

4 MiraLAX Facts You Didn't Know

The
real poop
on giving
children
PEG 3350

FACT #1

Doctors rely too heavily on MiraLAX.

The problem with PEG 3350: Soft poop often oozes around the clog, solving nothing. Chronically constipated kids also need enemas or glycerin suppositories (solid or liquid).

WHAT MIRALAX DOES:

Draws water into the colon, softening stool so pooping doesn't hurt.

WHAT MIRALAX DOESN'T DO:

Dislodge the hard, rectum-clogging stool mass that causes bedwetting and accidents.

FACT #2

Enemas resolve wetting far better than MiraLAX.

In a study of 60 children* who wet their pants daily, after 3 months:

of children treated with PEG 3350 stopped wetting

of children treated with enemas stopped wetting

Why? Because enemas let the rectal diameter shrink back to normal size: < 3 cm.

After 3 months, rectal diameter of:

- PEG 3350 group: 5 cm
- Enema group: 2.15 cm

FACT #4

MiraLAX is **not** a lifetime solution to constipation!

Once constipation resolves, children should stay on osmotic laxatives for 3 to 6 months and must, forever:

- Eat "real" rather than highly processed food
- Drink plenty of water
- Stay active

FACT #3

If you worry about PEG 3350 safety, you have options.

Effective osmotic laxatives with unquestioned safety include:

- Magnesium citrate (powder or capsules)
- Lactulose (prescription liquid)
- Magnesium hydroxide (chewable tablets)

FDA-funded researchers are investigating whether PEG 3350 triggers psychiatric symptoms, as some parents have reported. So far, 100+ studies have found PEG 3350 safe for children.

A hilarious book
about healthy pooping.

[True Confessions of an Ambivalent Caregiver](#) Cindy Eastman, 2025-07-30 Written for caregivers of parents and spouses this funny but brutally honest collection of essays from award winning author Eastman challenges the romanticized notion of caregiving portraying it as an elegant conflict that reshapes family dynamics At first grateful to be able remodel the dining room of her family s modest home in Connecticut to accommodate her eighty six year old father for what everyone felt would be a short duration of care Cindy Eastman ultimately experienced a whole gamut of feelings over the course of what turned out to be four years of caring for her dying dad Caregiving impacts everyone and this account told in essays recorded before during and after the time Eastman s father was with her details that impact not just on the primary caregiver but also the rest of the family One of the reasons Eastman committed to writing down her experiences was because she predicted that once her dad died there would be a tendency to soften or even deny any of the negative and challenging times and there were many As of 2020 more than 53 million adults provide homecare in this country and the reality of that arrangement is different for every family It is not as some might suggest a noble gesture but

rather an elegant conflict an intricate reassembling of the family dynamic that many people don't ever see coming In these candid often poignant essays Cindy Eastman brings all the emotions of taking on the challenging responsibility of caregiving a parent at the end of their life to the surface
