How Pakistan Fear Narendra Modi:

Modi: The Challenge of 2024 Minhaz Merchant, 2024-06-10 The Opposition's 26 party Indian National Developmental Inclusive Alliance INDIA aims to pose a serious challenge to the BJP led National Democratic Alliance NDA in the 2024 Lok Sabha election. Despite the coalition leaders' ideological differences and regional rivalries, their overwhelming intent is to prevent Narendra Modi from becoming the first Indian since Jawaharlal Nehru to win three successive five year prime ministerial terms. The 2024 Lok Sabha election could prove historic. If Narendra Modi wins a third successive five year prime ministerial term, he will be the first Indian leader to do so since Jawaharlal Nehru. In this sweeping account of events leading up to the 2024 General Election, Minhaz Merchant analyses how Modi has shaped Indian politics, economics and culture during his decade as prime minister. The book examines whether the Opposition's strategy to present a united front can derail the BJP's juggernaut. For example, can Congress leader Rahul Gandhi, West Bengal Chief Minister Mamata Banerjee and regional satraps in Opposition ruled states put aside their differences? Minhaz Merchant has met and interviewed Modi several times since 2012. The author analyses Modi's policies across key domains: geopolitics, economics, technology and social reform. Broken up into ten broad sections and thirty-one chapters, the book decodes Modi's evolution over the past decade from a regional leader to a global statesman.

How Modi Won It Harish Khare, 2015-02-01 Marked by deep ideological divisions, a massive advertising blitz and an election campaign that could claim to rival the US presidential polls, the 2014 general election has been called historic for its verdict: a political party received a majority in the Lok Sabha for the first time in three decades. In this personal, partisan and superbly perceptive narrative of how the dice rolled in the four months leading up to 16 May 2014, Harish Khare, journalist, columnist, scholar and former media advisor to Prime Minister Manmohan Singh, provides an honest, impassioned record of India's greatest democratic exercise. Through a meticulous account of what he saw, heard and read during this time, Khare elucidates how the different political stakeholders kneaded into their day-to-day campaign rhetoric the latent cultural angst, economic anxieties and political expectations of a nation that has changed irrevocably over the past decade to persuade the Indian voter to cast a decisive vote. From the brilliant and flexible campaign pitch made by the BJP to the jaded and outdated Congress rhetoric, from openly expressed middle class aspirations to rural India's resurgent hopes and from communal polarization to shifting caste equations, *How Modi Won It* provides brilliant insight into and an incisive assessment of one of the most memorable elections in the country's history.

The Prospect of Nuclear Jihad in South Asia Musa Khan Jalalzai, 2015-10-01 When we talk about Pakistan's nuclear weapons, armed forces and civilian governments, then controversies and uninvited misperceptions swirl in our minds. If we take in the broad picture, we inevitably conclude that not all is going in the right direction in the country and that is because the army, politicians and the establishment perceive jihadism as a profitable business. They run this business of killings and torture through their proxies. While we study the militarized mind of Pakistani generals and recognize their resentment towards civilian

governments we find more controversies about the role of armed forces and their relationship with worldwide terrorist organizations International journalist Musa Khan Jalalzai is ideally positioned to present us with a picture of what is actually afoot and what it means for the future When we study the militarized mind of Pakistani generals and recognize their resentment towards civilian institutions we find more controversies about the role of armed forces and their relationship with worldwide terrorist organizations The Pakistan military controls the financial market stock exchange real estate business banking sector and smuggling of narcotics Ethnic representation within the armed forces raises serious concerns Some experts say this is not a national army but view it as the club of Pashtun and Punjabi generals The army has failed to develop a true ethnic representation process or motivate Baloch and Sindhis to join the armed forces but they certainly have gained experience in killing innocent civilians Then there is the question of the Saudi investment in Pakistan s Islamic nuclear bomb Saudi Arabia s link with Pakistan s nuclear and missile program has long been the source of speculation that Pakistan might either station nuclear forces on Saudi sand or provide a nuclear umbrella to the Wahabi state in return for oil supply or that the Saudis would purchase nuclear weapons from Pakistan International journalist Musa Khan Jalalzai is ideally positioned to present us with a picture of what is actually afoot and what it means for the future *South Asia and the Great Powers* Sten Rynning,2017-02-23 Where the implications of war and peace are open to question the possibility of change depends more on politics than economics This book asks whether the region s great powers can overcome opposing interests and commit to political restraint The concept of regional security is based on great power support for regional order However there are many pitfalls to consider notably the politics of contested nationalisms the Asia Pacific rivalry of China and the US and India s inclinations to function or be seen as a benevolent hegemon for the region Yet there are signs of renewed determination to move the region in new directions While China s Silk Road projects are long term regional investments that hinge on regional stability the US is attempting to fashion new partnerships and India strives to reconcile regional differences to promote a peaceful environment This book as it sets out the emerging agendas of the great powers and local powers makes a significant contribution to a better understanding of the international relations and diplomatic politics of South Asia **Modi's India** Christophe Jaffrelot,2023-04-11 A riveting account of how a popularly elected leader has steered the world s largest democracy toward authoritarianism and intolerance Over the past two decades thanks to Narendra Modi Hindu nationalism has been coupled with a form of national populism that has ensured its success at the polls first in Gujarat and then in India at large Modi managed to seduce a substantial number of citizens by promising them development and polarizing the electorate along ethno religious lines Both facets of this national populism found expression in a highly personalized political style as Modi related directly to the voters through all kinds of channels of communication in order to saturate the public space Drawing on original interviews conducted across India Christophe Jaffrelot shows how Modi s government has moved India toward a new form of democracy an ethnic democracy that equates the majoritarian community with the nation and

relegates Muslims and Christians to second class citizens who are harassed by vigilante groups He discusses how the promotion of Hindu nationalism has resulted in attacks against secularists intellectuals universities and NGOs Jaffrelot explains how the political system of India has acquired authoritarian features for other reasons too Eager to govern not only in New Delhi but also in the states the government has centralized power at the expense of federalism and undermined institutions that were part of the checks and balances including India s Supreme Court Modi s India is a sobering account of how a once vibrant democracy can go wrong when a government backed by popular consent suppresses dissent while growing increasingly intolerant of ethnic and religious minorities

Kashmir "Face-Off" India's Quandary A K Ganguly, 2021-04-01 The book Kashmir Face Off India s Quandary is about Kashmir How it remained in the suspended animated state since 1947 in three parts Pakistan Occupied Kashmir China Occupied Kashmir and rightfully held Indian Jammu and Kashmir So many years have passed in status quo state and none of the actors is ready to budge an inch The legal status of Jammu and Kashmir J K as per the documentary evidence and seconded by the British Empire the day the Maharaja of the State signed the Accord of Accession in 1947 October This had made both Pakistan and China not recognising the accord Pakistan invaded India to take by force J K Indian Army drove out the invading forces but as ceasefire came into being certain territories were still held by Pakistan Same was the case with China who in 1962 captured Aksai Chen and never returned it to India These occupied territories were and have been used in fermenting problems and instability based on communal lines with a view to breakaway Kashmir from India With the abrogation of special status which Pakistan and China have been exploiting both these countries got the jolt which they were never expecting It was for the first time India declared the occupied territories as part of India in August 2019 and put the reclamation of the same In this book the modus modalities and way out have been discussed to get back all the occupied territories even at the cost of going in for forced reclamation The narrative has been made interesting with Maps and debating the pros and cons where India stands and what it must do to improving its posturing of reclamations

Pakistan Under Siege Madiha Afzal, 2018-01-02 Over the last fifteen years Pakistan has come to be defined exclusively in terms of its struggle with terror But are ordinary Pakistanis extremists And what explains how Pakistanis think Much of the current work on extremism in Pakistan tends to study extremist trends in the country from a detached position a top down security perspective that renders a one dimensional picture of what is at its heart a complex richly textured country of 200 million people In this book using rigorous analysis of survey data in depth interviews in schools and universities in Pakistan historical narrative reporting and her own intuitive understanding of the country Madiha Afzal gives the full picture of Pakistan s relationship with extremism The author lays out Pakistanis own views on terrorist groups on jihad on religious minorities and non Muslims on America and on their place in the world The views are not radical at first glance but are riddled with conspiracy theories Afzal explains how the two pillars that define the Pakistani state Islam and a paranoia about India have led to a regressive form of Islamization in Pakistan s narratives laws

and curricula These in turn have shaped its citizens attitudes Afzal traces this outlook to Pakistan s unique and tortured birth She examines the rhetoric and the strategic actions of three actors in Pakistani politics the military the civilian governments and the Islamist parties and their relationships with militant groups She shows how regressive Pakistani laws instituted in the 1980s worsened citizen attitudes and led to vigilante and mob violence The author also explains that the educational regime has become a vital element in shaping citizens thinking How many years one attends school whether the school is public private or a madrassa and what curricula is followed all affect Pakistanis attitudes about terrorism and the rest of the world In the end Afzal suggests how this beleaguered nation one with seemingly insurmountable problems in governance and education can change course

Unbattled Fears: Reckoning the National Security Sumit Walia, 2021-02-16 Strategic thinking has not been part of our national discourse Till the end of 20th century there were a very few public or private think tanks discussing the challenges our nation faced There was no private news channel till 1999 and when they started they went about doing their news business Lack of strategic thinking was apparent during 1962 war with China when we had clear indications of heinous moves and design of China The Indian Army had submitted reports highlighting the Chinese threat but it all fell on deaf ears The Prime Minister of the time thumped the table and said It is not the job of Commander in Chief to tell the Government who will attack India China will never attack us rather China would come to our rescue if needed You should concentrate on Pakistan Rest is history Successive governments did not learn the lesson Strategic and National Security matters were still prerogative of government institutions Till 2000 there were a few government funded or private think tanks United Service Institution of India Indian Direct Selling Association Indian Defence Review etc working on this vital subject New think tanks came up but their reach was limited There appears to be much more interest in masses now than what it was 20 years ago This book is a compilation of articles written on different subjects It is divided in four sections every section dealing with a different subject Readers should consider the backdrop date given at the first page of every chapter This will help putting things in the right perspective
