Trustworthy Distributed Usage Control Enforcement in Heterogeneous Trusted Computing Environments
Wagner, Paul Georg, 2025-01-17 Distributed usage control allows to regulate the use of data even after sharing However existing solutions are susceptible to manipulation by dishonest data receivers This work investigates the use of trusted computing to achieve a trustworthy usage control enforcement process For this a suitable system architecture and several remote attestation protocols are designed and implemented The resulting usage control framework is evaluated using a smart manufacturing application scenario

Formal Methods for Components and Objects Bernhard Beckert, Ferruccio Damiani, Frank S. de Boer, Marcello M. Bonsangue, 2013-01-05 Formal methods have been applied successfully to the verification of medium sized programs in protocol and hardware design for some time However their application to the development of large systems requires more emphasis on specification modeling and validation techniques supporting the concepts of reusability and modifiability and their implementation in new extensions of existing programming languages like Java This book contains 20 revised papers submitted after the 10th Symposium on Formal Methods for Components and Objects FMCO 2011 which was held in Turin Italy in October 2011 Topics covered include autonomic service component ensembles trustworthy eternal systems via evolving software data and knowledge parallel patterns for adaptive heterogeneous multicore systems programming for future 3D architectures with many cores formal verification of object oriented software and an infrastructure for reliable computer systems
