues against the commonly held idea that key international organizations are entities unto themselves immune from the influence and pressures of individual states domestic policies Covering the history of the IMF and World Bank from their origins she shows that domestic political constituencies in advanced industrial states have always been important drivers of international financial institution policy This book will reshape how we think about how the US Congress interacts with international institutions and more broadly about the relationship of domestic politics to global governance throughout the world

Politics USA Robert McKeever, 2014-05-22 *Politics USA* is a lively and authoritative introduction to American politics giving students a rich and varied resource for all aspects of their course The book provides expert and comprehensive analysis of US politics and government including in depth coverage of the presidency the Congress the Supreme Court and American foreign policy This third edition of *Politics USA* has been thoroughly updated to include analysis of Challenges and policies of the first Obama administration Recent results and developments in US elections Latest major decisions of the US Supreme Court Contemporary American Foreign Policy This is an ideal introduction for students of US politics as well as anyone seeking to

understand any or all aspects of politics in one of the world's most powerful and globally influential countries **Law's**
Allure Gordon Silverstein, 2009-02-09 Law's Allure explains how when and why America's reliance on legal rules and judicial
decisions shapes, constrains, saves and sometimes even kills politics
