become the go to person **WHY COPS DIE (And How to Prevent It)** Gerald W. Garner, 2017-10-30 This book provides time and experience proven advice for responding safely and effectively to threats to a law enforcement officer's safety. It relies on law enforcement's bloody history to reveal what has gone wrong for a very long time and how to fix it so that no more cops die needlessly. This book identifies the cop killers and the fatal errors that cops make and it explores how these incidents happen and why. Most important of all, the book goes into detail about how to prevent these terminal errors and furnishes to the point advice for avoiding them. These tactics and techniques work. It offers the same common sense advice that solid patrol sergeants have been sharing with their briefing room charges for a long while. It has been assembled by a police chief who spent 15 years as a sergeant. WHY COPS DIE can be used in a lot of ways, all of them useful for drastically reducing the number of officers who die on the job every year. It should be issued to every law enforcement academy recruit. It is aimed across the spectrum of the law enforcement organization from the rookie to the first line supervisor to the command staff. Chiefs and sheriffs will find it of value as will those directly responsible for the training of law enforcement officers. By applying practical, potentially lifesaving advice to their daily duties, law enforcement's first line practitioners can sharply reduce the number of peacekeepers who die or are maimed in the future. That effort begins here. *How to Get a Job and Keep it* Susan Morem, 2007 Examines methods by which successful job hunts are made and the best methods to retain a job. **Toxic Schools: How to avoid them & how to leave them** Helen Woodley, Ross Morrison McGill, 2018-11-09 Helen Woodley's critical, important action research in a growing field of education is an investigation into the effect of working on a toxic school on teacher mental health and wellbeing. And strategies for coping in such schools are shared, including a wider look at how school culture can be developed to better support staff. *Psychology and Work Today* Carrie A. Bulger, Duane P. her family regardless of her own disturbed meals and broken rest that just when her children needed her most of all and that is when they were growing up her strength has failed her and she has become an invalid The lamentable part about breakdowns is the fact that they attack those who can least be spared It is not the clodhopper the navvy or the labourer the careless or the incompetent who suffer from them On the contrary we meet with them among skilled workmen business men of the greatest ability professional men of the highest acumen and experience The former can be replaced whilst these others have carved a niche for themselves which no one else can fill It is the natures of finest fibre which accomplish the most and it is they who are most liable to give way beneath the strain A common mug may fall to the ground unharmed where a piece of costly china would be smashed to atoms When a masterpiece of art is lost or stolen the whole nation grieves after it How much more so when a man of repute either in great ways or small is invalided and his services lost to the world To be continue in this ebook *How to Say It® at Work* Jack Griffin,2008-10-07 A fully revised edition of the bestselling
