The Public Sector Accounting, Accountability and Auditing in Emerging Economies Kelum Jayasinghe,Nirmala Nath,Radiiah Othman,2015-10-16 Volume 15 of Research in Accounting in Emerging Economies focuses on how NPM ideas have been conceptualised implemented and affected the accounting accountability and auditing practices in emerging economies characterised by different ideologies social and political factors

Advanced Research Methods in the Built Environment Andrew Knight,Les Ruddock,2009-03-16 This book provides a bridge between the introductory research methods books and the discipline specific higher level texts Its

unique feature is the coverage of the detailed process of research rather than the findings of research projects Chapter authors have been carefully selected by their expertise discipline and location to give an eclectic range of perspectives Particular care has been taken to balance positivist with interpretivist approaches throughout The authors focus is on the practical consequences of research philosophies strategies and techniques by using their own research and by evaluating the work of others Advanced Research Methods in the Built Environment addresses common topics raised by postgraduate level researchers rather than dealing with all aspects of the research process Issues covered range from the practicalities of producing a journal article to the role of theory in research The material brought together here provides a valuable resource for the training and development of doctoral and young researchers and will contribute to a new sense of shared methodological understanding across built environment research

Enacting Research Methods in Information Systems: Volume 1 Leslie P. Willcocks, Chris Sauer, Mary C. Lacity, 2016-05-30 This edited three volume edition brings together significant papers previously published in the Journal of Information Technology JIT over its 30 year publication history The three volumes of Enacting Research Methods in Information Systems celebrate the methodological pluralism used to advance our understanding of information technology's role in the world today In addition to quantitative methods from the positivist tradition JIT also values methodological articles from critical research perspectives interpretive traditions historical perspectives grounded theory and action research and design science approaches Volume 1 covers Critical Research Grounded Theory and Historical Approaches Volume 2 deals with Interpretive Approaches and also explores Action Research Volume 3 focuses on Design Science Approaches and discusses Alternative Approaches including Semiotics Research Complexity Theory and Gender in IS Research The Journal of Information Technology JIT was started in 1986 by Professors Frank Land and Igor Aleksander with the aim of bringing technology and management together and bridging the great divide between the two disciplines The Journal was created with the vision of making the impact of complex interactions and developments in technology more accessible to a wider audience Retaining this initial focus the JIT has gone on to extend into new and innovative areas of research such as the launch of JITTC in 2010 A high impact journal JIT shall continue to publish leading trends based on significant research in the field

The Oxford Handbook of Identities in Organizations Andrew D. Brown, 2020-01-09 Conceived as the meanings that individuals attach to their selves a substantial stockpile of theory related to identities accumulated across the arts social sciences and humanities over many decades continues to nourish contemporary research on self identities in organizations In times which are more reflexive narcissistic and fluid the identities of participants in organizations are increasingly less fixed and less certain making identity issues both more salient and more interesting Particular attention has been given to processes of identity construction often styled identity work Research has focused on how why and when such processes occur and their implications for organizing and individual group and organizational outcomes This has resulted in a burgeoning stream of research from discursive dramaturgical symbolic

socio cognitive and psychodynamic perspectives that most often casts individuals efforts to fabricate identities as intentional relational and consequential. Seemingly intractable debates centred on the nature of identities their relative stability or fluidity whether they are best regarded as coherent or fractured positive or not and how they are fabricated within relations of power combined with other conceptual issues continue to invigorate the field. However these debates have also led to some scepticism regarding the future potential of identities research. Yet as the chapters in this Handbook demonstrate there are considerable grounds for optimism that identity as root metaphor nexus concept and means to bridge levels of analysis has significant potential to generate multiple compelling streams of theorizing in organization and management studies.

Engines of Economic Prosperity Meltem Ince-Yenilmez, Burak Darici, 2021-09-01 This book considers the extent to which innovation and entrepreneurship are engines of economic prosperity. It brings together theorists and empiricists from diverse backgrounds to provide a comprehensive overview of the field of entrepreneurship focusing specifically on entrepreneurial developments within Turkey and the surrounding regions and Europe. It looks at innovation, creativity, economic development and women's empowerment. This book considers the for-profit and the not-for-profit sectors and examines outcome metrics such as change, sustainability and employment in addition to economic value. This book will inspire academics and students to better understand the origins, evolution and impact of new ideas, new organizations and new industries and the impact on the economy. This book offers an excellent foundation for investigating and questioning current entrepreneurial practices across developed economies. It will also provide the foundations for researching and evaluating new and existing approaches to emerging technologies. Additionally, the book will offer useful insights into the real world and will appeal to academics in economics and business as well as those studying entrepreneurship on the international scene.

Issues in Accounting and Finance Peter Atrill, Lindsey Lindley, 2019-01-04 First published in 1997, this volume and its contributors take stock of current issues in accounting and finance. Adaptive Management Innovation Haifen Lin, 2018-04-03 This book discusses adaptive management innovation which has been successfully implemented in other areas. It proposes a theory on this field by considering the importance and popularity of adaptive management innovation in China and around the globe and focusing on its nature. It also establishes a process framework through which adaptive management innovation occurs, explores how individual characteristics of individual managers affect their adoption decision, examines the effects of a firm's dynamic capability on each phase of adaptive innovation and addresses how intangible management innovation supports the process of tangible product innovation to produce effects. By exploring the process, adoption decision drivers and effects of adaptive management innovation, the book offers abundant applications for managerial practice.
