Siobhán E. Merriman,Katherine L. Plant,Kirsten M. A. Revell,Neville A. Stanton,2024-04-30 Since the introduction of
Automated Vehicles AVs on roads there have been a number of high profile collisions which have highlighted significant
driver challenges These include challenges associated with drivers trust in the automation their knowledge and awareness of
the AV s capabilities and limitations and their reduced situation awareness of the road environment and the vehicle Solutions
are needed to overcome these challenges so that the expected benefits of AVs can be realised Driver Training for Automated
Vehicles A Systems Approach identifies the training requirements for drivers of AVs and takes a systematic approach to
design develop implement and evaluate a comprehensive training package to address these requirements This book explores
how training can overcome the driver challenges associated with AVs by improving drivers mental models trust in automation
decisions and behaviour when activating a Level 4 AV It presents a systematic approach to the training lifecycle by first
presenting the current state of research into AVs identifying the challenges and training requirements for drivers of AVs and
then developing and evaluating a training programme to achieve these requirements This fascinating title highlights the need
for drivers to undergo training for AVs and takes us a step closer to this need It walks readers through a systematic four step
process and provides practical guidance to develop and evaluate an effective training programme The reader will develop a
thorough understanding of the current driver challenges with AVs and the methods and systems to mitigate them through
current knowledge and research This book is an ideal read for practitioners designers and academics with a professional or
