Intimacy in postmodern times Peter Beilharz, 2020-09-01 Zygmunt Bauman was one of the most important social theorists of recent decades. He did major work on the Holocaust, the postmodern, and much else. Up to fifty-eight books in English on almost as many topics. In this book, Australian sociologist Peter Beilharz, Bauman's collaborator for thirty years, recounts the details of their relationship, simultaneously charting the changes that have occurred in academic life from the 1980s to today. Friendship was one of the bonds that made Bauman and Beilharz's intellectual collaboration possible. Though the two were worlds apart in terms of biography and place, their work together was defined by a certain kind of intimacy. Separated by a generation, they collaborated for a generation together. This book follows their story in touching detail while puzzling over Bauman's rich yet contested legacy.

Asking that question, this is a critical review of how the design dimension of the Urban Renaissance strategy was developed and applied, based on expert academic assessments of progress in Britain's thirteen largest cities. The case studies are preceded by a dissection of New Labour's renaissance agenda and concluded by a synthesis of achievements and failings.
