The specific strategies relating to establishing a new film school, law school, and physical therapy program are presented, as well as when and how to pursue national accreditation for a school's academic programs. Chapter 4 describes how analytical tools can be used to optimally invest in buildings and land. Putting those tools to work is described in examples related to the construction of a new film studio, library, underground parking, and landscape development. Chapter 5 explains how a unique budgetary system was developed to move Chapman's
