Food, Environment, and Climate Change Erinn Gilson, Sarah Kenehan, 2018-10-18 This volume takes up the pressing issues of justice and responsibility that arise at the intersection of food and agricultural systems environmental degradation and global climate change The diverse contributions examine both the various ways that food and agricultural practices contribute to environmental degradation especially climate change and the impact that climate change is having and will have on food and agricultural practices Central questions include How can the connections between food and agriculture environmental issues and climate change best be understood What are the ethical and political responsibilities of various parties in relation to this nexus of problems Whose knowledge concerns and voices are and should be valued in making global climate policy and agricultural and food policy What are the limitations of existing policies practices and theoretical frameworks for understanding and responding to these complex problems

Food and Communication Mark McWilliams, 2016 The papers explored the use of food and cookery to explore the past and the exotic and food in corporations

Canadian Literary Fare Nathalie Cooke, Shelley Boyd, 2023-05-15 When writers place food in front of their characters who after all do not need sustenance they are asking readers to be alert to the meaning and implication of food choices As readers begin to listen closely to these cues they become attuned to increasingly layered stories about why it matters what foods are selected prepared served or shared and with whom where and when In *Canadian Literary Fare* Nathalie Cooke and Shelley Boyd explore food voices in a wide range of Canadian fiction drama and poetry drawing from their formational blog series with Alexia Moyer Thirteen short vignettes delve into metaphorical taste sensations telling of how single ingredients such as garlic or ginger or food items such as butter tarts or bannock can pack a hefty symbolic punch in literary contexts A chapter on Canada s public markets finds literary food voices sounding a largely positive note just as Canadian journalists

trumpet Canada's bountiful and diverse foodways But in chapters on literary representations of bison and Kraft Dinner Cooke and Boyd bear witness to narratives of hunger food scarcity and social inequality with poignancy and insistence Canadian Literary Fare pays heed to food voices in the works of Tomson Highway Rabindranath Maharaj Alice Munro M NourbeSe Philip Eden Robinson Fred Wah and more inviting readers to listen for stories of foodways in the literatures of Canada and beyond **Be Wise! Be Healthy!** Catherine Carstairs, Bethany Philpott, Sara Wilmshurst, 2018-05-01 Lose weight Quit smoking Exercise more For over a century governments and voluntary groups have run educational campaigns encouraging Canadians to adopt healthy habits in order to prolong lives cost the state less and produce more efficient workers Be Wise Be Healthy explores the history of public health in Canada from the 1920s to the 1970s Through the Health League of Canada people were urged to drink pasteurized milk immunize their children and avoid extramarital sex Health was presented as a responsibility of citizenship and doctors and dentists as expert guides Public health campaigns have reduced preventable deaths But such campaigns can also stigmatize marginalized populations by implying that poor health is due to inadequate self care despite clear links between health and external factors such as poverty and trauma This clear eyed study demonstrates that while we may well celebrate the successes of public health campaigns they are not without controversy

Taras,Christopher Waddell,2016-03-15 Fewer Canadians than ever are lacing up skates swimming lengths at the pool practicing their curve ball and experiencing the thrill of competition However despite a decline in active participation Canadians spend enormous amounts of time and money on sports as fans and followers of sporting events and sports culture Never has media coverage of sports been more exhaustive and never has it been more driven by commercial interests and the need to fuel consumerism on which corporate profits depend But the power plays now occurring in the arena of sports are by no means solely a matter of money At issue as well in the media capture of sports are the values that inform our daily lives the physical and emotional health of the population and the symbols so long central to a sense of Canadian identity Writing from a variety of perspectives the contributors to this collection set out to explore the impact of the media on our reception of and attitudes toward sports to unpack the meanings that sports have for us as citizens and consumers Some contributors probe the function of sports as spectacle the escalation of violence controversies over drug use and the media s coverage of tragic deaths while others shed light on the way in which the media serve to transform sports into a vehicle for the expression of identity and nationalism The goal is not to score points but to prompt critical discussion of why sports matter in Canadian life and culture and how they contribute to the construction of identity **How Canadians**

Communicate III Bart Beaty,Derek Briton,2003 What does Canadian popular culture say about the construction and negotiation of Canadian national identity This third volume of How Canadians Communicate describes the negotiation of popular culture across terrains where national identity is built by producers and audiences government and industry history and geography ethnicities and citizenships Canada does indeed have a popular culture distinct from other nations How Canadians Communicate III gathers the country s most inquisitive experts on Canadian popular culture to prove its thesis

Food Promotion, Consumption, and Controversy Charlene Elliott,2015 Food nourishes the body but our relationship with food extends far beyond our need for survival We use food choices not only to express our personal tastes but also and perhaps more importantly to declare our affiliation with certain groups to the exclusion of others Thanks to a newly global

system of food production however coupled with rising concerns about the nutritional value of the foods we consume and the impact of our increasingly sedentary lifestyles the modern foodscape has become remarkably difficult to navigate A single food item may for example be labelled with health related claims made by the manufacturer that do not dovetail with the information provided in the Nutrition Facts label In the media sphere the enormous amount of food related advice provided by government agencies assorted advocacy groups diet books and so on compete with efforts on the part of the food industry to sell their product and to respond to a consumer driven desire for convenience As a result the topic of food has grown fraught engendering sometimes acrimonious debates about what we should eat and why This volume is the latest to emerge from a series of workshops about the role of media in Canadian popular culture By examining topics such as the values embedded in food advertising the meaning of organic and natural the locavore movement food tourism dinner parties food bank donations the moral panic surrounding obesity food crises and fears about food safety the contributors to this volume paint a rich if at times disturbing portrait of how food is represented regulated and consumed in Canada We also hear from food insiders bestselling cookbook author and food editor Elizabeth Baird veteran restaurant reviewer and food writer John Gilchrist executive chef and culinary tourism provider Eric Pateman who provide valuable insights about the way that Canadians cook eat and experience food The result is a thought provoking look at food as a system of communication through which Canadians articulate cultural identity personal values and social class

Body Talk Mary M. Lay, 2000 This text explores the rhetoric of reproductive technology throughout the 20th century examining the ways discourse about these technologies has shaped thinking about reproduction and women's bodies framed public policy and empowered or marginalized points of view

Talk is Cheap Robert W. Crandall, Leonard Waverman, 2010-12-01 The rapid pace of technological change is placing the world's telephone companies in a very difficult position Fiber optics cables wireless telephones digital signal compression and sophisticated new switching equipment are lowering the cost of providing service and opening the gates to new competition At the same time these new technologies are providing the telephone companies with a wide array of new market opportunities Unfortunately their status as regulated carriers makes it difficult to exploit these new opportunities and to fend off competitive assaults on their traditional telephone business As long as they

are regulated they can be accused of using their monopoly services to cross subsidize new competitive ventures But partial deregulation and open entry would be a catastrophe for them unless they were allowed to revise their rate structure There is a widespread misconception that the U S telecommunications industry has been deregulated and that Canadian authorities are following the U S lead In fact most services remain regulated even though some markets such as long distance services equipment sales and rentals and local services have been opened up This book reviews the recent changes in the structure of U S and Canadian telecommunications industries and the changes in regulatory policy on both sides of the border The authors analyze the effects of these changes in regulation on telephone rates in both the local and long distance markets with particular emphasis on the impacts of regulatory reforms and competition on long distance rates They use their results to suggest how regulation should be structured to allow competition to replace monopoly on the road to the information superhighway The authors contend that for decades misguided regulation of the telephone sector in both Canada and the U S denied consumers the benefits of competition distorted local and long distance telephone rates and blocked entry of new carriers and new technologies They warn that the continued regulation of the telecommunications industry could be responsible for slowing the transition from plain old telephone service to a telecommunications marketplace that offers a wide variety of services They conclude by outlining the choices open to policymakers and calling for liberalized competition all along the information superhighway The Effects of the 1986 Federal Budget on Agriculture and Rural America United States.
