Guerra De Abastecimiento:

Información comercial española, 1942 Military Entrepreneurs and the Spanish Contractor State in the Eighteenth Century Rafael Torres Sánchez, 2016-07-01 Military Entrepreneurs and the Spanish Contractor State in the Eighteenth Century offers a new approach to the relationship between warfare and state construction Historians looking at how war funding impinged on state development and how state growth made wars more significant have tended to downplay the role of military provisioning entrepreneurs Written off as corrupt and selfish these entrepreneurs jarred with the received view of a rationally growing and modernising state This volume shows that the state entrepreneur relationship was much more fluid and constant than previously thought The state was not able to enforce a top down military supply policy at the same time it benefited from the entrepreneurs collaboration and their shared mercantilist ambitions The entrepreneurs mobilisation of military supplies was crucial for extending state authority and helped to knit together national and colonial markets But this fluid state entrepreneur relationship gradually became shrouded in privileges and monopolies not so much ideology driven or imposed by the entrepreneurs but rather as an arrangement exploited by the state to boost its control over them whittling down middlemen and ensuring the solvency and creditworthiness of the chosen few This arrangement spiralled into a risky inter dependence and cramped entrepreneurial competition Rafael Torres Sánchez furnishes new insights into the role of military entrepreneurs in debates about warfare and state construction

Interacting Francoism José M. Faraldo, Gutmaro Gómez Bravo, 2023-06-23 The book presents various investigation into 20th century European dictatorships with its focus on Franco's dictatorship and the Spanish Civil War Franco's dictatorship in Spain 1936 1939 1975 1978 was a modern form of authoritarianism with a strong totalitarian period like many other dictatorships of the time Francoism occupies a place in history alongside other different dictatorships of its age and a comparative analysis might prove to be a powerful tool in order to understand how in the middle of the 20th century such a repressive and authoritarian form of political control emerged One of the most forgotten fascisms which at the same time was influenced by and influenced other dictatorships there are many aspects of the transnational connections of Francoism that remain under researched Following this methodology thus an attempt is made to situate Francoism in the context of the other dictatorships of the time in an attempt to transcend explanations centered on the nation The chapters cover groundbreaking topics such as the Spanish Civil War as one of the first total wars or Spanish fascism in context as one of the main European totalitarianisms

The chapters always have more than one dimension they speak of interrelation entanglement collaboration and diffusion and in general put the different dictatorships essentially Francoism diverse Fascisms and Communism in context and comparison
