100 years after the end of the American Civil War, the nation is still divided. The Civil War was a defining moment in American history, and its legacy is still felt today. The war was fought over the issue of slavery, and it resulted in the abolition of slavery in the United States. The war also led to the Reconstruction era, which was a period of rebuilding the South and integrating African Americans into the mainstream of American society. The legacy of the Civil War is still felt today, as the nation continues to grapple with the issues of race and equality.
