Earl,Helen Timperley,2008-02-29 This the first book in the series Professional Learning and Development in Schools and Higher Education is edited by two experienced committed and skilled educationists from different parts of the world but with converging values and viewpoints The result is a rich m lange of authors from the USA Australia South Africa Canada and New Zealand all of whom focus on the use of evidence informed decision making in schools and classrooms This focus makes for an unusual collection which acts as an antidote to change agendas which are entirely results driven The book provides evidence from a variety of countries of how s tem leaders teachers in schools and higher education must now manage as part of their endeavours to provide the best possible learning and achievement opportu ties for all students What makes this book unique is its engagement with the rea ties of the challenge of evidence informed conversations which all too quickly become activity traps as teachers are steered away from evidence towards ado ing short term pragmatic or ideological solutions which suit the policy agendas of reformists from outside schools and more often than not fail to result in real changes in teaching and learning **Residential Interventions for Children, Adolescents, and Families** Gary M. Blau,Beth Caldwell,Robert E. Lieberman,2014-06-05 Now more than ever there is a need to ensure that best practices are being used in residential programs As the focus on costs and outcomes increase residential programs must clearly demonstrate that the interventions provided are efficient and effective Readers will learn how to Create strength based empowering and healing environments Better engage and partner with children adolescents and families in meaningful ways Support those who have experienced trauma and loss and to prevent and eliminate the use of restraint and seclusion Respect and include cultural indices in practices Train mentor supervise support and empower staff about how to deliver promising and best practices and evidence informed and evidence based interventions and Track long term outcomes and create funding strategies to better support sustained positive outcomes This book encourages readers to think strategically about how agencies communities and systems can identify and implement actions that lead to positive change and how to work more collaboratively to improve the lives of children and adolescents who have experienced emotional and behavioral life challenges and their families **A Safe Place for Change, revised 2nd edition** Hugh Crago,Penny Gardner,2019-02-15 It is increasingly recognised that the strength of the bond between counsellor and client is the best indicator of a good outcome for the client The theoretical

model employed by the counsellor matters less than the relationship the counsellor can build with each individual client Yet first year counselling students continue to be taught about different models of therapy and specialised approaches supposedly needed by clients with different problems The result is often confusion and uncertainty and many trained counsellors graduate without a solid grasp of how to form an authentic relationship with any client Unlike most texts *A Safe Place for Change* focuses squarely on the therapeutic relationship Skills are presented in terms of their contribution to the relationship Theories and models are referred to throughout but the authors emphasise what the different approaches have in common rather than the specialised terminology that often makes them seem more different than they actually are The personal capacities and skills that distinguish a good counsellor or therapist are presented in the same order in which they would appear within the actual therapeutic relationship The initial chapters teach holding and exploring skills that are almost automatically required in the first few sessions with a new client Then follows a chapter that deals with the challenge to the counsellor client relationship which often appears after the first two sessions and shows counsellors how they can respond most usefully to that challenge As the therapeutic relationship continues and deepens it becomes possible to invite clients to consider how they might be contributing to their own problems the skill of gentle honesty or encountering Finally the authors introduce two different approaches to achieving change solving the problem via advice instruction and homework and re-parenting the person something that is more likely to be crucial in long term work with clients who present entrenched difficulties in living and relating Well written insightful and accessible this textbook speaks directly to students of counselling and psychotherapy recognising their needs and their challenges The authors real world experience is evident throughout the book as is their skill in teaching complex concepts in clear language *El-Hi Textbooks in Print* ,1984 *Health and Wellness* Gordon Edlin,Eric Golanty,2015-08-04 Preceded by *Health and wellness* Gordon Edlin and Eric Golanty c2014

Reimagining Civic Education Doyle Stevick, 2007. This volume surveys the new global landscape for democratic civic education. Rooted in qualitative research the contributors explore the many ways that notions of democracy and citizenship have been implemented in recent education policy, curriculum and classroom practice around the world. From Indonesia to the Spokane Reservation and El Salvador to Estonia these chapters reveal a striking diversity of approaches to political socialization in varying cultural and institutional contexts. By bringing to bear the methodological, conceptual and theoretical perspectives of qualitative research this book adds important new voices to one of education's most critical debates: how to form democratic citizens in a changing world.
